will be continuing rain with highs in the low or mid 50s. There will also be a 70 percent chance of rain Thursday night with lows in the upper 40s.

It's rainin' again

Sue Cox, Lori McKinlay and Kathleen Young huddle under an umbrella together to avoid the rain Wednesday afternoon. Thursday's weather is expected to be cool and wet also. (News photo by Suzanne Cummings)

Officials: new college will not decrease cost

by Crystal Schrof

Eastern's School of Technology faculty members believe the proposed College of Applied Arts would not decrease administrative costs and would result in loss of school representation.

A School of Technology Reorganization Committee, composed of five Technology faculty members, drafted a position paper in response to Eastern President Stanley Rives' recent proposal.

Rives' proposal would establish the College of Applied Arts, a combination of the School of Home Economics, School of Technology, Career Occupations Program and Military Science Program. In addition, Barbara Owens, dean of the School of Home Economics, would become dean of the College of Applied Arts.

In the position paper, faculty cited Rives' statement that one of the major reasons for the reorganization proposal is the real savings in administrative costs.

However, Ronald Jones, School of Technology Reorganization Committee chairman, said, "Dr. Rives did not produce any formal budget or even a projected cost analysis for the proposed reorganization."

After conducting a reorganization administrative cost study, Jones said, "Projected administrative costs as a result of implementing the proposal to establish a College of Applied Arts show a defirited increase in administrative expenses rather than a decrease in administrative expenses."

In addition, the proposal would have a negative effect on the School of Technology, he said.

"Moving from a full-time dean's level representation to a half-time dean's representation at the Dean's Council will obviously result in a significant decrease in representation for the School of Technology," he added.

"It should be recognized that the new dean will represent the new college (See OFFICIALS, page 7)

Sims: township should pay for extra ambulance help

by Kevin McDermott

A Coles County Board member has suggested that Charleston's township area take financial responsibility for providing ambulance service to areas outside the city limits.

Gene Sims, chairman of the public health and safety committee of the Coles County Board, said the controversy between Charleston and the board could be resolved if areas outside the city assumed financial responsibility for ambulance services in their area.

Under an agreement with the council, Charleston had provided the township area outside the city with ambulance service in return for a \$25,000-a-year subsidy from the Coles County Board.

However, the Coles County Board ended last August to end the subsidies, effective Dec. 1.

Charleston Finance Commissioner John Beusch said that ambulance service to areas outside Charleston city limits will end as of Dec. 1 unless the council and the board can come to an agreement regarding the subsidies.

At a meeting Tuesday night between city and county officials, Sims proposed that ambulance services in the county divide the areas which they would serve.

Under the proposed plan, a special tax would be levied in each township to pay for the service. The nature of the tax levy would be determined by population, Sims said.

"We're trying to get the outlying areas involved," he said at the meeting. "We're trying to set up a plan where you set a price on the ambulance service and each township will have a fund to pay for it."

Coles County Public Health and

Safety Committee member Marion Bertolet said Wednesday that he agreed with Sims' proposal, adding he thinks the responsibility for ambulance service should be given to the townships rather than the cities.

Coles County Finance Committee member Tim Yow suggested at the meeting that the ambulance subsidy program to Charleston be continued for 90 days to prevent service outside Charleston city limits from ending.

"We've got a real problem here," Yow said. "Ambulance service is something people think is God-given."

It will be a "rude awakening" to people in unincorporated areas around Charleston if the city has to cut off service outside city limits, he said.

The 90-day extension on the subsidies would allow people affected by the discontinuation of ambulance ser-

vices to be adequately warned, he added.

Yow said Wednesday that he was "relatively sure" the Public Health and Safety Committee would recommend that the board approve the extension.

Bertolet said Wednesday that he believes the extension proposal will be brought to the attention of the county board, but did not know whether it would pass.

Coles County Public Health and Safety Committee member Jerry Welch also said that Yow's proposal to extend the subsidies to Charleston was the wrong approach, and added that he would oppose Yow's proposal if it was presented at the county board meeting.

"We shouldn't subsidize any services, if we don't subsidize" other cities in the county, Welch said.

