For your own protection, keep back-up electronic copies of all completed work saved in the cloud.

Assignment Due Dates: Assignments are due by the end of the module they are listed under (unless otherwise noted). Late assignments may receive a score of zero and late submission may not be possible. An extension may be granted if requested prior to the deadline.

Units VI & VII are to be Completed as Spring Work Following the Fall Semester (by 4/29/22)

Note: the material assigned in these units are included for enrichment and professional development. The activities are primarily idea generation/gathering. Having this D2L site open for the entire academic year allows cohorts with a shared space to share materials and lend support to one another, as well as a way to continue receiving mentorship from their instructor. The reading and activity load in these modules and submodules is significantly reduced and work can be completed at the candidate's own pace as long as it is completed by the deadline. Although the modules are set into a purposeful sequence, candidates can complete work in any order. If tackling a higher numbered module earlier is useful because it aligns with their current course preparation that is completely fine. A suggested pacing/completion guide with weekly deadlines has been provided for those who find such helpful. **Completion of the modules and the two end of program assessments, the P-12 Assessment and Cooperating Teacher Evaluation Addendum (see Module 30), is required to be granted teacher licensure.** Reviewing the former at the start of the semester so that the candidate can remember to track the assessment data requested (and re-work their edTPA materials as needed). The latter is simply an evaluation form that will be submitted at the end of the semester. Weekly/bi-weekly video meetings are not required during the Spring Semester but candidates are welcome to schedule these as needed.
