## THE NORMAL SCHOOL BOARD

---

The measure known as the Civil Administrative Code for the consolidation of the state agencies under the direction of the Governor became a law July 1, 1917, and in compliance with this law the Governor appointed—with the exception of the chairman and of the secretary, who hold these offices *ex officio*—the men whose names appear on this page. This board has control of the five state normal schools heretofore under the control of five separate boards.

# THE EASTERN ILLINOIS STATE NORMAL SCHOOL

---

## FOUNDATION AND PURPOSE

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. The five trustees provided for in the act, on September 7, 1895, selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year, there were seventeen members of the faculty and two hundred forty students were enrolled. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. The school has grown steadily, graduating eighty students in 1917.

During the summer of 1901, a special term of six weeks was established for teachers. This term, beginning with an enrollment of one hundred seventy-two students the first summer, has increased until it reached an enrollment of one thousand twenty-three in 1916.

"In order to equalize the advantages of the State Normal Schools," encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

In 1907, the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of

the school. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of school life.

As the school increased in numbers its facilities gradually became too restricted, and in 1911 the state legislature appropriated seventy-five thousand dollars for a training school building. The training school now enjoys all the advantages of a building designed and equipped for its special use, and the Normal School has opportunity for a more economical organization and an increase of its facilities.

The school has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. Public Normal Schools are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Normal School is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Normal Schools.

In early life the chief institutions in education are the home, the school, and the church. In the first years the home stands alone and its influence is in the main good. The church educates chiefly through the home and school. The school, however, is the teaching institution. Lord Avebury says: "There are three questions which in life we have over and over again to answer. Is it right or wrong? Is it true or false? Is it beautiful or ugly? Our education should help us to answer these questions."

If the school is especially concerned with one of these questions, it is with the second—"Is it true or false?" This involves the furnishing of the mind with knowledge and the exercising of the mind upon this knowledge in getting other knowledge or in reasoning. It is obvious that the process of teaching involves a child to be taught, a subject to be taught, and a teacher who teaches both the child and the subject. The statement sometimes made that it is a child who is taught and not the subject is absurd. No one is taught without being taught something. The mediator is the teacher and he knows something of a child, something of knowledge in general, and something of the particular subject taught. Hence the theory of teaching rests upon logic and psychology.

## INSTRUCTION

### INTRODUCTORY TOPICS

#### SESSIONS OF THE SCHOOL

The regular school year consists of two terms of nineteen weeks each. Monday is taken as the weekly holiday. This plan give teachers, who have no school on Saturday, opportunity of pursuing some regular work in the Normal School; and consequently promotes closer relations between the school and the teachers of the district.

The summer term of six weeks gives teachers and students an opportunity to study during a part of the summer vacation. The summer term for 1919 will begin on Monday, June 9, and close on Friday, July 18. The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Normal School.

#### ENTRANCE REQUIREMENTS

Graduates of accredited colleges are admitted to a one-year course; graduates of accredited four-year high schools, to a two-year course; graduates of accredited three-year high schools, to a three-year course; students who have completed two years of work in an accredited high-school, to a four-year course; those who have completed one year of high school work and those who have completed the first eight years of work in the common schools, to a five-year course.

High school diplomas, teachers' certificates and township scholarships must be presented to the registrar. Undergraduates of high schools and graduates of high schools with three-year or two-year courses are required to bring a complete copy of their record, signed by the principal of the school. Attention is called to the fact that *high school work repeated in the Normal School does not count toward credit for a diploma*. Work done in accredited three-year or four-year high schools is given

full credit without examination in any year of the high school course and in Class IX. and Class XII. of the certificate course. Work done in two-year high schools receives half credit, the work of two years admitting a student to Class X. of the certificate or high school course.

### SPECIAL EXAMINATIONS

Special examinations are given on the following dates: At 2 o'clock in the afternoon on the first Thursday of each half year; at the same hour on the next to the last Saturday in each half year; and on the next to the last Monday of the summer term.

September 5, 1918, Thursday.

January 4, 1919, Saturday.

January 23, 1919, Thursday.

April 25, 1919, Friday (for seniors).

May 17, 1919, Saturday.

July 7, 1919, Monday.

### GRADUATION

Senior records are checked October 1, February 18, and May 1. A statement of his credits is given each time to each student. The list of candidates for graduation in the current year is based on the checking in May. Any student who is not more than one unit behind the class at that time may participate in commencement exercises with the class and receive his diploma at the close of the summer term upon the completion of his work. Attention is called to the fact that *no credit toward graduation is given for less than one unit in Domestic Art 1, 2, Domestic Science 1, 2, Drawing 5, 6, German 1, 2, Latin 1, 2, French 1, 2, Manual Arts 1, 2, Manual Arts 3, 4, Manual Arts 5, 6, Piano, Voice, School Music.*

### COURSES OF STUDY

#### GENERAL STATEMENT

A revision of the courses of study went into effect September, 1913. An adjustment course is offered for those who have completed two years or more of the former four-year course.

The school year consists of two terms of nineteen

weeks each. A summer session of six weeks is held immediately after the close of the regular school year.

A unit means a year's work in a subject reciting not fewer than four times a week. Below the junior year, subjects require five periods a week; in the junior and senior years, four periods a week. Laboratory sciences require six periods a week.

The Training School offers nine years of work, the last three years being organized as a Junior High School. The act of the state legislature, known as the Lindley Bill, creates township scholarships in the Normal Schools of the state and requires them to admit graduates of the eighth grade who possess the highest qualifications in their respective townships. To provide work suitable to these and other graduates of the eighth grade the work of the ninth year is offered.

### SUMMARY OF COURSES

Following is a summary of the courses offered. For details consult the Outline of Courses.

I. A one-year course for college graduates. Five units, taken from the work offered for juniors and seniors, are required for graduation. This course is offered to graduates of reputable colleges who, having mastered more or less thoroughly the subject matter of their chosen work, desire a deeper insight into its intellectual bearings. The course is planned also to give an opportunity for a more intensive study of those subjects that the candidate is preparing to teach.

II. A two-year course for graduates of accredited four-year high schools. Ten units are required for graduation.

III. A three-year course for graduates of three-year high schools or holders of first grade certificates. Fourteen units are required for graduation. The first four units are taken from work offered for the first three years of the five-year course. The remaining ten units are the same as for the two-year course. High school work, or work covered by the first grade certificate, must not be duplicated in any of these fourteen units.

IV. A four-year course for those who hold a second grade certificate. Eighteen units are required for graduation. The first eight units are taken from the work offered for the first three years of the four-year course;

the remaining ten units are almost the same as for the two-year course. High school work must not be duplicated.

V. A high school course of four years followed by a two-year normal school course. Students who have completed the eighth grade are admitted to the first year of this course. Work done in accredited three-year or four-year high schools is accepted without examination for full credit on this course. Work done in a two-year high school is accepted for half credit, the work of two years admitting a student to Class X, which is the first year of the Senior High School. Twenty-six units are required for graduation.