Cut in enrollment result of low stipend level—teacher

by Crystal Schrof

The recent decline in Eastern's graduate school enrollment may be a result of Eastern's graduate stipends not being comparable to other Illinois universities' stipends.

Dave Buchanan, acting graduate school dean, recently said he believes Eastern's stipend level is not comparable to stipends at other Illinois universities.

Of all the Illinois schools surveyed Eastern has the lowest graduate school enrollment and the second lowest minimum stipend.

Currently, Eastern has 178 graduate assistants who receive stipends of \$330 or \$440 a month.

However, Suzanne Reid, Western Illinois University graduate school dean, said Western's stipends are comparable to Eastern's.

"Our stipends are comparable to Eastern's and most other master degree level institutions," she said. However, Reid added that Western "is behind some institutions."

She said Western has between 350 and 400 graduate assistants who receive stipends of \$350 per month.

Nancy Allen, Northern Illinois University graduate

school administrative secretary, said Northern has between 850 and 900 graduate assistants who receive stipends which vary from \$285 to \$700 per month.

Sue Brieschke, Southern Illinois University-Carbondale graduate assistant accounting clerk, said Southern has between 1,300 and 1,500 graduate assistants who receive stipends which average about \$540 per month.

Tom Eakman, University of Illinois executive assistant to the vice president for academic affairs, said graduate assistant stipends vary from \$4,000 per academic year to \$7,000 per academic year.

Northern's highest graduate assistant stipends are \$700 a month in the chemistry and physics departments, while the lowest graduate assistant stipends are \$285 a month in the visual and performing arts departments, Allen said.

In addition, Allen added that Northern's College of Business graduate assistant stipends are \$450 per month.

Chemistry and physic graduate assistant stipends at Southern are \$634 per month while College of Business graduate assistant stipends are \$474, Brieschke said.

Graduate school stipends Average stipend amounts

Eastern Illinois University	\$330-\$440
University of Illinois	\$445-\$765
SIU-Carbondale	\$540
Northern Illinois University	\$285-\$700
Western Illinois University	\$350

At the University of Illinois, social science graduate assistants receive between \$4,000 and \$5,000 per academic year, Eakman said.

However, science and engineering graduate assistant stipends are \$6,000 and \$7,000 per academic year.

In addition, each school grants graduate assistant tuition waivers for the academic year. However, Northern also has a tuition waiver for one summer semester.

Troops to remain in the Mideast

WASHINGTON (AP)—President Reagan said Wednesday that American forces will remain in Lebanon as long as there's a chance that peace can be restored there and he intends to do everything he can "to persuade Syria to quit being a roadblock in this process."

Reagan said great progress has been made since he dispatched 1,600 Marines as peacekeepers to the Mideast nearly a year ago. He pointed to Israel's partial withdrawal, the election of a Lebanese government, and the "successful ousting of 10,000 PLO militia."

"I don't think there's anyway we should just stand by and allow Syria to destroy what so

many people want, which is peace and order in that troubled country," he declared.

Fielding questions at his first news conference in nearly three months, Reagan said he will sign a bill, which cleared the Senate 78-22 earlier in the day, to make a legal federal holiday honoring Dr. Martin Luther King Jr., the civil rights leader assassinated on April 4, 1968. King would be the first honored since George Washington.

The president said he would have preferred something less than a full-fledged holiday, but recognized King's symbolic importance to the black community.

Peoria botulism cases confirmed

PEORIA Ill. (AP)—Health investigators, working around the clock against a botulism outbreak that has hospitalized 31 people, were using patient food histories and laboratory tests to track the elusive cause, officials said Wednesday.

Tests had confirmed botulism in six of the victims by Wednesday afternoon and physicians had diagnosed botulism in at least 13 others based on observed symptoms, said Dr. Stephen Doughty, an infectious disease specialist coordinating the treatment of those stricken.

The outbreak surfaced Saturday night, when three people who have eaten beef patty-melt sandwiches at a popular local restaurant went to hospital emergency rooms with what the local health director described as "classic symptoms" of botulism, a food poisoning that is sometimes fatal.

