I. GENERAL INFORMATION

OBJECTIVE

The preparation and improvement of teachers is the major function of Eastern Illinois University. The philosophy prevails that the program should be directed toward helping young people become educated persons. This is equally true of those who follow the curricula leading to certification as teachers and those who seek a strong non-professional or pre-professional education.

RATING

Eastern Illinois University is a member of the American Association of Colleges for Teacher Education and is accredited by the National Council for Accreditation of Teacher Education for the preparation of elementary teachers, secondary teachers, and school service personnel. It has been an accredited college in the North Central Association of Colleges and Secondary Schools since 1915. It is an institutional member of the American Council of Education.

LOCATION

Charleston, county seat of Coles County, is located in east-central Illinois on highways 130 and 16. New Federal Highway 17 (four lanes) is under construction and will connect Charleston with Mattoon. Ozark Airlines furnish flights daily to and from Chicago and St. Louis from Coles County airport. The city has a population of 10,500.

HISTORY

In order to provide more adequate facilities for the training of teachers for the public schools of the state, the General Assembly of Illinois, by an act approved May 22, 1895, established the Eastern Illinois State Normal School.

In response to changing demands, Eastern Illinois Normal School became, successively, Eastern Illinois State Teachers College (1921), Eastern Illinois State College (1947), and Eastern Illinois University (1957).

In 1907 the power of conferring degrees was granted to the institution by the General Assembly. Courses leading to the degree of Bachelor of Education (B.Ed.) were announced in 1920. Beginning with the class of 1944 the degree was changed to Bachelor of Science in Education (B.S. in Ed.)

Courses leading to the degree of Master of Science in Education were announced in 1951; the first Master's degrees were conferred in a Summer Commencement, July 31, 1952. The Master's degree was recognized by the North Central Association of Colleges and Secondary Schools in March, 1953.

In 1954 the Teachers College Board authorized the preparation

of curricula leading to the degrees B.A. and B.S. without preparation for teaching. The first degree under this authorization was conferred in June, 1955.

BUILDING AND GROUNDS

The Campus. The grounds cover an area of two hundred and thirty-eight acres including the original tract of forty acres which became the campus proper, seventy-two acres purchased in 1931 and named Lincoln Field, and several adjoining parcels purchased in 1946, 1947, and 1957.

Burgner Ten Acres. A plot of wooded land in Coles County was deeded to the University in 1955 by Mrs. Helen Burgner Douglas of Mattoon in memory of her parents. It is used for nature study by faculty and students.

Livingston C. Lord Administration Building (Old Main). This three-story structure houses administrative offices, classrooms for the business, English, foreign language, and mathematics departments, and the "Old Auditorium."

Pemberton Hall. This stone structure, finished and occupied in 1909, contains rooms for ninety-three women, a dining room, and spacious living rooms. An addition to house 111 women is under construction.

Francis G. Blair Hall. This building is occupied by the departments of education and social science and by the audio-visual center. The building was named in 1958 for Francis G. Blair, for many years Superintendent of Public Instruction, and the first Director of the Eastern Training School.

Practical Arts Building. This building furnishes facilities for students who wish to specialize in industrial arts or home economics.

Charles Philip Lantz Gymnasium. This building contains a men's gymnasium with bleacher capacity of approximately two thousand, a women's gymnasium, classrooms, quarters for the University Health Service, and rooms for corrective gymnastics and the dance.

Science Building. Completed in 1939, this building contains classrooms and laboratories for the departments of botany, chemistry, geography, physics, zoology and health education.

The Mary J. Booth Library. The University Library offers facilities for study and recreation. About 110,000 books and over 750 current magazines are available for use by students and faculty;

in addition, there are approximately 18,000 bound magazines, and extensive picture and pamphlet collections. A browsing room for general reading is provided. The Music Listening room, with its store of classical and popular records, is open to students on a regular schedule. There are frequent exhibitions of paintings and craft work in the Art Gallery.

Lincoln Hall and Douglas Hall. Housing and boarding 160 men students each, these residence halls were opened in September, 1952.

North House and South House. North House and South House are two ranch-type structures planned for demonstrating home management as a part of the home economics curriculum.

Robert G. Buzzard Laboratory School. A \$2,000,000 campus laboratory school for kindergarten through grade nine was completed in 1958. The building is named for the second president of the University.

University Union. The University Union contains offices, a cafeteria, the Panthers' Lair Snack Bar, a ballroom, lounges, and recreation facilities.

Ford, McKinney, and Weller Halls. These residence halls for 450 women students are named for the late Ellen Ford, a former teacher of Latin and Dean of the College, the late Isabel McKinney, formerly Head of the Department of English, and Miss Annie Weller, Emeritus Head of the Department of Geography.

University Apartments. Living facilities for married students are provided by a new housing unit of sixty apartments located on Terrace Lane at the south edge of the campus.

Fine Arts Center. A contemporary building, housing the departments of music, speech and art, was completed in 1959. The building contains an up-to-date "little theatre," numerous practice and rehearsal rooms for music, and studios and laboratories for the art and speech departments.

ADMINISTRATIVE ORGANIZATION

The Teachers College Board is charged by legislation with responsibility for the general management of Eastern Illinois University and three similar institutions. In turn the board vests administrative authority and responsibility with a President at each school.

At Eastern the President works through four major administrative officials. The Dean of the Faculty has responsibility for all instructional activities. The Dean of Students administers activities

related to the broad social program. The Director of Business Affairs handles all business matters and has responsibility for the physical plant. Each of these officials has a staff with certain duties prescribed in the *Manual of Administrative Organization*. The fourth official is the Director of Regional Services who works with the President in maintaining desirable relations between the university and the general public, including alumni. The Director of Regional Services also assists the President as a staff officer.

The University has twenty departments, most of which offer majors. Each is administered by a Department Head serving under the Dean of the Faculty. There are no separate colleges or schools.

DIVISION OF THE YEAR

The regular academic year consists of three quarters which cover a period of 36 weeks. In addition, there is a summer quarter of ten weeks duration. Field study courses and off-campus workshops of three weeks duration are held at various times.

II. STUDENT LIFE AND ACTIVITIES

LIVING ACCOMMODATIONS

Students are required to live in University-registered housing except when living at home or with relatives, or when special written permission has been secured from the Housing Committee through the Director of Housing. It is understood that when a student rents a room in a residence hall, a University apartment, or a registered house, he or she agrees to comply with the existing rules and regulations.

University-registered rooms are rented by the quarter with the rates depending upon the type and location. (For rates, in the residence halls, see section on student expenses and financial aid, page 58.

Applications for space in the University residence halls may be made to the Director of Housing prior to notification of admission to the University. Students are urged to apply at the earliest possible date. Application for space or assignment to a room does *not* constitute admission to the University.

Applications for the University Apartments may be secured from the Director of Housing. Students desiring to live in University-registered off-campus rooms may secure lists of housing at the Office of the Director of Housing. They may then contact the owner of the house and reserve their rooms.

EASTERN'S RESIDENCE HALLS.

Residence halls for women are:

Pemberton Hall
Ford Hall
McKinney Hall
Weller Hall

Residence halls for men are:

Lincoln Hall
Douglas Hall

HOUSING FOR MARRIED STUDENTS. Housing for married students consists of 60 new and modern units, located on Terrace Lane at the south end of the campus. The 24 two-room apartments and 36 one and one-half-room apartments are each provided with sofa bed, chairs, dinette set, corner tables and other items of efficiency equipment. Electricity, heat, hot water, T.V. antenna outlets, washers, etc. are furnished by the University. To occupy an apartment, a person must be married, living with his family, and enrolled at Eastern.

A number of old Campus City units will be maintained for an

indefinite period. To be eligible for these apartments, a family should have two or more children.

Application should be made to the Director of Housing.

SERVICES TO STUDENTS.

HEALTH SERVICE. The Health Service is located in the Charles Philip Lantz Gymnasium. It renders emergency medical and surgical care, supervises the periodic physical examinations, and has general oversight of the health conditions of the University community. The staff consists of a physician, two nurses and a secretary.

All services provided by the Health Service are covered by student activity fees. All full-time students are also required to carry health insurance which covers more extensive medical care than provided by the Health Service and also for hospitalization.

The Health and Hospitalization Board, composed of faculty and students serves as an advisory group to the administration in determining regulations pertaining to the health welfare of the University community.

STUDENT EMPLOYMENT. The Dean of Men and Dean of Women receive applications for part-time employment and assist students in finding work at the University and in the city. See page ?? for details.)

PLACEMENT BUREAU. Registration with the Placement Bureau is prerequisite to graduation for all degree candidates. The Placement Bureau seeks to help competent Eastern graduates secure positions for which they are qualified and furnishes prospective employers with pertinent information needed by them in considering applicants. Placement services are free to students who qualify.

TEACHER PLACEMENT SERVICES are available to undergraduates who have been in attendance at Eastern for a year, who have been admitted to a teacher education curriculum, and have attained senior status. Students working toward the M.S. in Education at Eastern may register with the Bureau after attending for one term. Alumni may re-register with the Bureau upon payment of a fee of \$1.00. The University maintains a follow-up service through a program of visits, reports from teachers, and progress reports from supervising officials of schools in which Eastern's graduates have been placed.

INDUSTRIAL AND BUSINESS PLACEMENT SERVICES are available to B.A. and B.S. degree candidates in securing positions for which they are qualified. The Bureau furnishes to prospective employers the information they need in considering applications for such positions.

READING CLINIC. The Reading Clinic is located on the ground floor of Pemberton Hall. Services of the Clinic are available to all regularly enrolled students. Non-credit courses designed to improve reading speed, comprehension, and general study habits are offered each quarter of the academic year. Application for admission to one of the programs should be made early in the quarter.

In addition to the University reading program, some children, usually selected from the campus elementary school, are accepted for corrective work in reading. Junior, senior, and graduate students taking advanced work in reading obtain practical experience by working with these children under supervision.

THE SPEECH AND HEARING CLINIC. The Speech and Hearing Clinic is housed in Pemberton Hall. Modern equipment is available to assist in testing of hearing, evaluation of hearing aids, and improvement of speech disorders. The services are available without charge to University students, Laboratory School pupils, and children and adults in east central Illinois. Junior and senior students in the courses in speech and hearing obtain their required clinical practice by working with these people under supervision.

COUNSELING CENTER. The Counseling Center, located in Old Main, is staffed by trained counselors to assist University students in matters pertaining to vocational choice, personal and social adjustment and educational development. Appointments may be made in the Office of the Dean of Men.