VI. A certificate course of two years for those who wish to prepare to teach in a country school. This course is open to those who have completed one year of work in an accredited high school or two years in a two-year high school. Graduates of the eighth grade who wish to take the certificate course are admitted to the Junior High School and will complete the work of Class IX, preparatory to the certificate course. Twenty-six units are required for graduation.

Upon the completion of this two-year course the school gives the student a statement that he has completed in this school two years of work in preparation for teaching in a common school. The holder of this certificate may receive the diploma upon completing fourteen more units, as indicated under the certificate course in the outline of courses.

Undergraduates of high schools should bring a complete record of their high school work.

### ELECTIVES

There are two groups of electives: Group I is open to students below the junior year; Group II is open to juniors and seniors. The numerals after the subjects in the groups of electives in the Outline of Courses indicate the number of units or years of work offered in each subject. Students are urged to plan their electives with reference to the possibilities for the whole course rather than by years. For example, to a student in the five-year course, wishing to elect science, the school offers one year of required botany and two years of advanced elective work in the same subject; two years in zoölogy, one

of physics, one of chemistry, one of required geography, and two years of advanced elective work in the same subject, four years of elective agriculture, and one-half year of required physiology. To a student in the five-year course wishing to take work in literature and arts, the school offers three years of required English and two years of advanced elective work; four years of high school Latin and one year of advanced work, two years of French, two years of German, one year of required history, two years of elementary elective history, and two years of advanced elective work; two years of advanced work in mathematics. Two years' work in domestic science, two in domestic art, two in agriculture, and three in manual training are elective for juniors and seniors.

Students are advised to consult the head of the department in which they wish to elect the greater part of the work.

The number of elective units required in each course is as follows:

Three in the two-year course.

Five in the three-year course.

Six in the four-year course.

Eight in the five-year course.

Seven in the certificate course.

The possible electives by classes are:

#### THE NINTH YEAR

## COURSES OF INSTRUCTION

### EDUCATION

PSYCHOLOGY 1, 2. *Introduction to Psychology.* The first aim in psychology is to see that the student possesses

a body of properly classified psychological knowledge, and to give him a proper method of acquiring such knowledge. His attention is directed to the working of his own mind in such a manner as to make introspection fairly accurate. He is also directed to study the process of mental action in others as manifested in conduct. The student is introduced to the works of trained observers of the human mind that he may see through their eyes and thus correct his own somewhat crude observations. A careful application of the principles discovered and acquired is made to the problem of teaching, and it is impressed upon the student that a scientific statement of a psychological principle is a much easier thing than its ready application to the learning mind. Directed observation of the work of the Training School and discussion of the work observed are a part of this course.

Required in the junior year. Five hours a week. Credit, one unit. Psychology 1 offered in the first term, Psychology 2, in the second term; equivalent, *Psychology* 1, 2, 3, 4, and 5, offered in the summer term; Courses 1, 2, and 5 being offered summer 1917 and Courses 3, 4, and 5 in 1918.

PSYCHOLOGY 3. *Educational Psychology*. This course makes a more detailed study than is possible in Courses 1 and 2 of the special technique of learning and of the acquisition of skill. Experiments and demonstrations are carried on in the trial and error method of motor learning; in memorizing, in transfer of training, in imagery characteristics, in fatigue effects and in the rate of learning. Consideration is given to the special mental traits of children and of adolescents and to the significance of these traits for school procedure.

Prerequisite, Psychology 1, with recommendation of the instructor. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Omitted 1918-1919.

PSYCHOLOGY 4. *Educational Measurements*. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurement of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for the de-

velopment through practice of some skill in the application of tests and the employment of scales.

Prerequisite, Psychology 1, with recommendation of the instructor. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered second term; partial equivalent offered in the summer, *Psychology 5*.

EDUCATION 1. This is a course in the history of education.

Required in the senior year. Four hours a week. Credit, one-half of a unit. Offered both terms.

EDUCATION 2. This course consists of work in the history of education and considers the development of the institutions, principles and practices of elementary education in modern times. School management is also studied.

Required in the senior year. Four hours a week. Credit, one-half of a unit. Offered both terms; partial equivalent offered in the summer term, equivalent to the second half of this course, school management.

TEACHING 1, 2. A detailed description of the work in practice teaching and observation is given under the Training School.

Required in the senior year. Five hours a week. Credit, one unit. Each course offered both terms.

TEACHING 3, 4. Elective in the senior year. Five hours a week. Credit, one unit. Offered both terms, but permission required for admission to the course.

OBSERVATION C. This is a course in rural school management and methods. It includes observation of the work of the Training School, both in the regular work and in special lessons which illustrate points in pedagogy.

Required in the certificate course, second year. Five hours a week. Credit, one-half of a unit. Offered in the first term; partial equivalent offered in the summer term, *Methods 1*.

SPECIAL METHODS 1, 2. *Special Methods* consist of six courses of six weeks each, *grammar, arithmetic, and reading* being given in one term and *history, geography, and nature study* in the other term. High school graduates who are irregular and need six weeks' work in any of these subjects in order to complete required work in the two-year course may take such a part of this course as they may need.

Required in the junior year of the certificate course, elective in the junior year of the adjustment course. four hours a week. Credit, one unit; credit for each subject, one-sixth of a unit. Omitted 1918-1919; partial equivalent, offered in the summer term, *English 11* (by permission), *Arithmetic 3* or *4*, *Reading 4*, *History 9*.

## ENGLISH

ENGLISH 1, 2. *Elements of English*. This is a course in the elements of composition, with grammar review. It includes instruction in the use of the library and the required reading of several good books. The course emphasizes practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech.

Prerequisite, English 1 to English 2. Required in the ninth year. Five hours. Credit, one unit. Each course offered both terms; equivalent offered in the summer term, *English 1, 2, and 3* with *13* or *14*.

ENGLISH 3, 4. *Rhetoric*. This course in English composition is more advanced than 1 and 2. While the emphasis is still placed on the qualities of effective expression, the principal forms of prose discourse furnish the basis for class work. Much attention is given oral composition, which usually precedes written work. Incidentally the course furnishes an introduction to the study of literature, since the English classics used in class are selected with that end in view.

Students in the four-year course, unable to take English 3, 4, will be conditioned in English 1, 2 and required to take it. High school students excused from taking English 3, 4 will substitute a unit of work in the tenth and eleventh years which does not duplicate their high school work.

Prerequisite, English 2 to English 3; English 3 to English 4. Required in the tenth year. Five hours a week. Credit, one unit. Each course offered both terms; partial equivalent offered in the summer term, *Composition 15*.

ENGLISH 5, 6. *English Literature from Shakespeare to Scott*. Although in this course the student will be expected to get a fair idea of the history of this period of literature, the class work will be devoted mainly to the literature itself. In making the necessary selections for

study, the instructor will be guided by the capacity of the class and the usual demands of an introductory course in literature.