Since then, the total stricken has mounted to 31. Twenty-seven victims remained hospitalized Wednesday. Two were in critical condition and at least seven were on respirators because of breathing difficulties—a common and life-threatening manifestation of botulism, health experts said.

Car bomb wounds four Marines

BEIRUT (AP)—Artillery and rocket fire shook Beirut Wednesday and a car bomb wounded four U.S. Marines. The government canceled a scheduled peace conference because three opposition leaders rejected the site.

Marine spokesman Maj. Robert Jordan said one Marine received a superficial head wound and three others suffered lacerated eardrums or face and hands when the bomb exploded as a convoy of four American military vehicles passed the Kuwait Embassy on Beirut's southern

edge. He described all the injuries as minor. A radio said a Lebanese police guard at the embassy was also wounded.

Witnesses said the bomb, in a blue Mercedes, shattered the windows and flattened the front tires of a 2.5 ton truck in the convoy.

The area is across from the Palestinian refugee camps of Sabra and Chatilla, and Jordanian Palestinians ran to help the Marines.

Senate against policy

by Nancy Yamin

A resolution opposing the proposed plus/minus grading system was unanimously approved Wednesday by the Student Senate.

Ron Wesel, chairman of the Senate Academic Affairs Committee, said the committee opposed the proposed grading system for several reasons.

The resolution states Eastern's current grading system is effective in evaluating students. Finer distinctions can be made in final grades without pluses and minuses and the system could not be made universal.

The resolution passed without discussion and will be read at the Council of Academic Affairs meeting Thursday.

In other business, Eastern's Illinois Student Association Representative Dan Sprehe discussed the possibility of hiring a legislative liaison to represent higher education students in Springfield.

Sprehe asked that an ad hoc committee be formed to examine student opinion of this proposal.

"The ad hoc committee will look at how much money Eastern students would be willing to pay to have such the office," he said.

The committee will then present their findings to the ISA in November, he added.

In other action, Senate Speaker Glenn Good said petitions for student government positions are available in the student government office of the Union.

Petitions will be due Tuesday. The election is scheduled for Nov. 9.

Scott Calhoun, elections committee chairman, said election bylaws passed last month by the senate will be enforced during the Nov. 9 election.

In other business, the senate delayed action on a resolution concerning Department of Corrections plans for a prisoner work-release facility to be located in Charleston.

Good said Mayor Clancy Pfeiffer will be speaking at an upcoming senate meeting on the issue.

In other action, the senate approved four audits, which were completed this week by the Senate Auditing Committee.

Committee Co-Chairman Gale Virgilio said the Players, Sports and Recreation Board, University Art Board and the University Board were all audited.

CAA to hear more about grading policy

The Council on Academic Affairs Thursday will hear additional discussion on the proposed revision of Eastern's grading policy.

CAA Chairman Pat Wright introduced the proposed grading policy which requests faculty to grade students on a plus/minus scale of 12 grades, as opposed to the current five-grade system.

The CAA will hear discussion from

the subcommittee who researched the proposed grading policy, in addition to comments from any council members, faculty or students interested.

"Any interested parties are encouraged to come to the meeting," Wright said.

The CAA is not expected to vote on the proposal before their Oct. 27 meeting.

In other business, the CAA will

discuss a proposed revision to the current graduation requirements.

The CAA will also review a new honors course proposal, Zoology 1010 "General Zoology," and study a new course proposal, Military Science 4002 "Leadership Assessment."

The CAA will meet at 2 p.m. Thursday in the Union addition Arcola-Tuscola room.

Proposed policy would accurately reflect grades

The Council on Academic Affairs should approve the proposed plus/minus grading policy primarily because students' grades would more accurately reflect class performance.

The controversial proposal has been discussed and debated by the CAA, faculty and students recently and there is strong support for both implementing a 12-grade system and keeping the current five-grade system.

The *Daily Eastern News'* editorial board was divided on the issue, but a slight majority favored the plus/minus grading proposal because student grade point averages will more accurately indicate performance in courses.