TESTING AND PSYCHOLOGICAL SERVICES. Testing and psychological services are available to University students and to the schools in the area. Interest and personality inventories as well as aptitude and intelligence tests are administered and evaluated free of charge not only to University students but to pupils who are referred by school officials.

Consultative services are available to schools desiring to set up testing programs; considerable test material is available for examination.

The Testing Service has an I.B.M. test scoring machine and the scoring of standardized tests is a service that may be arranged for by area schools. The cost for such services is nominal.

For detailed information write Dr. Donald A. Rothschild, Director of Testing Services.

THE LIBRARIES. Booth Library, named in honor of Dr. Mary J. Booth, Librarian, 1904-1945, was opened for use in September, 1950. It provides a comprehensive collection of materials for instructional and recreational purposes. The library has a total of 110,000 volumes, plus 3,700 cataloged items in the recorded music collection. These figures do not include a substantial number of uncataloged pamphlets, pictures, and prints. The library receives cur-

rently 1,000 different periodicals. A Browsing Room for general reading is provided; the Franklyn L. Andrews Music Listening Room, with its store of classical and popular records, is open on regular schedule to students; and there are frequent exhibitions of paintings and craft work in the Paul Turner Sargent Art Gallery. The Library Science department has as its primary function the preparation of school librarians; in addition, it teaches the orientation course, in the use of the library (Library Science 120), required of all entering students. The Laboratory School Library, a part of the general University library system, houses a fine collection of materials suitable for the elementary and junior high school levels; besides serving the needs of the Laboratory School, it plays an essential role in the preparation of school librarians. Prospective teachers are urged to familiarize themselves with the books and periodicals in this collection, and with its method of operation.

Basic textbooks for University courses are rented to students through the Textbook Library. The book rent is paid at the time of registration in consideration of this service. Laboratory manuals, special notebooks, and other materials not classified as basic textbooks may be purchased by the student as needed. Textbooks may also be purchased any time during the quarter with the exception of the first two and the last two weeks of the quarter. Used books are sold to students at a 10 percent discount off the cost price for each time the book has been checked out, as indicated by the record on the book card.

Rented textbooks must be returned in satisfactory condition by a specified time at the end of each quarter, and damage other than that of ordinary wear must be paid for by the student. Students who note damage in textbooks issued to them must report such condition to the Manager of the Textbook Library within the first two weeks or be held liable for the damage. A fine of \$1.00 is imposed if the student's record in this library is not clear.

AUDIO-VISUAL CENTER. The Audio-Visual Center in Blair Hall operates as an educational service to faculty and students. Audio-visual teaching materials such as films, filmstrips, and recordings are available both from a small on-campus library and from rental sources. Projection service is provided. Slides, photographic copies, and other simple graphic materials may be produced for individual instructors. Consultant service is offered to University faculty, prospective teachers and to schools in the area.

BOOKSTORE. The University Bookstore is located in the Temporary Classroom Building and is owned and operated by the University. It is maintained to enable students to purchase supplies and other equipment needed for laboratory and class work.

THE ARTISTS SERIES. Each year the University offers an entertainment course. Individuals and groups of national reputation in

music, drama and the dance are presented; these programs bring cultural entertainment for students and for area residents who purchase tickets.

A student-faculty Artists Series Board arranges the series, keeping in mind the preferences of students and their general educational needs. Students are admitted to these events without cost, a privilege gained by the payment of the activity fee at registration.

THE LECTURE SERIES. The University offers a series of several lectures each year by well-qualified speakers on topics of general interest. The lecturers are selected by a board of faculty members. Funds for the series furnished by the University are often supplemented by grants from various foundations. Various departments also engage lecturers in their fields of specialized interest.

SOCIAL LIFE

In recognition of the value of a wholesome social life as an integral part of college, the development of a broad program of social activities has been encouraged at Eastern. Some of these activities are carried on by the many campus organizations and others are sponsored by and for the University as a whole.

Student social activities are under the general supervision of the Dean, Student Personnel Services and members of his staff.

ORIENTATION WEEK. A period preceding upper-class registration in the fall quarter is set aside for acquainting new students with the University. All undergraduates enrolling at Eastern Illinois University for the first time, whether as first quarter freshmen or as students with advanced standing, are required to be present. Activities are planned to familiarize the new student with the University in order that he may understand its rules and regulations, and become aware of the educational, social, and recreational opportunities it provides. Advisors and counselors also offer assistance to the student at this time in evaluating his abilities and interests as well as in planning the details of training necessary for his particular vocational choice.

UNIVERSITY UNION. The University Union, financed by student fees and other donations, houses a cafeteria, snack bar, game rooms, ballroom, lounges and offices for the Director, Director of Food Services and the Student Senate.

The Director, assisted by a Union Board composed of students and faculty, plans a variety of activities for the student body. Included are weekly dances, receptions, recitals, billiards, bridge and chess contests and instruction.

Organizations wishing to use University facilities for meetings schedule these facilities at the University Union desk.

STUDENT ORGANIZATIONS

Student organizations form the basis for the University activity program on Eastern's campus. The Office of the Dean, Student Personnel Services has the responsibility for official University approval of all student organizations after consultation with the Student Senate.

Student organizations are varied so as to provide every student with an opportunity to participate in activities which appeal to his interests.

STUDENT SENATE.

The Student Senate is the representative governing body for all students. The officers are elected by popular vote; members by departmental and social organizations.

The Senate is concerned with matters pertaining to student welfare, student activities and student participation in University planning and administration. It takes responsibility for such events as Homecoming, Parents' Day, campus elections and pop concerts. Student members of the student-faculty boards are appointed by the President on nomination by the Student Senate. These students work in conjunction with the faculty members appointed by the President on nomination of the Committee of Fifteen. The student-faculty boards control much of the University's extra-curricular program.

STUDENT ACTIVITIES

STUDENT-FACULTY BOARDS. Several student activities on Eastern's campus are supervised cooperatively by the student and the faculty by means of student-faculty boards. Members of these boards are appointed by the President with nominations of faculty members coming from the Committee of Fifteen and nominations of student members coming from the Student Senate. The Dean, Student Personnel Services, or his representative and the President of the Student Senate are ex officio members of all boards. The following boards have been established:

- Apportionment Board
- Artists Series Board
- Health and Hospitalization Board
- Men's Athletic Board
- Music Activities Board
- Speech Activities Board
- Student Publications Board
- Traffic and Safety Board
- University Union Board
- Women's Athletic Board

ACTIVITY FEES. Activities under the supervision of student-faculty boards receive major support from activity fees charged all students. The allocation of the money from the activity fees

is made by the Apportionment Board, after consideration of budgets presented by the several major activities supported in whole or in part by the fund.

FORENSICS. Opportunities to participate in extemporaneous speaking, oratory, discussion, and debate are available to all students at Eastern Illinois University.

Off-campus activities for the year 1960-61 included the Michigan State University "Group Action" tournament and debate tournaments at Ball State Teachers College, Bradley University, Illinois State Normal University, Indiana State Teachers College, and Northern Illinois University. Eastern students also competed in the annual championship tournament sponsored by the Illinois Intercollegiate Oratorical Association and in the national convention at Oklahoma State University in Stillwater, Oklahoma sponsored by Pi Kappa Delta.

On February 4, 1961, the Department of Speech sponsored Eastern's twenty-fourth annual debate tournament. Other local activities included radio broadcasts and appearances at neighboring high schools and service clubs.

Intercollegiate forensic affiliations include the Illinois Intercollegiate Debate League, the Illinois Intercollegiate Oratorical Association, the American Forensic Association, and Pi Kappa Delta.

DRAMA. Plays are presented by The Players, a dramatics organization sponsored by the Speech Department. Three major productions are presented annually. Tryouts for parts in most of these plays are open to all students, regardless of academic affiliation. The Players offer opportunities for practical experience in every phase of theatre art and enable students to produce a series of one-act plays.

A "Little Theatre" is part of the new Fine Arts Center. The theatre is designed to seat some 420 persons and includes a scene workshop and a sixty-circuit stage lighting system.

RADIO. Radio programs are produced daily in the University studio by the Radio Guild, an organization sponsored by the Speech Department. These programs are broadcast by remote control over Station WLBH in Mattoon.

The University has a campus chapter, Alpha Lambda, of Alpha Epsilon Rho, national honorary radio-television fraternity.

MUSIC. A variety of music organizations provide opportunities for musical growth through enjoyable activities, which in turn contribute richly to the life of the University. Intramural organizations include a uniformed marching band which functions during the football season, a concert band of complete instrumentation, and an orchestra. The major choral organizations are the University Chorus and the Cecilian Singers. Small vocal and instrumental en-

sembles afford additional opportunities for students to study and perform music.

The music organizations provide music for various programs throughout the year, uniting to present "The Messiah" at Christmas in alternate years. A standard opera with complete score and authentic setting is presented at periodic intervals. The University Chorus, the Cecilian Singers, the Band, the Orchestra, and selected ensembles annually present public concerts and represent the University in concert tours through eastern and central Illinois. Other projects designed to extend the musical experiences of the University student are: Marching Band Festival, Choral Clinic, Chamber Music Clinic, Workshop in Elementary Music, Piano Clinic, String and Orchestra Clinic, and the Summer Music Camp. These are designed for point participation and observation by off-campus as well as campus personnel interested in the improvement of teacher-training in music.

PUBLICATIONS. Student publications are a weekly newspaper, the *Eastern State News*, and a yearbook, the *Warbler*. An eight-to-ten-page newspaper, the *News* (originally *The Normal School News*, then successively *The Teachers College News* and *The Eastern News*, is published by a student staff with a faculty adviser. Publication during summer school is usually maintained on a modified schedule.

The *Warbler* is issued annually as a pictorial record of the University year. A student editorial staff, supervised by a faculty adviser, is responsible for the publication. The editor and business manager of both publications are appointed by a Publications Board composed of students and faculty. The remainder of each staff is named by the editor and faculty adviser.

A portion of each student's activity fee goes toward a school-year subscription to the *Eastern State News and Warbler*.

WOMEN'S ATHLETICS. The Department of Physical Education for Women sponsors the Women's Athletic Association which is open to all women enrolled as regular students. Any student becomes an active member of the Women's Athletic Association by participating in one activity. Any active member is eligible to vote, to attend the annual banquet, to travel to other colleges for competition with other college students and to participate in the sports-days held at Eastern. There are fifteen activities during the year, with some different ones each quarter. Archery, badminton, bait-casting, bowling, canoeing, fencing, golf, hockey, modern dance, softball, swimming, tennis and tumbling are the activities currently offered by the Women's Athletic Association. Basketball and volleyball are organized on an intramural basis with dormitory teams, sorority teams and teams from private homes competing in the tournaments. The modern dance concert and the synchronized swimming show are special events in which any student may perform.