Required in the eleventh year and in the junior year of the adjustment course. Students who have had C Shakespeare, substitute one-half unit A, B elective for English 5. Five hours a week. Credit, one unit. Each course offered both terms; partial equivalent for English 5, offered in the summer term, 1919, *Shakespeare* 4.

ENGLISH 7, 8. *Nineteenth Century Prose*, English and American. This course introduces the student to some of the best modern essayists, novelists and dramatists. The aim is primarily to arouse his interest in these forms of literature, and secondarily to furnish him with standards of judgment.

Elective in the junior and senior years. Four hours a week. Credit, one unit. English 7, offered in the first term, English 8, in the second term; partial equivalent, offered in the summer term, 1919, *Prose Fiction* 7.

ENGLISH 9, 10. *Nineteenth Century Poetry*, English and American. This course attempts to cultivate some appreciation of poetry, its qualities and forms, and some insight into the development of English poetry. The class will study in some detail English and American poetry of the nineteenth century.

Prerequisite, English 9 to English 10 (except by special arrangement). Elective in the junior and senior years. Four hours a week. Credit one unit. English 9, offered in the first term, English 10 in the second term.

ENGLISH 11. *English in the Grammar Grades*. The course gives a review of the fundamental facts of grammar, emphasizing the application of grammar to composition; and makes some study of the composition work in these grades.

Prerequisite, creditable proficiency in English; students notably deficient in English being required to make up this deficiency. Required in the junior year of all who have not had either English 1, 2 or English 12. Four hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *English 1* with *English 11*, or *English 2* with *English 10* or *English 10* and *11* with *16*.

ENGLISH 12. *English in the Primary and Intermediate Grades*. This course is an introduction to the field of

children's literature, giving some attention to story-telling and dramatization. It also makes some study of language work in these grades.

Prerequisite, creditable proficiency in English; students notably deficient in English being required to make up this deficiency. Required in the junior year of all who have not had either English 1, 2 or English 11. Four hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *English 12, 13, and 14*.

ENGLISH 13. *Grammar Methods*. This is a short course in the methods of teaching grammar. It includes study and criticism of definitions, comparison of various modes of analysis, and the preparation of lesson plans.

Required in the junior year of the certificate course. Four hours a week. Credit, one-sixth of a unit. Omitted 1918-1919; equivalent offered in the summer term, *English 11* (by special arrangement).

ENGLISH 14. *Advanced Rhetoric*. This is an advanced course in composition and rhetoric, open to qualified high school graduates and to those who have passed English 3, 4. A high school graduate carrying this course will be recommended for college credit.

Prerequisite, graduation from a four-year high school or the completion of English 3, 4. Elective in the junior and senior years. Four hours. Credit one-half of a unit.

ENGLISH 15. *American Literature*. This course is intended to give a general survey of the literature of the United States from colonial times down to the present. While some attention will be given to the history of literature in this country, the greatest emphasis will be placed upon a knowledge of the literature itself as an expression of American life and thought. The literature taught in the elementary schools will be considered in selecting the subject matter of the course. The course will require a considerable amount of collateral reading.

Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit.

## READING

READING 1, 2. The purpose of this course is to improve the student's oral reading and to give him some help in teaching the subject. Emphasis is laid upon enunciation, pronunciation, naturalness, directness, and

imagery. There is daily practice in oral reading. In Reading 2 some attention is given to methods of teaching, together with observation in the Training School.

Required in the first year of the certificate course. Three hours a week. Credit, one-third of a unit. Each course offered both terms; equivalent offered in the summer term, *Reading 1, 2, and 3 with 4 or 5.*

READING 3, 4. This course is somewhat more advanced than Reading 1, 2. The aim is to train the student to express his own thoughts in a natural and effective way as well as to interpret orally some of the masterpieces of literature. Attention is paid to the development of the speaking voice, enunciation, pronunciation, and poise. The elements of vocal expression,—time, pitch, force, and quality,—are studied and applied, thus giving a standard for intelligent criticism.

Required in the junior year, except in the certificate and adjustment courses. Three hours a week. Credit, one-half of a unit. Reading 3, offered in the first term, Reading 4, in the second term; equivalent offered in summer, *Reading 1, 2, and 3 with 4 or 5 or 6.*

READING 5, 6. The purpose of the course is to give training and practice in speaking in public in a clear, direct, earnest, natural manner, known as conversational. Breathing, voice, pronunciation, articulation and enunciation, bearing and gesture are considered. The student has practice in speaking before the class, with definite criticism by the teacher. The students begin with selections from speeches of simple, unimpassioned character and proceed to selections which possess more feeling. When sufficient progress is made the students are expected to write three or five-minute speeches on subjects easily within their knowledge and to deliver these first from memory, then from an outline but without committing the speech to memory, and finally with nothing but a careful thought preparation of the subject. The work of the first term includes the delivery of declamations, with considerable attention to the development of the breathing, voice, pronunciation, articulation and enunciation, gesture and bearing. The second term gives attention to the preparation and delivery of speeches written by the students.

Prerequisite, Reading 1, 2 or Reading 3, 4. Reading 5 is prerequisite to Reading 6. Elective in the junior and

senior years. Four hours a week. Credit, one unit.  
Omitted, 1918-1919.

## HISTORY

HISTORY 1. *The History of Greece to the Roman Conquest.*

Required in the ninth year. Five hours a week. Credit, one-half of a unit. Offered both terms.

HISTORY 2. *The History of Rome and of Mediaeval Europe to 814 A. D.*

Required in the ninth year. Five hours a week. Credit, one-half of a unit. Offered both terms.

HISTORY 3. *The History of England to 1603.*

Elective in the tenth and eleventh years. Five hours a week. Credit, one-half of a unit. Group I of electives. Offered first term.

HISTORY 4. *The History of England from 1603 to the Present.*

Elective in the tenth and eleventh years. Five hours a week. Credit, one-half of a unit. Group I of electives. Offered second term.

HISTORY 5. *American History and Government to 1829.*

Required in the second year of the certificate course and elective in the tenth and eleventh years in other courses. Five hours a week. Credit, one-half of a unit. Group I of electives. Offered first term; equivalent offered in the summer term, *History 1* with *History 3* or 4.

HISTORY 6. *American History and Government from 1829 to the Present.*

Required in the second year of the certificate course and elective in the tenth and eleventh year in other courses. Five hours a week. Credit, one-half of a unit. Group I of electives. Offered second term; equivalent offered in the summer term, *History 2* with *History 3* or 4.

HISTORY 8. *Civil Government.*

Elective in the tenth and eleventh years. Five hours a week. Credit, one-half of a unit. Group I of electives. Offered second term; partial equivalent offered in the summer term, *Government 3*.

HISTORY 7. Students will substitute for this course

any one of the five following courses: 9, 10, 11, 12, or 17.

Required in the junior year. Four hours a week. Credit, one-half of a unit. Omitted 1918-1919; equivalent offered in the summer term, 1919, *History 7* with 8 or 9.

