The Subcommittee on Lab School Space met Wednesday, July 18, 1973, at 2:00 p.m., in the President's Conference Room, with Vice President Schaefer presiding.

School of Home Economics Space Utilization

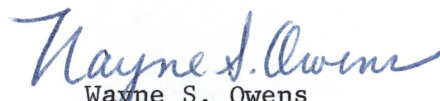

Dean Swope discussed the utilization of Room 104 in the Lab School for Home Management, Demonstration Techniques, and Food Lab classes. The Council expressed concern over the absence of after 6:00 p.m. classes. Room 110 will be used to provide area for infant rest, student preparation and food preparation for child development and infant laboratory. It may be necessary to provide Room 110 in order to meet Children and Family Services certification requirements. There was a question related to whether the laboratory experience would be continued as a requirement for primary and kindergarten majors.

School of Education Space Utilization

Dean Merigis indicated that the detailed utilization plan for the Laboratory School will be available early Fall, 1973.