Two awards are given by the Women's Athletic Association to students who participate actively in the athletic program for women.

INTRAMURAL ATHLETICS. The Department of Physical Education for Men offers an intramural program with opportunities for participation in recreative physical activities. Participation is voluntary and open to all students enrolled in the University. The objective of this program is to make recreation and physical development available for every student.

INTERCOLLEGIATE ATHLETICS. The University maintains teams for intercollegiate competition as an integral and coordinated part of the general and professional education program. Through the medium of intercollegiate competition opportunities are presented for the individual development of traits such as sportsmanship, fair play, honesty, fellowship, understanding, and adherence to democratic ideals, to the end that personal growth and character necessary in good teaching will result. In addition, as a teacher education institution, the acquisition of certain professional techniques and skills basic to the development of sound teaching practice as well as individual recreational competence are objectives of the athletic program. In furtherance of these purposes, the University is a member of the Interstate Intercollegiate Athletic Conference, the National Association for Intercollegiate Athletics and the National Collegiate Athletic Association.

The University maintains a program of intercollegiate athletics in football, basketball, baseball, track, cross country, wrestling, tennis, golf, gymnastics, and swimming. An integrated program of intramural athletics in fifteen different activities is also provided. The University adheres to the policies of the North Central Association of Colleges and Secondary Schools concerning intercollegiate athletics.

AUTOMOBILE REGISTRATION AND CONTROL

It is the responsibility of each student, employee, and faculty member who drives a motor vehicle on or around the campus to register the vehicle in the Office of the Security Officer. Parking permits may be applied for at the Office of the Security Officer.

UNIVERSITY TRAFFIC REGULATIONS: All state and community laws apply on-campus. Other regulations will be issued periodically by the Security Officer.

PENALTIES FOR PARKING VIOLATIONS: First offense 50c, second offense \$1.00, third offense \$3.00.

A fourth violation within a given academic year may result in suspension of driving privileges or suspension from the Univer-

sity for as long as one calendar year. The student, faculty member, or employee may appeal his case to the Traffic and Safety Committee. Appeal forms may be obtained in the Office of the Security Officer.

After the first week of classes in any quarter, the owner of a car found parked on the campus without a registration sticker will be charged a \$5.00 late registration fee.

ALUMNI ORGANIZATIONS

Recognizing the contribution a body of truly interested alumni can make to the development of the University, the growth of various alumni organizations has been encouraged through the years. Since all persons who have students at Eastern, whether graduates or not, are eligible to participate in alumni activities, students now in school are encouraged to learn more about the alumni program.

THE ALUMNI ASSOCIATION. Established in 1905, the Eastern Alumni Association is composed of some 40,000 persons who have either received degrees from this institution or completed a minimum of one quarter's work here.

The officers of the Alumni Association for 1960-61 are Clem Phipps, ex-'27, 520 Wabash Avenue, Mattoon, Illinois, president; Dick Williams, ex-'44, 1919 Ninth Street, Charleston, Illinois, vice-president; and Mrs. Jack Anderson, ex-'46, 948 Sixth Street, Charleston, Illinois, secretary-treasurer.

The Executive Committee of the Alumni Association is composed of the officers and twelve other members elected for three-year terms. Other members are Nolan Sims, '30; James Sherrick, '38; Maurice Foreman, '27; Bill Pulliam, '46; Mrs. John McCarthy, '44; Harry Read, '50; Forest Shoulders, '35; Ferrell Atkins, '45; Earl Anderson, '40; Mrs. Benjamin Weir, '54; Louis K. Voris, '39; Harry Hillis, '51.

JOINT ALUMNI COUNCIL. The alumni organizations of the four institutions under the Teachers College Board, the University of Illinois, and Southern Illinois University form the Joint Alumni Council. Each is represented by its president, its alumni organization president, two representatives of the Alumni organization, and the institution's alumni services director.

ASSOCIATED EASTERN ILLINOIS UNIVERSITY CLUBS. Alumni have formed organizations called Eastern Illinois University Clubs in several counties of Illinois. These clubs usually meet annually with programs designed to keep graduates and former students in touch with each other and with the University.

In 1947 the Associated Clubs and the Alumni Association issued the first *Eastern Alumnus*, a quarterly magazine mailed

to subscribers throughout the United States and several foreign countries. Subscription rates (which include membership in the Alumni Association) are \$2.00 for one year, \$2.75 for two years, and \$3.50 for three years.

THE EASTERN ILLINOIS UNIVERSITY FOUNDATION. In 1953 the Eastern Illinois Alumni Association sponsored the establishment of the Foundation, a non-profit corporation organized under the laws of the State of Illinois for charitable and educational purposes. The objectives of the Foundation are to assist in developing and increasing the facilities of the University by encouraging gifts of money, property, works of art, historical papers and documents, museum specimens, and other materials having educational, artistic, or historical value. The Foundation will hold and administer such gifts with the primary object of serving purposes other than those for which the State of Illinois ordinarily makes sufficient appropriations.

The president of the University, the chairman of the Teachers College Board, and the president of the Alumni Association are automatically honorary members of the Foundation. The regular members include 100 alumni of the University. The board of directors consists of nine persons, including the president of the University, president of the Alumni Association, the director of alumni services and six elected members.

Most rooms are for double occupancy, except that a few single rooms are available and a few rooms are occupied by three persons. Sunday evening meals and meals during orientation periods are not included in the price quoted above. Details concerning rooms and meals during vacations and between quarters may be obtained from the Office of the Dean, Student Personnel Services. Information on possible installment payments is available there, also. Rates for the summer quarter and the summer session are published in the summer bulletin.

Residence hall charges may be altered at the beginning of any quarter. An advance notice of at least two weeks will be given.

SCHOLARSHIPS. *Teacher Education Scholarships.* First authorized by an act of the Illinois General Assembly in 1935, Teacher Education Scholarships entitle the holders to gratuitous instruction for a period of four school years at any of the following institutions: Eastern Illinois University, Illinois State Normal University, Northern Illinois University, Southern Illinois University, or Western Illinois University. A school year is interpreted as one calendar year.

The holder of a Teacher Education Scholarship must make application for enrollment in one of the five universities by August 15 of the year in which he was granted the scholarship. The scholarship is forfeited if the holder is not enrolled within ten days after the opening of the school term, withdraws from the university, or transfers out of teacher education. The scholarship entitles its holder to gratuitous instruction, matriculation fees, graduation fees, tuition and activity fees, or other fees in a program of teacher education, except any fees which are charged in connection with the construction or maintenance of buildings. Book rent, laboratory fees, University Union Building fees, and fees for supplies and materials are not covered by the scholarship.

Military Scholarships. Any persons who served in the Armed Forces of the United States, during World War I, not including members of the Students Army Training Corp, or any time after September 16, 1940 and who at the time of entering such service was a resident of Illinois, has been honorably discharged from such service and who possesses all necessary entrance requirements, may be awarded a scholarship to any of the six state-supported universities.

This Military Scholarship covers registration and student activity fees at Eastern Illinois University but it does not cover book rental, fees for supplies and materials, University Union Building Fee, and other miscellaneous fees.

The Military Scholarship may be secured by filing a photostatic copy of the discharge or separation papers with the Director of Veterans Services. A Military Scholarship cannot be used when the student is receiving aid from the Federal Government under Public Law 894, or Public Law 550.

Legislative Scholarship. Each member of the General Assembly may nominate annually from his district two persons, one of

whom shall receive a certificate of scholarship to the University of Illinois and the other a certificate of scholarship to any other state-supported university designated by the member. Application is made directly to the legislator who makes the appointment and notifies the president of the university. A second appointment can be made to fill the unused portion of the scholarship if the original recipient fails to use it. The scholarship pays all fees with the exception of the University Union Building Fee and the Book Rental Fee and is transferable to any state university except the University of Illinois.

I.S.S.C. The Illinois State Scholarship Commission awards scholarships to students for a maximum of four years. The awards are based on a combination of financial need and scores on a battery of tests which are taken while the student is in high school. The stipend covers all registration and other fees except health insurance.

Information concerning the program may be obtained in the Office of the Dean, Student Personnel Services. Application for benefits under this program should be made to the nearest office of the Division of Vocational Rehabilitation.

IV. ADMISSION AND REGISTRATION

ADMISSION

PROCEDURE FOR APPLYING. An application blank may be obtained by writing to the Office of Admissions. The blank contains a section to be filled out by the applicant and one to be filled out by the high school from which the applicant was graduated. The principal of the high school will forward the application to the University.

To insure consideration for admission for the Fall Quarter, the application blank, personal information blank, physical examination blank, and transcripts from colleges previously attended must be in the Admissions Office prior to September 1 for those whose high school rank is in the top two-thirds of their class. Students who rank in the lowest third of their class will conform to special instructions obtained from the Admissions Office. (The corresponding dates for the Winter, Spring, and Summer quarters are November 17, February 23, and June 1, respectively.)

There is an extra fee for late application. (See "Fees.")

ADMISSION TO THE FRESHMAN CLASS. Graduation in the upper two-thirds of a class in a recognized or accredited four-year high school admits to membership in the freshman class. Applicants who rank in the lowest third of their classes are required to take a battery of tests and appear for an interview before their applications are processed; the results of these tests are used in determining the conditions of admission.

Individuals with high school diplomas granted as a result of passing a General Education Development Test are admitted on the same terms as other high school graduates. Probationary admission of applicants who are not high school graduates is granted upon presentation of fifteen acceptable units from a recognized high school; in this case requirements for high school graduation must be completed during the freshman year.

Students from areas other than continental United States may be admitted only by committee action.

ADMISSION OF TRANSFER STUDENTS. Transfer students must file the regular application form (See "Procedure for Applying.") Transcripts of work in other colleges must be sent to the University by the colleges. A student who has been dropped or placed on probation by another college or whose grades are such that he would not be in good standing had the grades been earned in this University, is admitted only by action of the Committee on Admissions. The provisions of this paragraph apply with equal force to a former student who re-enters the University after taking work in another institution.

Transcripts become the property of Eastern Illinois University and are not returnable to students.

NOTIFICATION OF ACCEPTANCE. A notification of acceptance is mailed to the prospective student when his application and transcripts have been found acceptable.

After the applicant has been notified of acceptance he is required to have a physical examination made by his physician, and to furnish certain additional personal information to the University, before the appointment for registration is made. The final dates for filing these documents are listed above. (See "Procedure for Applying.")

