7. Longer Planning for Parking and Vehicular Patterns

Jeff Cooley gave an update on longer planning for parking and vehicular patterns. As included in the Campus Master Plan Executive Summary, April 19, 1999, "much of the existing parking will be moved out of the academic core of the campus." With construction on campus, a concern is always that of lost parking spaces. Jeff Cooley gave the following report on parking spaces lost and added. Since May 2000, 328 parking spaces have been lost, 576 parking spaces have been added, for a gain of 248 parking spaces. He reported that we need to spend \$700,000+ every year for the next ten years to maintain parking lots and the cost of purchasing parking lots is increasing so that leaves less money for maintenance of the lots.

8. Adjourn

Motion (Fewell/Carpenter): Adjourn the meeting. The meeting was adjourned at approximately 4:15 p.m.