HISTORY 9. *The History of Western Europe, from the Fourth Century to 1715.*

Elective in the junior and senior years and accepted for required History 7. Four hours a week. Credit, one-half of a unit. Offered first term.

HISTORY 10. *The History of Western Europe, from 1715 to the Present.*

Elective in the junior and senior years and accepted for required History 7. Four hours a week. Credit, one-half of a unit. Offered second term; partial equivalent offered in the summer term, *History 8*.

HISTORY 11. *The History of the United States, from 1750 to 1829.*

Elective in the junior and senior years and accepted for required History 7. Four hours a week. Credit, one-half of a unit. Offered first term; partial equivalent offered in summer 1918, *History 6*.

HISTORY 12. *The History of the United States, from 1829 to 1879.*

Elective in the junior and senior years and accepted for required History 7. Four hours a week. Credit, one-half of a unit. Offered second term; partial equivalent offered in the summer term, 1919, *History 7*.

HISTORY 17. *The Teaching of History.* A course for those who are preparing to teach history in the elementary or secondary school.

Elective in the junior and senior years and accepted by permission for required History 7. Four hours a week. Credit, one-half of a unit. Offered in the second term; partial equivalent offered in the summer term, *History 9*.

The instruction in history aims to lay the foundation for a serious study of the subject. This implies (1) habits of accuracy in dealing with historical facts; (2) acquaintance with representative historical literature; (3) some familiarity with the method and spirit of historical research; (4) some insight into the nature of historical truth. Entertainment, ideals of life and conduct, inspiration, are to be sought but not too exclusively.

An attempt is made to develop a conception of history from the works of modern historians, and to show the relation of such a conception to history in the curriculum of the common school. This does not mean that purely educational considerations are to be ignored, or that the teacher's point of view is to be lost. But it is believed that materials for school history can be selected with due regard to a conviction that history has rights as well as pedagogy.

Current methods of teaching history in the grades and up through the secondary school are studied and illustrated, together with the special literature on the subject.

A critical examination of historical textbooks is attempted and the characteristics of a good text noted. The various special aids and appliances useful to historical workers are exhibited.

## ECONOMICS

ECONOMICS 1. *The Economic History of the United States.* The natural resources, their extent, geographical distribution and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered first term.

ECONOMICS 2. *The Principles of Economics.*

Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered second term.

## LATIN

LATIN 1, 2. *First Year Latin.* The course is a careful study of inflection, syntax, and translation.

Latin 1 is prerequisite to Latin 2; no credit for Latin 1 without Latin 2. Elective in any year of any course. Five hours. Credit, one unit. Latin 1, offered in the first term; Latin 2, in the second term.

LATIN 3, 4. *Second Year Latin.* The course covers four books of Cæsar with selections from the other books. Latin grammar and composition as well as some study of Roman antiquities are included.

Prerequisite, Latin 1, 2. Elective in any year of any

course. Five hours. Credit, one unit. Latin 3, offered in the first term, Latin 4, in the second term.

LATIN 5, 6. *Third Year Latin*. Six orations of Cicero with selections from his letters. Latin grammar and composition. The Latin element in English, figures of speech, the reckoning of time, the memorizing of selected passages, sight translation are a part of the course.

Prerequisite, Latin 3, 4. Electives in the eleventh, junior, and senior years. Five hours. Credit, one unit. Omitted, 1918-1919. Latin 5, offered in the first term, Latin 6, in the second term.

LATIN 7, 8. *Fourth Year Latin*. Six books of Virgil's Aeneid, Greek and Roman mythology, poetical constructions, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite, Latin 3, 4. Elective in the eleventh, junior, and senior years. Five hours. Credit, one unit.

LATIN 9. *Livy, Books I and XXI*. Selections. Omitted, 1918-1919.

LATIN 10. *Horace, Odes*. Omitted, 1918-1919.

LATIN 11. *Cicero, De Senectute and De Amicitia*. Omitted, 1918-1919.

LATIN 12. *Horace, Satires and Epistles*. Omitted, 1918-1919.

## FRENCH

FRENCH 1, 2. *First Year French*.

French 1 is prerequisite to French 2; no credit for French 1 without French 2. Elective in any year of any course. Five hours a week. Credit, one unit. French 1, offered first term, French 2, second term.

FRENCH 3, 4. *Second Year French*.

Prerequisite, French 1, 2. Elective in any year of any course. Five hours a week. Credit, one unit. Omitted, 1918-1919.

## GERMAN

GERMAN 1, 2. *First Year German*. The work of this year includes drill in the pronunciation of German sounds, a study of the grammar, with written and oral exercises, and the reading of easy stories. Bagster-Collins' First Book in German and Bacon's Im Vaterland are the basis for the work in this year.

German 1 is prerequisite to German 2; no credit for German 1 without German 2. Elective in any year of any course. Five hours a week in the ninth, tenth, and eleventh years; four hours a week in the junior and senior years. Credit, one unit. German 1, offered first term, German 2, second term; partial equivalent offered in the summer term, *German 1* and *German 7*, equivalent to part of German 1.

GERMAN 3, 4. *Second Year German*. The work in grammar is continued and the class reads *Im Vaterland*, *Höher als die Kirche*, *Immensee*, *Germelshausen*, and other stories of the same rank. Free reproduction of the material read, memorizing of German poems, and practice in sight reading are required.

Prerequisite, German 1, 2. Elective in the tenth, eleventh, junior, and senior years. Five hours a week in the tenth and eleventh years; four hours a week in the junior and senior years. Credit, one unit. German 3, offered first term, German 4, second term.

GERMAN 5, 6. *Third Year German*. The work of this year includes practice in composition and the reading and study of masterpieces as *Wilhelm Tell*, *Maria Stuart*, *Minna von Barnhelm*, etc. The study of each drama includes a study of the author, the structure and composition of the drama, and its place in German literature.

Prerequisite, German 3, 4, and German 5, prerequisite to German 6. Elective in the eleventh, junior, and senior years. Four hours a week. Credit, one unit. Omitted, 1918-1919,

## MATHEMATICS

ARITHMETIC 1. The work of this course includes notation, numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, the English and metric systems of measure, involution and evolution, and methods of teaching these topics.

Required in the first year of the certificate course. Five hours a week. Credit, one-half of a unit. Offered both terms; partial equivalent offered in the summer term, *Arithmetic 1*.

ARITHMETIC 2. The principal topics are ratio and proportion and their application to simple problems of geometry, mensuration, simple geometric constructions, per-

centage and its application, literal arithmetic, and methods of teaching these topics.

Prerequisite, Arithmetic 1. Required in the first year of the certificate course. Five hours a week. Credit, one-half of a unit. Offered both terms; partial equivalent offered in the summer term, *Arithmetic 2*.

ARITHMETIC 3. The subject-matter of this course is essentially that of Arithmetic 1 and 2, but the work is more advanced and assumes a knowledge of elementary algebra and geometry.

Required in the junior year except in the certificate and adjustment courses. Four hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Arithmetic 1* with 4, or 2 with 3.