SPECIAL STUDENTS. Residents of Illinois who are not high school graduates but who are at least twenty-one years old may be admitted as special students to take such undergraduate courses as they may be qualified to study, but are not considered as candidates for a degree or diploma. They may become candidates for a degree by passing an examination; in this case only those college courses taken after passing the examination may be counted toward graduation.

ACCEPTANCE OF CREDIT

CREDIT FOR COURSES IN OTHER COLLEGES. Advanced standing may be granted for courses satisfactorily completed in other recognized colleges when equivalent or similar courses are offered at Eastern Illinois University, provided that only courses with grades of "C" or higher are acceptable. Grades earned in other institutions are not included in grade point averages.

COLLEGE CREDIT FOR MILITARY SERVICE. Former members of the armed services who completed basic training are given four quarter hours credit in hygiene and are exempted from required physical education courses, except that this does not apply to those having less than one year of full time active duty service. An exception to this rule also obtains for students taking a major in physical education. Certain experiences in military service may be submitted for evaluation for advanced standing. The recommendations contained in the Handbook of the American Council on Education are used as a basis for such evaluation, and credit is allowed when the recommendations can be considered as reasonable substitutes for work ordinarily accepted by the University.

No credit is allowed for college level G.E.D. tests.

CORRESPONDENCE AND EXTENSION COURSES. Correspondence and extension courses taken through accredited colleges may be submitted for advanced standing. The total credit accepted toward

graduation may not exceed forty-eight quarter hours. Simultaneous enrollment in residence and correspondence courses is subject to approval in advance by the Dean of the Faculty; permission is given only when the total of residence and correspondence work is within the normal load.

ACADEMIC ADVISEMENT

NEW STUDENTS. All undergraduates who are entering Eastern Illinois University for the first time, whether as first quarter freshmen or as students with advanced standing, are required to be present for all of the sessions of an orientation program. Each new student must have speech and hearing tests during this period; failure to do so will result in exclusion from classes. The physical examination must be completed before registration is begun.

Each new student is assigned to an adviser who assists him in the preparation of his academic program. During the orientation days the adviser and the student together plan his courses for the entire year—a procedure known as pre-registration. This plan is subject to modification later upon recommendation of the adviser and approval of the Dean of the Faculty.

It is expected that the student will have selected one of the curricula of the University and that the student and his adviser will plan courses that are consistent with its requirements.

FORMER STUDENTS. Students who return to the University after a lapse of one or more quarters must obtain an assignment of adviser from the Assistant to the Dean.

REGISTRATION PROCEDURES

NEW STUDENTS. Instructions for registration of new students are given during the orientation period in writing, conferences, and meetings.

PRE-REGISTRATION. During the Spring Quarter of each year students who plan to return to the campus confer with their advisers in order to pre-register for work to be done during the next year. The pre-registration program is subject to change upon the recommendation of the adviser. Changes may be made upon presentation to the Dean of the Faculty of a request signed by the student's adviser.

Pre-registration is not complete until class cards have been reserved. Reservation of a card for any class is subject to the assigned capacity of the class. The schedule for reservation of cards is planned so that seniors, juniors, sophomores and freshmen have priority in that order.

CHANGE OF ADVISER. Students who wish to change advisers, or change majors, must apply to the Assistant to the Dean.

REGISTRATION SCHEDULE. All students who have pre-registered will register on Registration Day as listed in the University calendar or at earlier dates as announced by the Records Office.

Students in good standing who wish to register on that day and who have not pre-registered may meet their advisers after 2 p.m. and may be permitted to register for classes in which there are vacancies. These students receive permission at the Records Office. Pre-registered students who fail to register at their appointed time forfeit their priority in classes for which they were pre-registered.

V. ACADEMIC REGULATIONS

CREDIT

The unit of measure is the quarter hour, representing one hour a week of prepared work for one quarter. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (8 semester hours). The normal load in one quarter is 16 quarter hours of prepared work.

Seniors enrolled in freshman courses are allowed only two-thirds credit for such courses, except that freshman courses in foreign languages may be taken by seniors for full credit.

Credit earned in dramatics, glee club, choir, chorus, orchestra, or band is in excess of the total required for graduation except for those whose major or minor is music. Such students receive certain stated credits toward graduation under the title "Ensemble." (Elementary education majors may also earn four quarter hours in Ensemble credit.)

A statement of the amount of credit is included in the description of each course.

CLASSIFICATION OF STUDENTS

A student is classified as a freshman if he has completed with passing grades fewer than forty quarter hours, exclusive of nominal credit courses; he is considered a sophomore if he has completed at least forty quarter hours but fewer than eight-eight quarter hours; he is classified as a junior if he has completed at least eighty-eight but fewer than one hundred thirty-six quarter hours and as a senior if he has completed one hundred thirty-six quarter hours but has not completed his requirements for a bachelors degree. He is classified as a graduate student if he has completed all requirements for a bachelor's degree and has applied for and has been admitted to take graduate courses. He is considered a special, or unclassified, student in any cases not covered in the foregoing.

ACADEMIC STANDING

GRADES. The grades given in courses are as follows:

Grade	Description	Grade Point Value
A	Excellent	4
B	Good	3
C	Fair	2
D	Poor but passing	1
F	Failure	0
E	Incomplete	—
W	Withdrew	—
Cr	See "Proficiency Examinations"	

The grade of E may be given when because of illness or some other important reason the student's normal progress in a course has been delayed, provided the instructor has approved a plan for completion of the work no later than the end of the next quarter of residence. If the plan is carried out, the grade earned by the student replaces the grade of E; otherwise the grade of E stands on the student's record.

GRADE POINT AVERAGE.* The number of grade points for a grade in a given course is found by multiplying the grade point value by the number of quarter hours which may be earned in the course. The Grade Point Average is computed by dividing the total number of grade points earned in all courses taken at Eastern Illinois University by the total number of quarter hours represented by those courses. If a course has been repeated, only the last grade is counted in making this computation. *It is the responsibility of the student to report to the Records Office that a course is being repeated.*

GRADE POINT DEFICIT.* If the Grade Point Average is less than 2.0, a Grade Point Deficit exists. This is computed by subtracting the grade point total from twice the total number of quarter hours. (This is equivalent to defining the Grade Point Deficit as the number by which the grade point total would have to be increased in order to have a Grade Point Average of 2.0 in the courses considered.)

GOOD STANDING. A student who has attended, full time or part time, less than one year in Eastern Illinois University and/or other colleges is considered in good standing unless he has a Grade Point Deficit greater than 8.

A student who has attended one year, but less than two years in Eastern Illinois University and/or other colleges is considered in good standing unless he has a Grade Point Deficit greater than 4.

A student who has attended two years in Eastern Illinois University and/or other colleges is considered in good standing if his Grade Point Average is 2.00 or higher.

For purposes of this section, three terms at Eastern Illinois University, either summer terms or quarters, shall be interpreted as one year; one semester, summer term, or quarter in another

*An example of these computations: If grades of A, B, C, D, and F are earned in courses of 2, 4, 4, 1, and 4 quarter hours respectively, the Grade Point Average and Grade Point Deficit are computed as follows:

Grades	Quarter Hours	Grade Points	Computation
A	2	8	G.P.A. = 20 divided by 15 = 1.33
B	4	12	
C	4	8	G.P.D. = 2x15 minus 20 = 1.
D	1	1	
F	4	0	
	15	29	

college shall be interpreted as one quarter; two semesters in another college shall be interpreted as one year.

PROBATION. A student whose record falls below that required for good standing, but not so low as to be subject to exclusion, is placed on probation for one quarter.

FINAL PROBATION. A student who has attended for one quarter on probation and whose record at the close of that quarter, or at any subsequent time, falls below that required for good standing, but not so low as to be subject to exclusion, is placed on Final Probation for one quarter.

EXCLUSION. A student is dropped for low-scholarship (1) if at the close of a quarter of Final Probation he has not attained good standing; (2) if at any time subsequent to a quarter of Final Probation his record falls below that required for good standing; or (3) if at any time his record shows a Grade Point Deficit greater than 20, except that this provision does not apply to his record at the end of his first quarter if he has never attended another college.

APPEAL. A student who has been dropped for low-scholarship may be readmitted only by action of the Committee on Admissions. Ordinarily, a period of two quarters must elapse before a petition will be considered. The length of the new probationary period and any additional conditions are fixed by the Committee as conditions for readmission. Petition forms may be obtained from the Dean of Students.

HONORS. Graduation honors for the Junior College Diploma and the degrees, B.S. in Ed., B.A., and B.S., are computed on the basis of the scholarship record at the end of the Winter Quarter of the year of graduation, or at the end of the Spring Quarter in case of graduation in the August commencement. To be eligible for graduation honors a student must have been in residence for two academic years or the equivalent in summer terms.

A student whose grade point average is at least 3.40 but less than 3.75 is graduated with Honors; one whose grade point average is 3.75 or higher is graduated with High Honors.

Quarter honors and annual honors are recommended on the same basis as graduation honors, provided that to be eligible for honors in any quarter the student must have carried at least fourteen quarter hours of courses exclusive of library, penmanship, service courses in physical education and nominal credit in music organizations; and for annual honors, forty-two quarter hours of credit in three quarters.

Graduation honors are noted on the diploma and announced at Commencement.

SCHOLARSHIP REQUIREMENTS FOR GRADUATION. (See "Graduation Requirements.")

EXTRA WORK

A normal load of work for an undergraduate student in good standing in any of the three quarters of the school year or in the summer quarter is sixteen quarter hours of regular academic courses except when, as in music, the curriculum calls for a different load.

No student may register for additional work during his first quarter of residence in the University, during a quarter in which he is taking four quarter hours or more in student teaching, nor during a ten week summer quarter. With these exceptions, an undergraduate student may register for overloads under the following conditions:

A student whose cumulative Grade Point Average is at least 3.0, or whose cumulative average for the three quarters immediately preceding is at least 3.0, may register for as many as twenty quarter hours in a quarter.

A student whose cumulative average is at least 2.75 may register for eighteen quarter hours.

Any music major in good standing may register for eighteen quarter hours including two quarter hours in applied music. Ensemble credit is not counted in computing overloads for music students except that no student may earn more than sixty quarter hours including ensemble credit in three consecutive quarters regardless of cumulative average.

Graduate students are restricted to 16 quarter hours during a quarter.

ATTENDANCE AT CLASSES

Students are expected to attend all classes for which they are registered unless prevented by illness or some other urgent reason.

