FOR IMMEDIATE RELEASE

CHARLESTON, IL --"Don't Risk Innovation" is the scheduled topic of a lecture at Eastern Illinois University on Monday, Feb. 9 at 7:30 p.m. in the Phipps Lecture Hall, Old Science Building.

The speaker will be J. A. Cederna, a project leader in Dow Chemical's Technical Service Development Group. There is no admission charge. A question period will follow the address.

Dr. Jerry Ellis of the Chemistry Department's Visiting Speaker Program, said Cederna would discuss the premise that technology and innovation have become "a vulnerable target of people who fear the risks of progress."

Ellis also said the presentation would include examples of government regulations aimed at protecting the public.