ARITHMETIC 4, *Methods*. An effort is made to have the students become familiar with the best literature of the subject and with recent tendencies in the teaching of mathematics, and to have them discover the rational basis for the organization of a course of study for arithmetic in the grades.

Prerequisite, Arithmetic 1, 2. Required in the junior year of the certificate course and accepted in the junior year of the adjustment course. Four hours a week for six weeks. Credit, one-sixth of a unit. Omitted 1918-1919.

ARITHMETIC 5, *Methods*. This is a preparatory course for those who wish to fit themselves especially for the teaching of arithmetic, and includes a study of both subject-matter and methods.

Prerequisite, Arithmetic 3. Elective in the junior and senior years except in the certificate course. Four hours a week. Credit, one-half of a unit. Omitted, 1918-1919.

ALGEBRA 1. The course covers algebraic notation, the fundamental operations, factoring, graphs, and simple equations in one unknown. Both in this course and in Algebra 2 applications are made to simple problems in physics, mechanics, and geometry.

Required in the ninth, tenth, or eleventh year. Five hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Algebra 1* and the first half of *Algebra 2*.

ALGEBRA 2. The topics studied are highest common factor, lowest common multiple, fractions, graphs, in-

volution and evolution, simultaneous equations of the first degree, exponents, radicals, complex numbers, and quadratic equations.

Prerequisite, Algebra 1. Required in the ninth, tenth, or eleventh year. Five hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, the second half of *Algebra 2* with *Algebra 3*.

Students in the tenth and eleventh years, who have completed algebra before entering this school, will substitute an elective unit from Group I in order to avoid duplication.

ALGEBRA 3. The course begins with a review of Algebra 1 and 2. This is followed by a study of graphs, functions, determinants of the second and third orders and their application to the solution of simultaneous linear equations; ratio and proportion, the extension of the number concept, quadratic equations, simultaneous equations of the second degree in two unknowns, exponents, radicals and roots, logarithms, progressions and the binomial theorem.

Prerequisite, Algebra 1, 2. Elective in the eleventh, junior, and senior years. Four hours a week. Credit, one-half of a unit. Offered second term.

PLANE GEOMETRY 1. *Books I and II*. In all the courses in geometry, special attention is paid to the solution of original exercises.

Prerequisite, Algebra 1, 2. Required in the tenth or eleventh year or in the junior year. Five hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Geometry 1* with the first half of *Geometry 2*.

PLANE GEOMETRY 2. *Books III, IV, and V*.

Prerequisite, Geometry 1. Required in the tenth or eleventh year or in the junior year. Five hours a week. Credit, one-half of a unit. Offered both terms; equivalent, offered in the summer term, the second half of *Geometry 2* with *Geometry 3*.

Students in the tenth and eleventh years who have completed geometry before entering this school will substitute for it an elective unit from Group I in order to avoid duplication.

SOLID GEOMETRY. *Books VI, VII, VIII*.

Prerequisite, Geometry 1, 2. Elective in the eleventh

year and in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered first term; equivalent offered in the summer term, *Solid Geometry 1* with *Solid Geometry 2*.

PLANE TRIGONOMETRY. This course includes the definitions and properties of the trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Prerequisite, Geometry 2. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered first term.

PLANE ANALYTIC GEOMETRY. This is an elementary course in plane analytic geometry, and deals in particular with the properties of the conic sections, including a discussion of the general equation of the second degree.

Prerequisite, plane trigonometry. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered second term.

## GEOGRAPHY

GEOGRAPHY 1. *Physiography*. A study is made of land forms and their development, of atmosphere and climate, and of the influence of these upon the distribution of peoples, their modes of living, industries, and institutions. Most of the applications are made to the United States. The aim of the course is to give, along with the elements of geography, training in clear thinking. Some time is given to methods of presentation of the subject. Text: Salisbury, Barrows, and Tower, *Modern Geography*.

Required in the tenth year. Five hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Geography 1* with 2.

GEOGRAPHY 2. *Geography of South America and of North America*.

Prerequisite, Geography 1 or 3, or the equivalent. Required in the tenth year, elective for 2A and 2B. Five hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Geography 3* with 5.

GEOGRAPHY 3. *The Basis of Geography*. In this course the principles of physical geography are studied and through typical examples are shown to be an im-

portant element in determining the mode of living, industries, and distribution of peoples. Text: Salisbury, Barrows, and Tower, *Elements of Geography*.

Required 2B. Four hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Geography 1* with 2.

GEOGRAPHY 4. *Geography of Europe*.

Prerequisite, *Geography 1* or 3. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered first term; partial equivalent offered in the summer, *Geography 4*.

GEOGRAPHY 5. *Commercial Geography*. Prerequisite, *Geography 1* or 3. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered second term.

GEOGRAPHY 6. *Special Methods in Geography*.

This is a six weeks' course in methods in geography.

Prerequisite, *Geography 1, 2*. Required in the junior year of those who are completing the certificate course. Four hours a week. Credit, one-sixth of a unit. Omitted 1918-1919.

GEOGRAPHY 7. *Geology*.

Prerequisite, *Geography 1* or 3. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Omitted 1918-1919.

GEOGRAPHY 8. *Meteorology*. The study of the atmosphere has become a more practical subject since navigation of the air has become prominent. With the very probable increased use of the aeroplane in the near future a good knowledge of the atmosphere will be a valuable asset to teachers. Text: Milham, *Meteorology*.

Prerequisite, *Geography 1* or 3 or equivalent. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Offered second term.

The object of the work in geography is to give the pupils a knowledge of the earth's surface as the home of man, to show how physical conditions of the earth's surface have influenced life conditions, such as the distribution of peoples and industries, and to show how man has been able to become master of natural conditions, such as aridity of climate.

An attempt is made to have the pupil learn to picture for himself as clearly as possible those parts of the world that he has not seen, and for this the department is well

equipped with maps, globes, relief models, pictures, and lantern slides, as well as books and pamphlets. There is a good collection of industrial materials for illustrating the commercial side of geography.

## PHYSICAL SCIENCES

PHYSICS 1, 2. The course deals with measurements, mechanics, heat, sound, light, and electricity.

Prerequisite, Algebra 1, 2, and Geometry 1, 2. Elective in the eleventh, junior, and senior years. Seven hours a week, four being used for work in the laboratory, and three for recitation. Credit, one unit. Physics 1 offered in the first term and Physics 2 in the second term; equivalent offered in the summer term, *Physics 1, 2, 3, 4, and 5*.

CHEMISTRY 1, 2. *General Inorganic Chemistry*. The greater part of the time is given to the study of non-metals because of their value in the development of chemical theory. About two months are given to the study of the metals and some attention is paid to the solubilities of salts. Students completing the year's work are expected to have some skill in manipulation and to be ready for the intelligent study of qualitative analysis and other branches of applied chemistry.

Elective in junior and senior years. Five periods of sixty minutes each a week. Credit, one unit. Chemistry 1, offered in the first term, Chemistry 2, in the second term; partial equivalent to Chemistry 1, offered in the summer, *Chemistry 1*.