A student who is absent for serious illness or because of death or illness in the immediate family is expected to notify the Dean of Students office the first day of his absence, if possible, so that his teachers may in turn be notified.

When a student knows in advance that he will be absent, it is his duty to notify his teachers. When he does not know of it in advance, he has the obligation to explain his absence on returning.

A student who is absent immediately before or immediately after a vacation period is not accorded the privilege of making up work missed unless it is definitely established through the University Health Service and the Dean of Students office that the student has been too ill to attend or that there has been a death or serious illness in the immediate family.

Instructors are responsible for keeping in their classbooks accurate records of the attendance of all members of their classes. The attendance record of any student shall be submitted to the Dean of Students or the Dean of the Faculty upon request.

Instructors are expected to report to the Dean of Students the name and attendance record of any student whose absences have become a matter of concern to the teacher. A student whose record has been so reported may be denied permission by a teacher to re-enter class until he presents a statement from the Dean of Students. In the event that the student has missed classes for reasons acceptable to the Dean of Students, he is entitled to a reasonable amount of help from the teacher in making up work missed. In the event that the reason for excessive absence is not acceptable to the Dean of Students, the student may be required by the Dean of Students to withdraw from the course from which he has been reported excessively absent. In aggravated cases of failure to attend classes he may be dropped from the University by action of the Administrative Council on recommendation of the Dean of Students.

WITHDRAWAL

WITHDRAWAL FROM UNIVERSITY. A student who wishes to withdraw from the University before the end of a quarter or summer term must notify the Assistant Dean, Registration and Records, at the time of withdrawal. This notification must be accompanied by a clearance sheet which certifies that all obligations, including the return of textbooks and library books, the return of any departmental equipment loaned to the student, and the return of the Student Activity Ticket, have been met. Such a student receives grades of W in all courses, except that if the withdrawal takes place within the last two weeks of the quarter, grades of W are recorded only for courses in which he is doing passing work, with grades of F for courses in which he is failing. The clearance sheet described above is obtained from the Dean of Students.

If a student discontinues attendance in all classes without withdrawing officially, grades of F are recorded in all courses, and his record is marked "Dropped on account of low scholarship" if transferred to another institution.

WITHDRAWAL FROM A COURSE. A student may drop a course at any time within the first thirty-four school days following Registration Day upon recommendation of his adviser and the approval of the Dean of the Faculty. If the course is dropped during the first nine days the registration for the course is cancelled and no grade is given. If the course is dropped on or after the tenth day the grade "W" is recorded if the work to date is of passing quality (D or higher) while the grade "F" is recorded in other cases. In particular, the grade "F" must be recorded if prior to the effective date of withdrawal the number of unexcused absences has been great

enough so that the student cannot be considered as having done the work of the course to date.

No student may drop a course after the thirty-fourth school day following Registration Day unless illness (certified by the University physician) or extended absence from the campus certified by the Dean of Students as legitimate and unavoidable has caused the student to drop behind in all of his courses to the point where his load must be lightened.

PROFICIENCY EXAMINATIONS

Proficiency examinations may be taken for credit in undergraduate courses offered in the college in accordance with the following regulations:

1. The applicant must be enrolled as a full time student or must be within 16 quarter hours of graduation, or must be a teacher who has been working regularly toward the degree, B.S. in Education, and who was in full time residence during the summer term immediately preceding the year in which application for the examination is made. The applicant must be in good standing.
2. The course in which examination is requested may not duplicate substantially any course accepted for college entrance or for transfer of credit.
3. Recommendation of the department head and approval of the Dean of the Faculty are required for each examination. The applicant should present evidence of independent study or of equivalent work taken in non-accredited schools.
4. An examination for credit in an elementary college subject will not be permitted to a student who has already received credit for more than one quarter's work in advance of the course in which the examination is requested.
5. Proficiency examinations may not be used to remove grades of F or to raise grades.
6. In order to be allowed credit, the examination must be comprehensive, and the grade must be C or higher. The symbol "Cr" is entered in the student's record, and the credit is not counted in averages for honors, probation, etc.
7. Credit earned by proficiency examinations may be counted toward a bachelor's degree or junior college diploma subject to all of the rules that would apply if the same course had been taken in regular class attendance.
8. Permission shall not be granted for examinations in shop, studio, or laboratory courses in which the actual laboratory

experience is an important factor in determining the course grade unless equivalent work has been done in a non-accredited learning situation.

9. Proficiency examinations may not be given for credit in required physical education or applied music.
10. When a course in which an examination is granted is ordinarily taught by more than one member of a department, a committee of at least two members should be assigned the responsibility for the examination and the grade. This assignment is made by the head of the department.

GRADUATION REQUIREMENTS

Eastern Illinois University offers a junior college diploma, three undergraduate degrees, and a graduate degree. Regulations governing the junior college diploma and the baccalaureate degrees are presented in the sections below:

RESPONSIBILITY OF STUDENTS. It is the responsibility of the student to know and to observe the requirements of his curriculum and the rules governing academic work. Although the adviser will attempt to help the student make wise decisions, the ultimate responsibility for meeting the requirements for graduation rests with the student.

DIPLOMA. A Junior College Diploma is awarded upon successful completion of one of the two-year curricula described in this bulletin. At least one year of residence work is required for the Junior College Diploma.

A candidate for the Junior College Diploma must pass an examination on the Declaration of Independence, the proper use and display of the flag, the Constitution of the United States and the Constitution of Illinois.

Three-fourths of the candidate's grades must be C or above, and the grade point average of all courses must be 2.0 or higher.

The physical education requirement for graduation with a Junior College Diploma is six quarter hours.

GENERAL REQUIREMENTS FOR BACCALAUREATE DEGREES. The official requirements for the baccalaureate degrees are given in the curriculum outlines.

CREDIT. The minimum credit for a junior college diploma is 96 quarter hours, and for a baccalaureate degree, 192 quarter hours exclusive of service courses in physical education, Library 120, and any other nominal credit courses. Nominal credit is defined as credit which may apply only in excess of the minimum requirement.

RESIDENCE. At least 64 quarter hours of courses, including 48 quarter hours taken in the junior and senior years, must be completed in residence in this institution.

EXTENSION AND CORRESPONDENCE WORK. The maximum amount of credit in correspondence and extension courses which may be applied toward a baccalaureate degree is 48 quarter hours.

SPECIAL EXAMINATIONS. The Junior English Examination and an examination on the Declaration of Independence, the proper use and display of the flag, and the constitutions of The United States and of Illinois must be passed by all candidates for graduation.

ADVANCED COURSES. Sixty-four quarter hours of credit for a baccalaureate degree must be earned in courses not open to freshmen and sophomores. Courses numbered 300 to 549 are indicated by this rule. In the case of students who enter with advanced standing, courses not open to freshmen and sophomores in schools previously attended may be included in this total.

GRADE POINT AVERAGE. An average of 2.0 with not more than 48 quarter hours with grades below C, is required for graduation. The grades in the major must likewise average 2.0 or higher.

APPLICATION FOR GRADUATION. Degrees are conferred and junior college diplomas awarded at two commencements each year, Spring Commencement at the close of the spring quarter, and Summer Commencement at the close of the summer term. All requirements for the degrees or the diploma must have been completed before commencement, except that at Summer Commencement students who are currently registered for courses which can be completed prior to September first may participate in the exercises and will receive degrees and diplomas dated in that year.

A student who expects to complete his requirements must apply for graduation prior to April first for Spring Commencement, or July first for Summer Commencement. An application is filed at the Records Office and the graduation fee paid at the Business Office. An additional fee of five dollars is charged if the student applies for graduation or pays his graduation fee later than the dates given. Late applicants cannot be assured that their diplomas will be prepared in time for graduation, their names printed on the commencement program or their academic costumes ordered by the University.

PLACEMENT BUREAU. Registration with the Bureau of Placement is prerequisite to graduation with any degree.

PHOTOGRAPH. A photograph, size not larger than one and one-

half inches by two and one-half inches is required of each candidate for graduation for the files of the Records Office.

CERTIFICATION REQUIREMENTS. Candidates for the degree B.S. in Ed. are responsible for fulfilling any special certification or accreditation requirements of the schools in which they will teach.

CREDIT FOR COURSES IN EDUCATION. Courses in education and methods of teaching, other than Education 232, are not accepted toward the degrees B.S. and B.A. Enrollment in these courses is permitted only to students who have been accepted as teacher education candidates.

TRANSCRIPTS. The Records Office will make a transcript of the academic record of a student when requested to do so. Unless specific instructions are given to the contrary, it is understood that the Records Office has permission of the student to send his transcript of record to employing and certificating agencies, such as schools, boards of education, businesses, state department of education, when such an agency requests it.

All requests for transcripts must be in writing, either by letter or on the request forms supplied by the Records Office.

The time for preparation and mailing of transcripts varies with the season of the year. During registration and quarter end there may be a delay of several days.

A transcript fee of one dollar is charged for each transcript after the first transcript issued.

AUDITING OF COURSES

Provision for auditing courses may be made under certain circumstances. Information concerning the regulations may be obtained in the Records Office.

Fees for auditing are the same as those for students taking an equivalent amount of work for credit.

Students enrolled for full time academic work must include any courses they wish to audit as part of the maximum load permitted them.

VI. TEACHER EDUCATION

ADMISSION TO TEACHER EDUCATION

Admission to the University does not automatically admit to teacher education. Only students who have been admitted to teacher education may register for departmental methods courses and education courses numbered above 300. Admission to teacher education is governed by the following policies:

Curricula for High School and Special Area Teachers. Students who are pursuing a departmental curriculum which leads to the degree B.S. in Ed. must make application for admission to teacher education no earlier than the quarter in which they will complete forty quarter hours of credit in the University, and no later than the quarter in which they will have completed one hundred quarter hours of credit. Students in these curricula are not permitted to enroll in departmental methods courses and in courses in education except Education 230 and 232 until after they have been admitted to teacher education.

Elementary Education Curriculum. Students are permitted to enroll tentatively in the curriculum in elementary education to take the courses prescribed in this curriculum; they will submit applications for admission to teacher education at the same time as students in the secondary curricula. Enrollment in education and departmental methods courses numbered 300 or higher must wait until after admission to teacher education.

Transfer and Extension Students. Transfer students entering the University will be expected to meet the requirements for admission to teacher education. Those with less than two years of accepted credit may not carry departmental methods or 300 and 400 level education courses until they have been admitted to teacher education. Those with more than two years of credit may carry such courses until they are eligible to make application.