For example, under the present grading policy, a student who is given a grade of B+ or 89 percent for his class performance would receive 3.0 grade points. But the same grade points are given to a student who, in the same class, is judged as performing at a B- level or 81 percent.

However, under the 12-grade policy, the B+ student would receive 3.3 grade points, which indicates a more accurate account of his class performance. Since the student's work was judged as a high B, the student should receive grade points which reflect a high B.

Besides finer distinction of grades, the plus/minus grading policy would act as an incentive for students to put a little more effort in their homework since that extra work could make the difference between a D+ and C- or a B+ and an A-.

Furthermore, implementation of the policy would offer future employers and graduate

schools a more accurate view of students' graded performance; a distinction more in demand since the 12-grade system has become a nation-wide trend, studies show.

Some advocates of the current grading system cite disadvantages to the 12-grade system. These disadvantages, however, do not outweigh the advantages of the system.

The conversion to the plus/minus policy would create administrative costs of more than \$5,000, but the price is reasonable if the policy would allow faculty to give students the fair grade they work for and deserve.

Another factor to consider is faculty reaction to the grading proposal. Some instructors complained that they had a hard enough time trying to assess a student's performance with five grades. But, the pro-

posal would not prevent faculty from designating grades according to the current grading policy.

An additional factor is that the current probation policy would need to be examined before the implementation of the plus/minus policy.

Currently, a student may be put on probation if he has below a C average, a 2.0 GPA. With the 12-grade policy, a C- corresponds to a 1.7 GPA. Under the current grading system, C and C- grades both count for 2.0 GPAs.

While there are considerable arguments for both sides of this controversial issue, the proposed plus/minus grading policy should be adopted so that each student's grades would more precisely reflect one's course performance.

Your turn

Reporter commended

Editor:

I would like to offer my hardest congratulations to the staff of *The Daily Eastern News* and specifically Jerry Moore. The Oct. 14 version of "The Verge" was simply superb.

I was not only impressed by Mr. Moore's writing abilities, but with his coverage of such an omnibus collection. His abrecations were concise, intuitive and honest. I was fortunate enough to witness this historic exhibit, and I felt that Moore did what few journalists have accomplished. He gave the collection the justice it deserves.

The most significant thought exposed however was not the magnificence of the collector but the pure atrocity of man's destructiveness. Seldom has it been put so well.

James R. Bailey

Petitions are available

Editor:

It's that time of year again. Time to elect your student representatives, or maybe time to become a student representative.

On November 9, 1983, Eastern students will have the opportunity to go to the polls to elect 15 student senators and 10 off-campus students

to serve on the Off-Campus Student Housing Association.

Students who live in Carman, Andrews, Lawson, Taylor and Thomas Halls will vote in the South Quad area. Voting will be in a 30 by 50 foot tent to be set up in the quad, weather permitting, with the south stairs of Coleman Hall to be used in case of foul weather. All other students will vote in the east section of the Union Ballroom.

For those of you interested in seeking office this fall, there are five seats open for each senate district (residence hall, at-large, off-campus). OCSHA is also seeking candidates to fill the 10 seats available this fall. These seats are for off-campus students only. Residence hall students may run for election to this seat, if they will be moving off campus next semester.

Petitions to place your name on the ballot are available now and until 5 p.m. Tuesday, Oct. 25 in the Student Government Office in the Union. Students taking out a petition must be a full-time student with a minimum cumulative grade point average of at least 2.3. Each student must secure 25 student signatures from the district he is seeking election to in order for his name to be placed on the ballot.

These petitions are due at 5 p.m. Tuesday, Oct. 25 in the Student Government Office.

Due to a change in the election by-laws, those residence halls or other organizations wishing to put a sign-up sheet in the polling place to monitor participation must register with the election committee at least one week prior to the election. The proper forms are available in the Student Government Office.

Good luck to all candidates and don't forget to vote.