## GENERAL SCIENCE

GENERAL SCIENCE 1. The course includes the study of the physics and chemistry of air and water, humidity, weather, the seasons, water supply and sewage disposal, the manufacture of food by plants, the use of food by plants and animals, the action of bacteria in producing disease. Simple machines are studied.

Elective in the ninth, tenth, and eleventh years. Five hours a week. Credit, one-half of a unit. Offered first term; partial equivalent offered in the summer term, *General Science 3*.

GENERAL SCIENCE 2. The course covers the following general topics: the nature of sound, light, heat, static

electricity and direct currents; the chemistry of carbon, hydrogen, oxygen, nitrogen and some of their compounds; some principles of hygiene and sanitation.

Elective in the ninth, tenth, and eleventh years. Five hours a week. Credit, one-half of a unit. Offered second term; partial equivalent offered in the summer term, *General Science* 3.

### BIOLOGICAL SCIENCES

**BOTANY 1.** This course presents an introduction to plant life. It deals mostly with the structures and physiological processes of the higher plants. In so far as is consistent with the scientific development of the subject, materials of economic interest are used.

Required in the first year of the certificate course and in the tenth year in other courses; elective A and B. Five sixty-minute periods a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Botany* 1 and 2.

**BOTANY 2.** This course takes up the classification of plants on an evolutionary basis. The life histories and the economic importance of the several major groups of plants are considered. Several weeks are devoted to the fungi and bacteria in relation to agriculture, hygiene, and sanitation. Elective in the two-year course, required in all others.

Prerequisite, Botany 1. Required in the tenth year except in the certificate course; elective in the junior and senior years. Five sixty-minute periods a week. Credit, one-half of a unit. Offered in the second term; equivalent offered in the summer term, *Botany* 3 and 4.

**BOTANY 3. *Plant Ecology.*** The study of plants and plant organs in relation to the factors of the environment. Lectures, laboratory work, and assigned readings. Prerequisites, Botany 1 and 2. Elective in the eleventh, junior, and senior years. Credit, one-half of a unit. Omitted, 1918-1919. Offered first term.

**BOTANY 4. *Plant Ecology.*** A study of the associations of plants in nature. Most of the time is spent in a study of the plant associations of the vicinity. Some attention is given to the methods of identification of plants.

Prerequisites, Botany 1, 2, 3. Elective in the eleventh, junior, and senior years. Credit, one-half of a unit. Omitted, 1918-1919. Offered second term.

BOTANY 5. *The General Principles of Evolution.*

Omitted 1918-1919.

BOTANY 6. *The Green Algae.*

Omitted 1918-1919.

BOTANY 7. *The Local Flora.*

Omitted 1918-1919.

BOTANY 8. *Field Botany.*

Omitted 1918-1919.

BOTANY 9. *Plant Geography.*

Offered 1918-1919.

BOTANY 10. *Plant Geography.*

Offered 1918-1919.

ZOOLOGY 1. *Elementary Zoölogy.* The special objects of this course are as follows: (1) to give knowledge of the animal kingdom as a whole, (2) to familiarize pupils with the life processes of the animal body as carried on in each of its more important types, beginning with the simplest and proceeding to the most complex of these, (3) to present to students the most important facts concerning animal behavior and (4) to show the relations of animals to their surroundings, particular attention being given to their economic and other important relationships to man.

From the comprehensiveness of this course and its emphasis on animal physiology, it should give a foundation for teaching any phase of biology or agriculture and should be an aid to those who take up the study of medicine.

Prerequisite, Botany 1 or one-half year of biology in which laboratory work was emphasized. Elective in the eleventh, junior, and senior years. Five sixty-minute periods a week. Credit, one-half of a unit. Offered first term; equivalent offered in the summer term, *Zoölogy 1* with *Zoölogy 1a*.

ZOOLOGY 2. *Elementary Zoölogy.* The objects of this course are similar to those of Course 1, but the animal kingdom as a whole is not considered, but instead only the common, more familiar, and more important forms of animals are treated. Life histories and economic importance are made especially important, and little attention is given to anatomy and physiological processes. The fauna of the Charleston region, which is typical of that of most regions of the United States east of the Rocky Mountainins, is studied, and pupils are required to obtain

a field acquaintance with common birds, mammals, insects, and other forms in the local fauna.

This course is especially useful for those who take up agricultural work or teach nature study in the grades.

Prerequisite, Botany 1 or one-half year of biology in which laboratory work was emphasized. Elective in the eleventh, junior, and senior years. Five sixty-minute periods a week. Credit, one-half of a unit. Offered second term, equivalent offered in the summer term, *Zoölogy 2* with *Zoölogy 2a*.

ZOÖLOGY 3, 4. *Advanced Zoölogy and Special Methods*. Special needs and interests of students are considered in selecting special groups of animals or animal habitats for detailed study in this course. Considerable work in classification is done. Methods of using zoölogical literature, of collecting and preserving specimens of animals, and means of recording observations by notes, photographs, and other ways, are taught.

Prerequisite, Zoölogy 1, 2, the work of these courses having been done with considerable proficiency. Elective in the junior and senior years. Five sixty-minute periods a week. Credit, one unit.

HUMAN PHYSIOLOGY AND HYGIENE. Ways of improving the efficiency of the human body as a working machine are given particular attention in the study of the structure, functions, and hygiene of the body. Some knowledge of general biology is also obtained by comparisons of the life-processes of man with those of other living organisms. The recitation method is used, but there is some laboratory work.

Required in the first year, certificate course, second term, and in the senior year, first term, in all other courses. Five hours a week. Credit, one-half of a unit. Offered both terms; equivalent offered in the summer term, *Physiology 3* with *Hygiene 4* or 3.

By means of these courses in biology students are given insight into structures, processes, and ecology of plants and animals. Biological study gives opportunity for accurate, complete observation and for its correct interpretation. In addition to these methods of thought, the facts are in themselves interesting and important; and knowledge of them aids the student in properly relating himself to the world of life about him. This study should establish a scientific basis for the understanding of agri-

culture, sanitation, hygiene, and other subjects so important for our proper living.

## AGRICULTURE

AGRICULTURE 1. (a) *Milk and Its Products.* (b) *Poultry.* The first half of this course is a study of milk and its products; testing for fat; acidity; adulteration; bacteria; scoring milk, butter, and cheese; care of milk. The second half of the course is a study of breeds of poultry; care of poultry; feeding for fattening and for egg production; importance of poultry raising; caponizing.

Elective in the tenth and eleventh years. Five hours a week. Credit, one-half of a unit. Omitted, 1918-1919. Offered first term; partial equivalent offered in the summer term, *Agriculture 4* (1918) and 8 (1919).

AGRICULTURE 2. *Elementary Soil and Plant Studies.* This course includes the study of plant growth and its relation to the soil; elements required for growth; limiting factors; fertilizers.