Persons with a baccalaureate degree in any recognized college or university may take departmental methods courses and 300 or 400 level education courses without formal admission to teacher education, but may carry student teaching only by meeting the criteria for admission to teacher education.

Teachers in service may take departmental methods courses and 300 or 400 level education courses without admission to teacher education, but will be expected to make application for admission to teacher education immediately upon re-registering for residence work.

Late Application. Students who have earned more than one hundred quarter hours may make application for admission to teacher education with the understanding that they must make up

existing deficiencies in the curriculum leading to the degree B.S. in Ed. and that no privileges will be accorded in the way of acceleration of either the professional or academic requirements of that curriculum.

Criteria for Admission to Teacher Education. Admission to teacher education is determined by the Committee on Admission to Teacher Education. This committee will require for its consideration:

- a. A formal application from the student.
- b. Grades which average 2.10 or higher.
- c. Evidence of proficiency in English usage.
- d. A recommendation from the student's major department.
- e. A recommendation of the University physician.
- f. A recommendation from the Speech and Hearing Clinic.
- g. A record of the scores made by the student in entrance tests and subsequent tests administered to students.
- h. A statement from the Dean of Students.

Application blanks for admission to teacher education and additional information may be secured at the Office of Teacher Education and Placement.

STUDENT TEACHING

Academic Standards for Admission to Student Teaching

Admission to teacher education is prerequisite to admission to student teaching.

1. Students in the four-year program shall have earned sixteen (16) quarter hours of credit in professional education courses, including Education 345, "Directing Learning," before being assigned to student teaching. (Industrial Arts and Business Education majors may substitute Education 458 for 345. Music majors may take either Education 345 or 446.)
2. To be eligible for student teaching a student must have a grade point average of 2.0, including a 2.0 average in his teaching fields. (This requirement will be 2.10 after September 1, 1962.)
3. Required departmental "Methods of Teaching" courses should be completed before a student participates in student teaching.
4. Students must meet the minimum requirements established by the office of the Superintendent of Public Instruction for teaching any high school subject.
5. Transfer students must have been in residence at Eastern for at least one quarter or one summer term before they may be admitted to student teaching.

6. Students who have earned a baccalaureate degree from another accredited college or university and who meet the academic and residence requirements for admission to student teaching, may enroll for student teaching by obtaining permission from the Dean of the Faculty and the Director of Teacher Education.

Health Standards for Admission to Student Teaching

1. All students must have had a chest X-ray (negative) within one year previous to beginning student teaching. Juniors may obtain a free X-ray from the state X-raymobile during its spring visit to Charleston. A negative skin test may be accepted in lieu of a chest X-ray.
2. All students must be in good health and free from communicable disease. To be assigned to student teaching for the first time, a student must secure a statement from the Health Service indicating that he is physically qualified to carry the responsibilities of a student teacher and as a regular teacher after employment.

Assignment to Student Teaching

1. Application for student teaching assignments are made to the Associate Dean, Teacher Education and Placement, in advance of the quarter in which student teaching is desired.
 - a. Secondary majors work with their departmental coordinator of off-campus student teaching in arranging suitable assignments.
 - b. Elementary majors plan with their advisor.
2. Assignments for student teaching are made through the office of the Associate Dean, Teacher Education and Placement, as follows:
 - a. Secondary majors are given assignments by the departmental off-campus coordinator of student teaching, subject to the approval of the Associate Dean, Teacher Education and Placement.
 - b. Elementary majors are assigned to supervising teachers in the Robert G. Buzzard Laboratory School, subject to the approval of the Associate Dean, Teacher Education and Placement.
3. Students should arrange for their student teaching assignments before registering for other subjects.
4. In planning their schedule of classes, students provide time for student teaching according to one of the following patterns:
 - a. All day for one quarter.

- b. Half-day for two quarters.
 - c. All day for nine weeks (Home Economics majors only)
5. No student may register for more than a normal load, including student teaching, during any quarter in which he has student teaching.
 6. Students enrolled in full-time off-campus student teaching for one quarter may register for a maximum of sixteen (16) quarter hours, (Education 441, 442, 443, and 444.)
 7. Students enrolled in either full-time or part-time off-campus student teaching must assume the necessary transportation, room and board expenses. These charges should be considered as a part of the total cost of college attendance during the senior year.
 8. Students who are enrolled in off-campus student teaching must conform to all special regulations relative to these assignments.

Off-Campus Student Teaching

The off-campus student teaching program at Eastern Illinois University affords qualified students an opportunity to obtain pre-service experience in a typical school situation. Students who expect to teach on the high school level will, in most cases, need to do their student teaching outside of Charleston.

Those who participate in full-time teaching should live in the community in which they do their student teaching. These students report to the school every day, all day, and work with the school system for twelve weeks, and follow the local school calendar.

In addition to obtaining experiences in directing the learning activities of boys and girls in the academic areas, these full-time student teachers frequently participate in or are responsible for: the guidance program of the school, the audio-visual program, study halls, the preparation of assembly programs, field trips, dramatics, and athletic contests. These students also attend faculty, department, curriculum, and P.T.A. meetings. They participate as faculty members in as many of the activities of the school and community as possible.

In brief, the objective of the full-time off-campus student teaching program is to provide opportunities for these students to learn, through participation, to conduct the learning experiences and activities included in a typical teaching assignment. The number and kinds of experiences will vary. These are determined by: the needs of the student; his ability to pursue them with profit; his interest and initiative; his special talents; and, the facilities and activities which the school system and community can provide.

Laboratory School

Robert G. Buzzard Laboratory School is operated primarily to provide observation and student teaching facilities for University classes and students. Classrooms are open to observers. Arrangements for observation, either individual or group, should be made in the office of the Director of the Laboratory School. The director and supervising teachers will help University students and visiting teachers obtain the observation opportunities desired.

The laboratory school includes an elementary school of six grades and a junior high school with grades seven, eight and nine. The school is under the supervision of a director who works with the Associate Dean in planning and implementing the educational program. Departments of the University serve in an advisory capacity.

VII. TEACHER EDUCATION CURRICULA

Requirements for the Degree, Bachelor of Science in Education

(Effective September 1, 1961, for students who enter as freshmen or transfer students. Specific curricula conforming to these requirements will be described in material supplementary to this publication and will appear in later catalogues.)

I. General Requirements

(Subject to modification by exemptions described in Section V.)

English Composition, freshman level (English 120, 121)—8 q. hrs.

English Composition, sophomore level (English 220)—4 q. hrs.

Speech (Speech 131 or 345)—4 q. hrs.

Natural Sciences (see Section IV for definition)—16 q. hrs.

Social Science (see Section IV)—20 q. hrs.

Humanities (See Section IV)—24 q. hrs.

Mathematics (see Section IV)—4 q. hrs.

Health Education (Health Education 120)—4 q. hrs.

Library Science (Library 120)—(1)

Physical Education Service Courses—(6)

Note: Credit listed in parentheses is nominal credit to be earned in addition to 102 q. hrs. required for graduation.

II. Professional Requirements

Professional Education (courses to be announced)—12 q. hrs.

Psychology (Psychology 231)—4 q. hrs.

Methods (see Section IV)—0 to 8 q. hrs.

Student Teaching—12 q. hrs. (A maximum of 16 q. hrs. may be earned.)

III. Majors and Minors

In curricula for the Secondary School Certificate a major of at least 48 q. hrs. and a minor of at least 24 q. hrs. are required. In curricula for the Special Certificate in Music, Art, Women's Physical Education, Industrial Arts, Home Economics, Social Science, and Business a minor is not required. The courses for majors and minors are prescribed.

Candidates in Elementary Education follow a curriculum designed for the Limited Elementary Certificate.

IV. Definitions and Restrictions

Natural Sciences. The natural sciences are classified in two fields: biological sciences and physical sciences. The biological sciences comprise botany, zoology, and general biology. The physical sciences comprise physics and chemistry. Twelve quarter hours of the natural science requirement must be in one field. (For students who enter prior to September 1, 1963, the total science requirement is 12 q. hrs. in one field.)

Social Science. The social sciences are defined to include history, political science, economics, sociology, and geography. At least 12 q. hrs. must be taken in one of these subjects. At least 4 q. hrs. must be in American History.

Humanities. This area is defined to include three groups of subjects:

Group A—Philosophy and Literature

Group B—Music and Art

Group C—Foreign Languages

The normal requirement of 24 q. hrs. must be met by taking 12 q. hrs. in each of two of these groups.

Mathematics. The mathematics requirement is satisfied by a mathematics course other than a course in methods of teaching mathematics.

Acceptable Unit. In defining exemptions below, an acceptable unit is defined as two semesters of high school work taken five periods per week with a B average by a student who ranked in the upper two-thirds of his high school class.

Methods Courses. Prospective secondary teachers must take a 4 q. hr. course in methods of teaching in their major field unless the Dean of the Faculty rules that methods work is contained in other courses. Where the major and the minor are ruled dissimilar by the Dean of the Faculty, a methods course must also be taken in the minor.

V. Exemptions

English 220 may be omitted by a student whose grades in English 120 and 121 average 3.0 or higher. A student may also be exempted from English 220 on the basis of an examination given by the Department of English.

The natural science requirement may be reduced by 4 q. hrs. if the student presents one or more acceptable units in a science in which laboratory work was required. The remaining 12 q. hrs. must be taken in a single subject in a field different from that

in which the exemption is taken. (This paragraph applies only to students who enter after September 1, 1963.)

The social science requirement may be reduced by 4 q. hrs. for one acceptable unit in high school or by 8 q. hrs. for two or more acceptable units. In case exemptions are granted, the requirements of 12 q. hrs. in a single subject is reduced to 8 q. hrs. This does not alter the requirement that 4 q. hrs. must be taken in a college course in American History.

The humanities requirement may be modified by exemptions as follows:

If Group A is chosen, the 12 q. hrs. for this group may be reduced to 8 q. hrs. if the student presents one or more acceptable units.

If Group B is chosen, the 12 q. hrs. may be reduced to 8 q. hrs. by the presentation of one or more acceptable units.

If Group C is chosen, the 12 q. hrs. requirement will be considered as completely satisfied by two acceptable units in a single language. A student with less than two acceptable units may take a placement examination given by the Foreign Language Department to determine the point at which he enters upon further study of that language, and he will meet the total requirement when he has passed the third quarter college course in that language.

Regardless of exemptions, a student must take a minimum of 16 q. hrs. of college work in the humanities.

