- What We Talk about When We Talk about Love by Ray. Carver

Course Objectives and Design: We will read, write about, and discuss works that foreground issues of race, age and gender so that we can more fully understand how and why we respond to these issues as we do and how (and perhaps why) various artists respond as they do. You will need to come with an open mind and a willingness to read, write, and talk about literature as reflecting and shaping human values.

Course Activities and Responsibilities: Three exams (part identification, part essay) including a final; one entry per reading week into a reading journal; and one short paper (4-6 pages). You are, of course, responsible for the reading assigned for the day that discussion begins on each author. Reading quizzes will be given if necessary. Unless you receive an extension ahead of time, written assignments must be submitted on time or the grade will be lowered one point for each day late (on a 10 point scale); in other words, you must turn your reading journal in each class period at the beginning of the period of the session or your grade on that entry will be lowered.

Basis of Semester Grade: 20% for each exam, 20% for the paper, and 20% for Reading Journal entries. If reading quizzes become necessary, those grades will become a proportion of the final grade averaged with your journal grade.

Reading Journal: Each week, you will need to bring to class an entry for a reading journal on the assigned reading (10 entries in all, one for each reading week). You must write these across the semester to have them be helpful; to this end, you cannot submit more than 4 for any one unit. You would do best to give in one each week routinely. Choose either Tuesday or Thursday readings for your journal writing. You may write your responses at two different point, either during your reading of the work or afterwards. (Try varying your approach with different readings.) You must turn in this entry on the day of the reading at the beginning of class or your grade will suffer; if you turn it in after class, you will lose points. I will grade these entries, which should be one full double-spaced typed page each, on a scale of 1-10 on the basis of completeness and insightfulness into the issues that the readings raise. You should use the journal to react to the readings, evaluating them in the light of other readings, your life, and/or the lives of people around you. These are possible approaches. What you must avoid doing in your journal is merely summarizing the plots of the stories.

Short Paper: I will give you a description of this assignment later in the semester along with some preparatory work for it. Conferences will be scheduled to discuss project plans.

Special Needs: Students with special needs who seek accommodations for these needs should contact the Director of Disability Services at 581-6583.