Elective in the tenth and eleventh years. Five hours a week. Credit, one-half of a unit. Omitted, 1918-1919. Offered second term; partial equivalent offered in the summer term, 1919, *Agriculture 6*.

AGRICULTURE 3. *Elementary Stock Judging.* A study of the make-up of the economic animals, conformation and its relation to production, types and breeds.

Elective in the tenth and eleventh years. Five hours a week. Credit, one-half of a unit. Partial equivalent offered in the summer term, *Agriculture 3*, (1918).

AGRICULTURE 4. *Orcharding and Gardening.* A study of the principles of fruit growing and vegetable gardening; spraying and pruning, insect enemies and diseases of fruit trees and of vegetables, their habits and control; the spray calendar.

Elective in the tenth and eleventh years. Five hours a week. Credit, one-half of a unit. Partial equivalent offered in the summer term 1918, *Agriculture 2*.

AGRICULTURE 5. *Farm Crops.* A study of economic cereal and forage crops. Seed identification; crop requirements; insect enemies of crops with special attention given to control. Diseases of crops. Special attention is given in this course to alfalfa culture.

Elective in the junior and senior years. Five hours a week. Credit, one-half of a unit. Omitted, 1918-1919.

Offered first term; partial equivalent offered in the summer term, *Agriculture 1*, (1918), and 5 (1919).

AGRICULTURE 6. *Animal Feeding*. A study of the principles involved in feeding animals, digestion, absorption and assimilation; balancing rations, the nutritive ratio, compounding rations; best methods of feeding for profit in producing milk, pork, eggs, wool, and work.

Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit. Omitted, 1918-1919. Offered second term; partial equivalent offered in the summer term, *Agriculture 7* (1919).

AGRICULTURE 7. *Soil Physics*. A study of formation and classification of soils, soil water, temperature, tilth, soil organisms, tillage; these factors are studied in their relation to plant growth.

Elective in the junior and senior years. Five sixty-minute periods a week. Credit, one-half of a unit, only when followed by *Agriculture 8*.

AGRICULTURE 8. *Elementary Soil Fertility*. A study of the principles of soil improvement; study of experimental data established by Illinois stations; influence of various kinds of fertilizers; commercial fertilizers; limiting factors; crop rotations and farming systems.

Prerequisite, *Agriculture 7*. Elective in the junior and senior years. Five hours a week. Credit, one-half of a unit.

AGRICULTURE 9. *Extension and Education*. This course is designed to give the student a working knowledge of the elementary principles involved in agricultural development. Topics are studied in accordance with an outline for teaching agriculture in the rural schools. The course considers the place of the teacher in the community; practical leadership and methods of promoting the best practices in agriculture.

Required in the second year of the certificate course and elective in the ninth, tenth, and eleventh years. Five hours a week. Credit, one-half of a unit. Offered both terms; regular for the second term.

## HOME ECONOMICS

DOMESTIC SCIENCE 1, 2. This course includes selection and preparation of staple foods, a study of food principles and theory of nutrition. Lectures, recitation, and laboratory practice.

Prerequisite, Domestic Science 1 to Domestic Science 2. Elective in the eleventh, junior, and senior years. Five hours a week. Credit, one unit, no credit for Domestic Science 1 without Domestic Science 2. Domestic Science 1 offered first term, Domestic Science 2, second term; partial equivalent offered in the summer term. *Domestic Science 1.*

DOMESTIC SCIENCE 3, 4. This course includes a further study of foods, advanced cookery of an experimental nature, the planning of meals and table service; the planning of courses of study. The course includes also a series of lessons in dietetics, laundering, and household management.

Prerequisite, Domestic Science 1, 2. Elective in the junior and senior years. Five hours a week. Credit, one unit. Domestic Science 3 offered first term. Domestic Science 4 offered second term.

DOMESTIC ART 1, 2. Hand and machine sewing; study of stitches used and their application to garments; care and use of machines; drafting patterns; and making of undergarments, shirt-waists, and dresses. Throughout this course a study is made of textiles and weaves with reference to manufacture, use, and durability.

Prerequisite, Domestic Art 1 to Domestic Art 2. Elective in the eleventh, junior, and senior years. Five hours a week. Credit, one unit, no credit for Domestic Art 1 without Domestic Art 2. Domestic Art 1 offered in the first term, Domestic Art 2, in the second term; partial equivalent offered in the summer term, *Domestic Art 1.*

DOMESTIC ART 3, 4. *Dressmaking, Millinery, and Costume Design.* Dressmaking includes planning and making of dresses of wash, woolen, and silk materials; the making of fitted linings, and the use of these on dress forms for fitting and draping dresses. Millinery includes the making, covering, and trimming of buckram frames; the making and covering of wire frames; blocking of hats of buckram; and making of flowers and other trimmings. The course in costume design is taken up from a constructive standpoint. It includes a study of the relation and influence of materials upon the design of the costume; a study of harmonious color and line combinations in relation to gowns and to the individual. Students provide their own material subject to the approval of the instructor.

Prerequisite, Domestic Art 1, 2; Domestic Art 3, prerequisite to Domestic Art 4. Elective in the A and B years. Five hours a week. Credit, one unit. Domestic Art 3 offered first term, Domestic Art 4, second term.

## MANUAL ARTS

MANUAL ARTS 1. *Elementary Woodwork.* The course is designed for beginners in woodwork, and includes instruction in the sharpening, care, and use of woodworking tools. The construction of the tools is studied. Lectures and demonstration are supplemented by textbook work.

Prerequisite, Manual Arts 3, 4 unless a student is taking Manual Arts 3. Elective in any year of any course except the ninth year. Five sixty-minute periods a week. Credit, one-half of a unit, only when followed by Manual Arts 2, thus giving one unit of credit for the two courses. Offered first term; partial equivalent offered in the summer term, *Manual Arts 3*.

MANUAL ARTS 2. *Joinery and Advanced Woodwork.* This course involves a consideration of the various typical joints used in pieces of furniture and their application, problems requiring student initiative and adaptation being assigned. The course is arranged to advance the students in a logical, systematic, and progressive manner, and in the shortest time. A collection and study is made of the common varieties of wood.

Prerequisite, Manual Arts 3, 4, and 1, but a student may take Manual Arts 4 and Manual Arts 2 in the same term. Elective in any year of any course except the ninth year. Five sixty-minute periods a week. Credit, one-half of a unit, only when preceded by Manual Arts 1, thus giving one unit of credit for the two courses. Offered second term.

MANUAL ARTS 3. *Elementary Mechanical Drawing.* A thorough and practical course in the fundamentals of mechanical drawing. The course is designed to develop good technique, speed, and accuracy through a set of working drawings. Special emphasis is placed on lettering. The course includes simple perspective, orthographic projection, geometrical construction, sectional views, and some of the common conventions used in commercial practice.

Elective in any year of any course. Five sixty-minute periods a week. Credit, one-half of a unit, only when followed by Manual Arts 4, thus giving one unit of credit for the two courses. Offered first term: partial equivalent offered in the summer term, *Mechanical Drawing 6*.