The mathematics requirement may be omitted by a student who presents two acceptable units in high school courses ruled by the Mathematics Department of the University as college preparatory mathematics. Algebra, plane geometry, solid geometry, and trigonometry are considered college preparatory mathematics courses; courses of newer types now offered in certain high schools may be ruled by the Department to be college preparatory courses.

Exemptions do not establish college credit; instead, they free the student for greater flexibility in planning his college courses by permitting more elective credit.

Students who enter the University between September 1, 1961, and September 1, 1963, and whose high school record makes them eligible for fewer than eight quarter hours of exemption are granted supplementary exemptions to bring their total to eight quarter hours. The supplementary exemptions may be applied to requirements in social science, mathematics, and humanities, with not more than four quarter hours applied in any one of these areas.

Students who are not eligible for exemptions under the rules above may apply for examination in high school subjects in which they feel confident that they have adequate background.

TEACHER EDUCATION CURRICULA

(For students who entered prior to September, 1961)

The outlines which follow define the requirements for the majors in the elementary, secondary, and special fields and suggest the most desirable sequences. Irregular students are obliged to alter these sequences; this should be done with greatest care. While advisers will help students to make decisions regarding choice of courses, it is the responsibility of the student to meet all of the requirements for his graduation and to know and observe all of the academic rules, including the rules governing admission to the courses entered on his program.

Curriculum for Elementary Teachers

(For students who entered prior to September, 1961)

This curriculum is intended to prepare for teaching in the first eight grades of the public schools. The degree, Bachelor of Science in Education, is conferred upon its completion and graduates are recommended for a Limited Elementary Certificate.

The degree, Bachelor of Science in Education, is conferred upon the completion of any of the curricula described in this section, and graduates are recommended for a High School Certificate or Special Certificate as indicated.

The curricula are listed according to major. At least one minor of 24 quarter hours is required for a high school certificate. Each curriculum provides for a number of elective courses; students are urged to use electives, in the main, to build additional minors. A few courses are not accepted as electives in certain curricula; these

exceptions are noted in the Description of Courses.

The student's program for graduation must be approved by the Dean of the Faculty before it is accepted as fulfilling requirements.

VIII. GENERAL COLLEGE CURRICULUM

The aim of the General College Curriculum is to provide a sound general education and a measure of specialization to students who wish to use the facilities of the University for this purpose and who do not wish to prepare for a career in teaching. The requirements for the degrees, and a desirable sequence appear below. The student's adviser will help in making decisions concerning choice of courses and altering of the sequence, but it is the responsibility of the student to satisfy all of the requirements for his degree, to check on his eligibility to take courses, and to observe the academic rules governing his program.

BACHELOR OF ARTS

(For students who entered prior to September, 1961)

The curriculum for the degree, Bachelor of Arts, B.A., is the same as that for the degree, B.S., except that the student must elect twenty-four quarter hours in a foreign language. The foreign language satisfies the minor requirement.

Requirements for the Degrees, Bachelor of Science and Bachelor of Arts

(Effective September 1, 1961, for students entering for the first time either as freshmen or transfer students.)

I. General Requirements

(Subject to modification by exemptions described in Section IV)

	B.S.	B.A.

Health Education (Health Education 120)	4 q. hrs.	4 q. hrs.
Library 120	(1 q. hr.)	(1 q. hr.)
Physical Education Service Courses	(6 q. hrs.)	(6 q. hrs.)

Credit listed in parentheses is nominal credit to be earned in addition to 192 q. hrs. of academic courses required for graduation.

II. Majors and Minors

A major of 48 q. hrs. and a minor of 24 q. hrs. are required for graduation. Certain courses may apply toward both the general requirements and the major or the minor.

III. Definitions and Restrictions

Science. The sciences are classified in two fields, biological sciences and physical sciences. The biological sciences comprise general biology, botany, and zoology. The physical sciences comprise chemistry and physics. Twelve quarter hours in each of these fields constitutes the normal requirement for the degree, B.S., while 12 q. hrs. in one field constitutes the normal requirement for the degree, B.A.

History. History courses may be classified as American History, European History, Latin American History, World History, etc. At least two of these fields of history must be included in meeting the normal requirement.

Social Studies. The social studies area is defined to include economics, political science, sociology, psychology, and geography. The normal requirement of 16 q. hrs. must include work in two of these subjects.

Humanities. This area comprises art, music, literature, and philosophy. The normal requirement of 16 q. hrs. for the degree, B.S., requires work in at least two of these subjects; the normal requirement of 24 q. hrs. for the degree, B.A., requires work in at least three of these subjects.

Mathematics. Courses in college mathematics other than courses in methods of teaching mathematics may be used to satisfy this requirement.

Foreign Languages. The normal requirement of 24 q. hrs. for the degree, Bachelor of Science, must consist of courses in a single language. The normal requirement of 36 q. hrs. for the degree, Bachelor of Arts, must, likewise, consist of courses in a single language.

Acceptable Unit. In defining exemptions in Section IV an acceptable unit is defined as two semesters of high school work, taken five periods per week with a B average by a student who ranked in the upper two-thirds of his high school class.

IV. Exemptions

A student who presents two acceptable units in physical sciences may be exempt from the physical science requirement and have the total science requirement for the degree, Bachelor of Science, reduced to 12 q. hrs. in biological science. A student who presents two acceptable units in biological science may have the total science requirement reduced to 12 q. hrs. in physical science. Regardless of exemptions, the candidate for the degree, Bachelor of Science, or the degree, Bachelor of Arts, must take at least 12 q. hrs. in one of the fields in the science area.

A student who presents one or more acceptable units in history may have the history requirement reduced to 8 q. hrs., with this work taken in a subject different from that in which the exemption was earned.

A student who presents one or more acceptable units in any of the subjects in the humanities area may have the requirement reduced by 4 q. hrs.

A student who presents one or more acceptable units in college preparatory mathematics may have the mathematics requirement reduced by 4 q. hrs. for each such acceptable unit.

A student who presents two acceptable units in a given foreign

language from high school may have the foreign language requirement reduced by 12 q. hrs. provided the remaining 12 q. hrs. are taken in the same language at the second year college level. Students who present four acceptable units of a single language from high school may omit the foreign language requirement for the degree, Bachelor of Science; or they may reduce the requirement for the degree, Bachelor of Arts, from 36 q. hrs. in a single language to 12 q. hrs. in that language at the third or fourth year level.

The definition of college preparatory mathematics for the degrees, Bachelor of Science and Bachelor of Arts, is the same as the definition given under the requirements for the degree, Bachelor of Science in Education. The provision for placement examination in foreign languages described for the degree, Bachelor of Science in Education, likewise obtains for the degrees, Bachelor of Science and Bachelor of Arts.

Exemptions do not establish college credit; instead, they free the student for greater flexibility in planning his college courses by permitting more elective credit.

Students who are not eligible for exemptions under the rules above may apply for examination in high school subjects in which they feel confident that they have adequate background.

TWO YEAR GENERAL CURRICULUM

This curriculum offers a wide choice of electives but requires that they conform to a pattern which encourages both depth and breadth of education. The curriculum is recommended to students who have not yet decided upon a field of major interest and wish to explore several fields, to students who have definite plans for transferring to other colleges at the end of the first two years, and to students who wish to round out their education with two years of general college work. It may be adapted readily to needs of students who are interested in business careers.

By proper choice of electives students who complete this curriculum are able to satisfy the requirements for a degree in botany, chemistry, business education, English, foreign languages, geography, mathematics, physics, social science, or zoology with two additional years of residence in the University.

IX. EXTENSION SERVICES

Organization. Classes may be organized in communities in which fifteen or more students can agree upon an acceptable course. The courses offered are usually on junior, senior, or graduate level, but freshman or sophomore courses may be offered if desired.

Entrance. Undergraduate courses are open to high-school graduates. They may be audited or taken for credit. The regular fees are required of auditors. Graduate courses are subject to the same entrance requirements as the same courses taught in residence.

Credit. Classes meet in weekly periods of one hundred fifty minutes for sixteen weeks. Four quarter hours of credit are given upon satisfactory completion of a course.

Registration Procedures. Students in extension courses register and pay fees by mail, following instructions and using materials furnished by the instructor at the first and second meetings of the class.

Fees. The fees are \$12.50 for each course with an additional charge of \$1.50 for textbook rental. When textbooks cannot be supplied by the University Textbook Library, the rental fee is waived and the members of the class must buy their own books.

Holders of Lindly, Teacher Education or Illinois Military Scholarships are required to pay the textbook rental (\$1.50).

Veterans of World Wars I and II and the Korean conflict who were residents of Illinois at the time of entering the service upon presentation of an honorable discharge are granted an Illinois Military Scholarship to cover the fees (\$12.50). A Military Scholarship cannot be used when the student is receiving aid from the Federal Government under Public Law 16, Public Law 346, or Public Law 550.

Address all requests for bulletins and other inquiries concerning this work to the Director of Extension.

X. GRADUATE STUDY

AIM

It is the purpose of the program of graduate study at Eastern Illinois University to offer experiences designed to advance the professional and personal competence and scholarship of teachers and other educational workers in public schools.

ADMISSION

Admission to take graduate courses is granted upon evidence of a standard baccalaureate degree from an accredited college or university. Admission to courses is not to be interpreted as admission to candidacy for the degree, M.S. in Ed.

An application, together with transcripts certifying the bachelor's degree and any subsequent work in other institutions, must be filed at least ten days before the first registration for graduate courses. Application blanks may be secured from the Dean of the Faculty.

A student who holds a baccalaureate degree is known as a graduate student only if he has applied for and has been accepted to take graduate courses. Otherwise he is known as a special student. (See page 69.)

ADVISER

Each student is assigned to an adviser. It is the responsibility of the adviser to counsel with the student in his choice of courses, to sponsor his application for admission to candidacy, to approve his paper, and to arrange his examination. Other faculty members may be appointed to share any of these responsibilities.

ADVANCED STANDING

Credit, not to exceed twelve quarter hours, may be allowed for graduate courses completed in other institutions provided such courses are recommended in the student's petition for candidacy and approved as part of his program of studies.

ADMISSION TO CANDIDACY

Admission to candidacy for the degree, M.S. in Ed., is subject to the following additional conditions:

1. If the bachelor's degree was earned at another institution, the applicant must submit evidence that he has had substantial equivalents of the courses in education and practice teaching re-

quired for the degree, B.S. in Ed., in Eastern Illinois University. Usually, one who holds a regular teachers certificate valid in Illinois can meet this requirement. Deficiencies must be made up through additional undergraduate courses.

2. The student must petition for admission to candidacy. The petition must be sponsored by the student's adviser. It must contain a proposed program of courses totalling at least 48 quarter hours selected in accordance with the Plan of Studies.

