The purpose of the Academy is to provide all community members over age 50 an outlet for their creative and educational needs. Sometimes we have interests that we put on hold while we were working full-time, raising our children and taking care of our parents, but now it is time to learn about these subjects we simply did not find time to explore earlier in our lives.

The Academy is here to stimulate your mind and provide you an opportunity to learn new skills, discuss topics of interest, explore new areas of study and just have a good time learning and sharing. We enjoy each other's company whether we are attending a lecture, a workshop or a social event. Exercising our brains in order to stay healthy emotionally and intellectually is fun. Through the Academy, Eastern is reaching out to our community by sharing the great riches of campus: faculty expertise, fine arts programs and the wonderful gardens and buildings.

Come be a part of EIU. Join the Academy.

You are EIU!

This presentation will be focused on these research questions, along with open dialogue between the researcher and guests. *(limit 20 participants)*

Hello,

I am sending a warm welcome to those of you who are new members and a returning hello to our returning members! And when I say warm, I am serious—the heat index is to be 105° F today!

The demographics of our membership have changed over the past year, so you will see some changes to our schedule. We have new evening courses and workshops for those of you who continue to work during the day, and for those members who are busy volunteering during the day but need some private learning experiences in the evening. We are growing as an organization and have over 200 members, which is an outstanding number. Our growth is due in large part to word of mouth from happy members. We hope to continue to grow so that we can bring you more workshops of the high caliber that you have received thus far.

Over the past year we embarked on a large Educational Needs survey study of Coles County residents over age 50 and received over 500 responses. I want to thank our cooperating agencies in the study at this time; they were:

- Eastern Illinois University
- Eastern Illinois University Annuitants Association and Alumni Association
- Lake Land College
- Sarah Bush Lincoln Health Services
- Eastern Illinois Area of Special Education
- Community Unit School District #1
- Community Unit School District #2
- R.R. Donnelley & Sons Company

This summer we have worked with two graduate students to review the information gained from the study, and will develop programming starting in the Spring and Summer 2011 that reflects those findings. That information will be used by our Curriculum Committee and myself to provide you with the programming that you most desire. Thank you for your work to make this survey a success. Special thanks to the Curriculum Committee members who helped develop the survey. I am excited to review the results and start planning and disseminating the information to all of you so that you can share ideas for great providers of workshops and courses.

I hope you will find the Fall 2010 Academy offerings interesting, and that you will make plans to attend the workshops and courses we offer by registering early. Remember to share this information with your friends who are non-members so that we can share the experience of learning.

Enjoy the rest of your summer!

Respectfully,

Janna Overstreet, MA
