—Not available.

‡ Reporting standards not met. For reporting states total, data reported for less than 85 percent of states in the 50 states and the District of Columbia.

1 Total includes students for whom race/ethnicity was not reported.

2 Total includes students for whom gender was not reported.

3 Reporting states totals include any of the 50 states and the District of Columbia that reported all data elements.

NOTE: Black includes African American, Hispanic includes Latino, Asian/Pacific Islander includes Native Hawaiian or Other Pacific Islander, and American Indian includes Alaska Native. Race categories exclude Hispanic origin unless specified. For school years 1998–99 through 2008–09, counts of grade 12 students by race/ethnicity and gender were derived using state-level reports of grade 12 students by race/ethnicity and school-level reports of grade 12 students by race/ethnicity and gender. Using school-level data, the proportions of male and female grade 12 students by race/ethnicity were calculated, and these proportions were used to allocate state-level counts of grade 12 students by race/ethnicity into state-level counts by race/ethnicity and gender.