3. Admission to candidacy will result from:

- a. Approval of the petition, or acceptance by the student of a modified program prescribed by the Graduate Council together with:
- b. The completion of 12 quarter hours of courses of the approved program, with grades that average 3.0, and with grades in all graduate courses taken, including those which may not have been included in the program, averaging at least 2.5.

The Graduate Council in its consideration of the petition has the authority:

To approve, or to reject, the petition.

To prescribe additional courses for students whose undergraduate records show standing in the lowest third of the class or, in the case rank cannot be determined, grades averaging below 2.5.

To demand supporting evidence of the possession of desirable personal qualities of a teacher.

Failure to secure admission to candidacy prior to beginning the final 24 quarter hours of a proposed program for the master's degree is considered equivalent to rejection of candidacy.

REQUIREMENTS FOR GRADUATION

The degree, Master of Science in Education (M.S. in Ed.) will be conferred upon:

1. The completion of the program of studies as approved by the Graduate Council, with grades that average B (3.0) and with not more than eight quarter hours of courses with grades below B.

2. Certification by the adviser not later than the middle of the last term of residence that an acceptable paper has been written and approved. For further information concerning the paper, consult the Graduate Bulletin.

3. Satisfactory performance in a comprehensive examination

intended to measure the degree to which the aims of the student's program have been achieved.

4. Passing an examination on the Declaration of Independence, the proper use and display of the flag, the Constitution of the United States, and the Constitution of Illinois.

5. Registration or revision of previous registration in the Placement Bureau.

A maximum of eight quarter hours of the minimum requirement of 48 quarter hours may be earned in extension courses.

PLAN OF STUDIES

The courses for the degree, Master of Science in Education, must total at least 48 quarter hours, chosen in accordance with a plan intended to be consistent with the statement of the purpose of graduate study at Eastern Illinois University. At least 24 quarter hours of work included in the student's program must be in courses numbered 500 or above.

It is assumed that the personal and professional competence sought by the candidate has at least three contributing factors: basic educational theory, specialized professional knowledge and experiences, and continued cultural and intellectual development independent of the field of concentration; the plan, therefore, requires that the student's courses be identified with three groups defined as follows:

GROUP I (12 quarter hours)

Basic Courses In Education

It is the purpose of the courses of this group to present aspects of fundamental educational theory. Three courses must be chosen from the following:

Education 550. Principles of Curriculum Development

Education 551. Social Foundations of Education

Education 552. Understanding the Individual

Education 553. Philosophy of Education

Education 554. History of Educational Thought.

It is recommended that no more than one of these courses be taken in any quarter or summer term.

A student may petition for a proficiency examination in any of these courses; successful completion of the examination permits the substitution of elective courses of equivalent credit in the program of studies.

GROUP II (24 or 28 quarter hours)**Area of Concentration**

The courses of this group are intended to comprise an area of specialization. They may be taken in a single department or in more than one department; the unifying principle is their significance to the teaching field or the specialized professional work of the candidate. An important consideration in admission to candidacy for the degree, Master of Science in Education, is the unity displayed in the selection of the courses of this group.

GROUP III (12 or 8 quarter hours)

The courses of this group are intended to implement the assumption that continued cultural and intellectual development independent of the field of concentration may contribute significantly to professional and personal competence. It is intended that these courses shall provide new intellectual experiences, consequently, they should be chosen in fields that are new to the student. The courses acceptable in Group III are planned specifically for the purpose stated above. It is intended that they assume intellectual maturity but little or no previous introduction to the field of study. The following courses are currently acceptable in Group III: Art 550; Botany 550, 552; Classics 550, 551 (Literature in Translation); English 550, 551; Geography 550, 551, 552; Industrial Arts 550; Mathematics 550; Music 550, 551; Philosophy 550; Physical Education 550; Social Science 550; Zoology 550, 551.

XI. DESCRIPTION OF COURSES

NUMBERING OF COURSES

Courses numbered 100-199 are freshman courses; 200-299, sophomore courses; 300-399, junior courses; 400-499, senior courses. Courses numbered 300-499 are not open to freshmen or sophomores except that courses numbered 300-499 in mathematics, foreign languages, and chemistry may be taken by sophomores who have completed the prerequisite courses and have obtained the permission of the department.

Courses numbered 100-199 may not be taken for full credit by seniors except for courses in foreign languages. Courses numbered 500-549 are graduate courses open with special permission to seniors.

MATHEMATICS

Note: 1. In planning student programs it is important to check the course prerequisites as listed with the course descriptions. The phrase "college preparatory mathematics" refers to courses in algebra, plane geometry, solid geometry, and trigonometry as taught in most of the high schools of Illinois. It also refers to such sequences as Math I, Math II, Math III, and Math IV offered by some high schools today. These courses may consist largely of a rearrangement of the traditional courses or they may be entirely new courses, such as those developed by the University of Illinois School Mathematics Project. The phrase "college preparatory mathematics" does not include the course labeled "general mathematics", or "consumer mathematics", as taught in many secondary schools.

2. Students whose background in college preparatory mathematics is weak may receive help in high school algebra and geometry by reporting to the Department Assistant on duty during float periods.

Instruction is available in strings: violin, viola, violincello; brasses: trumpet, French horn, trombone, baritone and bass horn; woodwinds: oboe, clarinet, flute, saxophone, and bassoon; percussion: voice; piano; organ. In the case of organ, the student must demonstrate facility on the piano keyboard before acceptance.

The student majoring or minoring in music must select piano, organ, voice, a band instrument, or an orchestral instrument as his chief performing medium. In the major applied field, the student must have had at least two years of study previous to college entrance and in the senior year must make a creditable public appearance as a condition of graduation. For other minimum proficiency requirements toward graduation and for applied music requirements for music minors, see music curriculum on page 96.

In order to meet the needs of the teacher of music in public schools the following outline of applied music is required. Minimum requirement for all majors is one year of piano and one year of voice. Other requirements are as follows:

Major	Voice or Piano	15 quar. hours
Minor	Piano or Voice	6 quar. hours
2d Minor	Band or Orch. Instrument	3 quar. hours
or		
Major	Band or Orch. Instrument	15 quar. hours
Minor	Piano	3 quar. hours
2d Minor	Voice	3 quar. hours

Credit in applied music is based upon performance standards and satisfactory progress as determined through individual examination conducted at the close of each quarter: One quarter hour of credit for one half-hour private lesson per week plus daily practice; two quarter hours credit for two half-hour private lessons per week plus daily practice.

Credit Organizations in Music

A music major, upon completing 12 quarter hours in the Department of Music, may register for credit in the following organizations: Band, Chorus, Orchestra, Men's Glee Club, and Cecilian Singers. When qualified, instrumental majors must participate in band, orchestra, and chorus. Vocal majors must participate in chorus, men or women's glee clubs and one of the instrumental organizations. A total of six to nine hours may thus be earned toward the requirements for a major in music. A minor in music may, after his freshman year, register for a total of four hours. Non-music majors or minors may participate in the above listed organizations on an extra-curricular basis. Elementary education majors may elect 4 quarter hours credit in any of the ensembles after the freshman year.

Credit is accumulated each quarter by adding $\frac{1}{4}$ quarter hour for each organization in which the student participates. No more than one quarter hour credit may be earned in a single quarter regardless of the number of organizations in which the student works during that quarter.

PHYSICAL EDUCATION FOR MEN

During the first two years of residence it is required that all students attend physical education classes regularly two hours each week during the fall, winter and spring quarters unless this requirement is modified by the college physician. It is the responsibility of the student, not his adviser, to see that this requirement is met, and to select his own courses for its fulfillment. Credit of one quarter hour toward the satisfying of the graduation requirement in physical education is given for each quarter's work successfully passed.

It is recommended that the student select a program of activities which will include a minimum of two courses in team games, two courses in individual activities, and one course in dance. No course may be repeated for credit without permission of the head of the Physical Education Department.

Prior to entering the University, each student is required to have a physical examination. When abnormalities and weaknesses are disclosed by the examination, corrective exercise and restricted activities are prescribed. The Health Service follows up all cases in need of medical attention.

Equipment. Each student who takes physical education is required to have a regular gymnasium suit.

This suit consists of a regulation gray jersey and blue running pants. Students with a major in physical education are required to have a regulation blue jersey and blue running pants. All students must have rubber-soled gymnasium shoes. Sweat shirt and pants are recommended as additional equipment.

Prerequisite: Zoology 120, 121.

336. GENETICS. (Omitted 1961-62). (4 q. hrs.)

A study of the basic laws of heredity and variation; the Mendelian laws of heredity applied to living organisms including man. Laboratory experiments demonstrating the mechanisms of heredity and of environmental modifications. Also the application of genetic principles in the production and use of hybrids in modern agriculture.

Prerequisite: One year of zoology or botany.

340. METHODS OF TEACHING ZOOLOGY. Winter. (4 q. hrs.)

This course includes methods of teaching zoology and biology and also the collection and preparation of materials for demonstration and laboratory use in high-school classes.

Prerequisite: Admission to teacher education.

341. PROBLEMS IN ZOOLOGY. Any quarter. (4 q. hrs.)

Resigned to meet the needs of individual students who wish to do advanced work in some field of zoology.

Prerequisite: Five quarters of zoology and the permission of the department head.

343, 344, 345. ENTOMOLOGY. 343, Fall; 344, Winter; 345, Spring.

346. EMBRYOLOGY. Winter. (4 q. hrs.)

A study of the development of vertebrate animals, including such phases as formation of germ cells, maturation, fertilization, growth and cellular differentiation, and heredity. Studies of the frog, chick and pig are included in the laboratory assignments. Lectures include a study of human embryology. Designed especially for students in pre-medical and pre-nursing curricula and majors in zoology.

Prerequisite: One year of zoology.

347. FISH BIOLOGY. (Omitted 1961-62). (4 q. hrs.)

Theoretical and experimental studies of the reactions of animals to various stimuli.

Prerequisite: Two years of zoology or permission of the department head.

448. ANIMAL ECOLOGY. Spring. (4 q. hrs.)

Deals with the interrelations between animals and their physical and biotic environments. This includes a study of biotic communities, population changes, succession, geographic distribution, and adaptations. The laboratory work is done largely in the field.

Prerequisite: Two years of zoology or permission of the department head.

449. SPECIAL PROBLEMS IN ZOOLOGY. Any quarter. (4 q. hrs.)

An advanced course for those interested in studying some special problems in the zoology field. The work is done independently with advice of the instructor.