Scott Calhoun
Carolyn Opolka
Senate election committee

Present proposal views

Editor:

The Council on Academic Affairs is currently debating a proposal to change the grading system at Eastern. Under the proposed system, instructors would be allowed to record plus and minus grades on final-semester grade reports, and these designations would appear on students' transcripts. In addition, pluses and minuses would be reflected in the grade point average, according to the following scale:

A	4.0
A-	3.7
B+	3.3
B	3.0

B-	2.7
C+	2.3
C	2.0
C-	1.7
D+	1.3
D	1.0
D-	0.7
F	0.0

The CAA welcomes comments and reactions from members of the university regarding this proposal. Comments may be submitted to me in written form for distribution at the meeting, or people interested in the discussion may attend the meeting 2 p.m. Thursday in the Union Tuscola room. It is important to make one's voice heard.

Pat Wright
CAA chairman

Letter policy

The name and phone of at least one author must be submitted with each letter to the editor.

Letters submitted without a name (or with a pseudonym) or without a phone number or other means of verifying authorships will not be published.

Names will be withheld on request.

Letters should be typewritten and should not exceed 250 words.

Vice President for Student Affairs Glenn Williams talks to Union Area Head Bill Clark about the new tailgate policy. The policy prohibits kegs and restricts tailgating between certain hours. (News photo by Madeleine Doubek)

Owners say beer sales the same

by Amy Zurawski
Although Eastern's recent tailgate policy modifications eliminated kegs of beer from the tailgate area, some local businesses report no change in beer sales.
Phil Weibers, assistant manager of Marty's, 1666 fourth St., said, "The change in policy hasn't affected Marty's."
The tailgate parties have never affected Marty's, he said, adding that he does not predict that tailgaters will do so in the future.
"The people who don't go to the tailgaters don't come here before the game," he said. "They must go somewhere else."

Tom Craig, owner and operator of The White Hen Pantry, 200 E. Lincoln Ave., said his business has not been affected by the recent tailgate policy change either.
"We have not noticed any drastic change in the sale of kegs of beer," Craig noted.
"Eastern students and town people are still buying them (kegs of beer) but they just aren't having them before the games in the tailgate area," he said. "It appears that they are now having more parties on their own."
Craig would not comment on his predictions for the future of tailgate parties.

Search on for new chief

by Linda Wagner
The search to find a successor for Eastern's retired campus security chief began Monday with the start of interviews for the five candidates, Housing Director Lou Hencken said.
Former University Police Chief John Pauley retired from his position Aug. 31.

Hencken said he was "very pleased" with the progress of the interviews and added that all five of the possible replacements were "good candidates."
"Four out of the five candidates work in positions with university students," Hencken said. "They have university experience."

Gaining a security chief with a background in university work would be better than an officer from a metropolitan area, he said.
The first candidate, Ronald Bennett, was interviewed by the committee Monday.

Other candidates will be interviewed by the search committee Thursday, Friday and Monday, Hencken said.
The four remaining candidates to be interviewed are Gary Brinkley, 9 a.m. Thursday in the Union addition Paris room; Thomas Larson, 9 a.m. Friday in the Union addition Neoga room; Philip Orawiec, 1 p.m. Friday in the Union addition Paris room; and Virgil Trummer, 9 a.m. Oct. 24 in the Union addition Paris room.

Hencken said Glenn Williams, vice president for student affairs, "has the final say" on the choice and will make his recommendation Tuesday or Wednesday of next week.

RHA to discuss 'Haunted House'

by Linda Wagner
The Residence Hall Association Thursday will discuss progress concerning its annual Hanted House, President Joe Wheeler said.
The Haunted House will be conducted Oct. 28 and 29 at the Old International Housing Building, located across from the Physical Plant, Wheeler said.
In other business, RHA will continue discussion on the Great Lakes Conference, Nov. 11 to 13 in Milwaukee, he said. Eastern representatives at the conference will conduct two sessions on the topics of their choice.
Wheeler said he will attend a meeting with residence hall presidents to discuss

funding for the RHA conference.
The RHA will meet at 4:45 p.m. Thursday in the Thomas Hall recreation room.

on a full-time basis rather than the School of Technology or the School of Home Economics," Jones said. "Therefore, the School of Technology representation is actually being reduced by one-half."

The dean of the College of Applied Arts will not be able to provide the School of Technology state and national-level representation, he also said.

"An individual is needed to continue to provide leadership on the state and national level for the School of Technology," he added.

"The loss of representation for the School of Technology may have serious ramifications in the future in terms of program and academic integrity and autonomy, recruitment of new faculty and recruitment of graduate and undergraduate students," Jones said.

In addition, Jones said he does not believe that under Rives' proposal the School of Technology would receive any additional faculty members.

"Dr. Rives stated that the School of Technology will have a new faculty position authorized when the

reorganization plan is in place. This faculty position, as stated by Dr. Rives, would replace Dr. Lauda's (Don Lauda, former dean of the School of Technology) vacancy but would not be administrative," Jones added.

Currently, the School of Technology is seventh on the University Priority List for New Faculty Positions and is to receive an additional faculty member, he added.

However, Jones said he believes the school will not gain two faculty members, but will lose a faculty member under Rives' proposal.

average of 120 yards per game. Southwest's Kevin Williams has collected 482 yards for a 80.3 average.

Meanwhile, Northern Iowa's Larry Miller leads the conference in passing, while Eastern sophomore quarterback John Rafferty remained second.

Miller has completed 105 passes in 210 attempts this season, averaging 190.3 passing yards per game. However, he has thrown only five touchdown passes.

Rafferty, ranked 13th in NCAA I-AA passing efficiency, has connected on 95 of 162 attempts (58.6 percent). He also has notched ten touchdown strikes and an average of 167.3 yards passing per game.

Rose from page 12

use of young Len Matuszek at first base next season.

Rose reportedly has said, "I can still play this game regularly for someone."

There were rumors that Rose might sign with the Atlanta Braves, who have an opening in left field, where he has played in the past.

Rose was signed by the Phillies Dec. 5, 1978, as a free agent, after having played his option with the Cincinnati Reds.

The Phillies signed him to a four-year contract estimated at \$3.3 million.

When the contract ran out last season, Rose was signed to a one-year deal with a \$300,000 buyout clause, which the Phillies could invoke if they decided not to renew the contract by Nov. 15, 1983.

Rose played in the National League playoffs and World Series this year only because Matuszek was ineligible because he was recalled from the minor leagues after the Sept. 1 eligibility date.

Kyle's score lifts Booters past Evansville 2-1

by Mike Lynch

Eastern's soccer team overcame both inclement weather and a fiesty Indiana State University-Evansville team Wednesday as the Panthers scored two second-half goals to defeat the Screaming Eagles 2-1.

A sparse Panther following at Lakeside Field watched as Eastern, 12-1, scored both its goals in the game's last 20 minutes to cap off the win over Evansville, 9-3.

"They were a lot tougher than I expected. They pressured us and I think they played about as good as of game as they are capable of," Panther head coach Schellas Hyndman said.

Both teams played a scoreless first half. The teams had to adjust to a slippery field caused by the constant rain that fell during the the match.

"The weather was definitely a problem," Hyndman said. "I think in the first half you saw a lot of balls skipping past us that usually don't."

"Anytime you play in rain, it always hurts the better team," Hyndman added.

In the second half, the Screaming Eagles took 1-0 lead early when Bruce Mitchell scored on an assist by Jim Hynd.

The game remained 1-0 as Evansville, to Hyndman's surprise, continued to play the Panthers aggressively rather than falling back defensively.

"After they scored, I expected them to wait back on us but I think by scoring so early into the half their coach figured it was too soon to drop back," Hyndman said.

"If they were going to score today, I'm glad they did it early so we had 40 minutes ahead of us to catch up," Hyndman said.

However, Eastern soon discovered that catching the Screaming Eagles was not going to be easy. The Panthers failed to capitalize on goal scoring opportunities.

"It started to worry me as the game went on," Hyndman said. "There were some chances we had that we should have finished and when we didn't, I said to myself, 'Oh no not one of these days,'" Hyndman said.

Eastern broke through with 18:01 remaining as Agyeman Prempeh was awarded a penalty kick after an Evansville player was whistled for a hand-ball violation in the goal box.

The Panther All-American had little trouble beating Screaming Eagle goalie Greg Tassios when Prempeh rolled the ball in the left side of the goal and Tassios dived to the right side.

Prempeh said, "It was nothing exceptional; I just took my time and waited for him to commit before I shot."

With the score 1-1, Eastern continued to pressure

Eastern's Greg Mellor battles for the ball Wednesday during the Panthers 2-1 victory over Indiana State-Evansville on a rain-soaked Lakeside Field.

Tassios and with 7:53 remaining, fullback Kevin Kyle scored the game-winner on an assist from Neil Swindells.

Kyle notched the goal on the right side when his left-footed blast from 25-yards out sailed past a diving Tassios on the right side.

The win lifted Eastern's record to 12-1 on the season. (News photo by Fred Zwicky)

Evansville had one last chance to tie the contest with 3:50 remaining, but Panther defender Albert Adade came from behind to break up the play.

"I thought all in all we played very well," Hyndman said. "They were tougher than I expected. But I'm just glad we were tougher," Hyndman added.

Rose refuses part-time job, let go by Phils

PHILADELPHIA (AP)—Veteran first baseman Pete Rose refused an offer to be retained as a part-time player, and was released Wednesday by the Philadelphia Phillies.

Rose, 42, insists he can play on a regular basis and will try to sell himself to another team as a free agent.

Rose rejected a part-time role with the Phillies because he is seeking to break Ty Cobb's all-time major league career hit record of 4,191. Rose has 3,190 hits and needs only 10 hits to become the second player in major league history to break the 4,000 mark.

The Phillies released Rose, who hit only .245 with 17 extra base hits in 1983, because they planned to (See ROSE, page 10)

Eastern regains statistical lead in MCC

by Jeff Long

Following its 13-0 win over University of Northern Iowa Saturday, Eastern's football team regained the distinction of being the Mid-Continent Conference's best statistical team.

The Panthers, who have utilized a balanced offense and a stingy defense to win five straight games, moved ahead of Southwest Missouri State University in the MCC's statistical rankings Wednesday.

"The opponent's strength is a major contributing factor to how well a team plays," Eastern head coach Al Molde said Wednesday. "And Southwest Missouri has been running into some tough teams recently."

Despite having scored only 23 points in its last two games, Eastern still tops the MCC in several offensive categories. Meanwhile, Southwest Missouri has scored 13 points in dropping its last two games.

The Panthers lead the MCC in team offense and team scoring by averaging 352.7 yards per game. The Panther offense has also compiled an average 24.7

points per game.

Southwest Missouri, which led the league last week, trailed the Panthers with an average offensive output of 317.8 yards and 24.3 points per game.

"We try to utilize the strengths of the team and one of our strengths is a balanced offense," Molde said

However, Southwest still remains the MCC's premier rushing team with an average 241 yards per game. Eastern follows by averaging 173.3 yards rushing per game.

Oddly enough, neither team is listed among the MCC's overall passing leaders.

Eastern, which led the conference in team passing for five straight weeks, has dropped to third after passing for 213 yards in its last two outings. Southwest is ranked fourth.

"We haven't changed anything offensively," Molde said. "It's been a combination of the competition and the game situation, and that's the way it has turned out."

Northern Iowa has moved into the top-team passing slot by averaging

210.3 yards per game. Western Illinois is second this week with an average of 185.6 yards per game.

Defensively, Eastern dominates the conference in team defense and scoring defense. The Panthers have yielded an average of 231.8 total yards per game which ranks them eighth among NCAA I-AA teams.

The Panthers also sport the MCC's stingiest and I-AA's sixth best defense this week by allowing an average 10.3 points per game.

In addition, the Panther defense has picked off 17 opponent passes in six games to place them second overall in the NCAA I-AA interception ranks.

Individually, Eastern halfback Kevin Staple remains the league's best running back with 715 yards this season. He also is averaging 102.1 yards per game to rank ninth among I-AA backs.

Southwest's John Longstreet is a distant second with 338 rushing yards for an average of 56.3 yards per game.

Staple is also the MCC's No. 1 all-purpose runner with 839 yards and (See EASTERN, page 10)