MANUAL ARTS 4. *Mechanical Drawing*. The course includes isometric and cabinet projection, elementary furniture design principles, developments, intersections, spirals, screw threads, bolt heads, and working drawings of machinery. Lectures and demonstrations are supplemented by textbook work.

Prerequisite, Manual Arts 3. Elective in any year of any course. Five sixty-minute periods a week. Credit, one-half of a unit, only when preceded by Manual Arts 3, thus giving one unit of credit for the two courses. Offered second term.

MANUAL ARTS 5. *Furniture and Cabinet Construction*. This course involves the use of power machinery and aims to give experience that is typical of good commercial practice. It includes the study of periods and styles of furniture, with the application of design to furniture construction. Pieces are designed and one or more made in the shop. Students pay for the material used and are allowed to take the furniture home at the close of school year.

Prerequisite, Manual Arts 1, 2. Elective in the XI., junior, and senior years. Five sixty-minute periods a week. Credit, one-half of a unit, only when followed by Manual Arts 6, thus giving one unit of credit for the two courses. Offered first term.

MANUAL ARTS 6. A study of equipment and buildings for different phases of manual training work. Prices of tools and materials will be studied. Library assignments and reports on assigned subjects are required. A careful study is made of the methods of staining, filling, varnishing, waxing, and rubbing the articles constructed.

Prerequisite, Manual Arts 1, 2, and 5. Elective in the XI., junior, and senior years. Five sixty-minute periods a week. Credit, one-half of a unit, only when preceded by Manual Arts 5, thus giving one unit of credit for the two courses. Offered second term.

MANUAL ARTS 7. This course is especially planned to meet the needs of primary teachers and of supervisors of elementary schools by suggesting supplementary work

for the grades. The course includes paper folding and cutting, paper weaving, cardboard construction, book-binding, woodwork, basketry (reed and raffia), clay work.

Required in the senior year. Three hours a week. Credit, one-fourth of a unit. Offered both terms; equivalent offered in the summer term, *Manual Arts 3* or *5*.

### DRAWING

DRAWING 1, 2. The purpose of this course is to give authoritative instruction in drawing and its solution in terms of materials. The course consists of flower and tree drawing, color theory, landscape, design, construction work, perspective, still life, figure drawing, lettering, composition, and poster work.

Required in the first year of the certificate course. Two hours a week. Credit, one-third of a unit. Each course offered both terms; equivalent offered in the summer term, *Drawing 1* with *Drawing 2*.

DRAWING 3, 4. This course covers the same ground as Drawing 1, 2. Required in the junior year of all who have not had Drawing 1, 2. Two hours a week. Credit, one-half of a unit. Drawing 3 offered first term, Drawing 4 second term; equivalent offered in the summer term, *Drawing 1* with *Drawing 2*.

DRAWING 5, 6. This course is for students who are especially interested in drawing and wish further work in that subject. It is planned to develop the aesthetic sensibility and the creative faculty of each individual student. It consists of flower drawing, handled in a free and decorative manner; landscape, emphasizing composition; outdoor sketching; advanced design; applied design, as stick printing, wood block printing, leather work; figure drawing; costume design; illustration; and posters.

Prerequisite, Drawing 1, 2 or Drawing 3, 4. Elective in the junior and senior years. Four hours a week. Credit, one unit; no credit toward graduation for one-half of a unit. Drawing 5 offered first term, Drawing 6, second term; partial equivalent offered in the summer term, *Drawing 6*.

The courses in drawing and painting aim to familiarize the student with the fundamental art principles, in order that he may use them in his everyday life, in and out of the schoolroom; and at the same time to awaken in him a love and appreciation of the beauties of the out-of-door

world. Drawing then becomes a language for the expression of his ideas and emotions.

### SCHOOL MUSIC

MUSIC 1. *Elementary Sight Singing and Ear Training.* This course includes a study of the major scale, note values, rhythms, key signatures and the elements of notation.

Required in the first year of the certificate course. Two hours a week. Credit, one-sixth of a unit. Offered both terms; equivalent offered in the summer term, *Music 1.*

MUSIC 2. *Sight Singing and Ear Training.* This course includes a study of minor scales, and a short course in transposition and melody writing. Songs and exercises in two, three, and four part songs are studied, including a study of intervals and triads. Some attention is paid to work in methods, with a study of the development, care, and preservation of the child voice, and discussion of materials for use in the grades.

Prerequisite, Music 1. Required in the first year of the certificate course. Two hours a week. Credit, one-sixth of a unit. Offered both terms; equivalent offered in the summer term, *Music 2.*

MUSIC 3. *Music Methods.* This course is a specific study of methods, including a study of the development, care, and preservation of the child voice and special practice in producing good tone patterns for children; it also includes discussion of materials for use in the grades. Some attention is also paid to sight singing and ear training.

Required in the senior year, second term. Two hours a week. Credit, one-fourth of a unit. Offered both terms; equivalent offered in the summer term, *Music 3.*

MUSIC 4. *Public School Music.* The first part of this course is a review of sight singing and ear training. Then a survey of music in the public schools is made, with special emphasis laid on methods, and a careful study of child voice.

Prerequisite, Music 3 or Music 1, 2, or equivalent. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit when followed by Music 5, thus giving one unit of credit for Music 4 and 5 together.

MUSIC 5. *Public School Music.* This course includes practice in conducting, chorus selection and arrangement. Materials for use in the public schools are discussed and examined. Some attention is given to melody writing, and to a study of the development of music.

Prerequisite, Music 4 or its equivalent. Elective in the junior and senior years. Four hours a week. Credit, one-half of a unit when preceded by Music 4, thus giving one unit of credit for Music 4 and 5 together.

The work in music is designed to cultivate a good singing voice, to instill a taste for good music, to cultivate ability in musical interpretation, and to give facility in sight reading. A view is taken of the subject which recognizes the educational and moral value, as well as the aesthetic value.

### CONSERVATORY COURSES IN MUSIC

PIANO 1, 2. *Elementary Class.* The course has to do with hand culture, touch, notation, rhythm, and ear training. Elective in the eleventh, A, and B years. Two lessons a week. Credit, one-half of a unit, only when offered with Piano 3, 4 or Piano 5, 6. No credit for one-half unit. Each course offered both terms.

PIANO 3, 4. *Intermediate Class.* This is the work of the second year in the course in piano.

Prerequisite, Piano 1, 2 or the equivalent. Elective in the eleventh, junior, and senior years. Two lessons a week. Credit, one-half of a unit only when offered with Piano 1, 2 or 5, 6; no credit for one-half of a unit alone. Each course offered both terms.

PIANO 5, 6. *Advanced Class.* This is the work of the third year in the course in piano.

Prerequisite, Piano 3, 4 or the equivalent. Elective in the eleventh, junior, and senior years. Two lessons a week. Credit, one-half of a unit only when offered with Piano 1, 2 or 3, 4. No credit for one-half of a unit alone. Each course offered both terms.

In the beginning classes in piano, from two to four pupils are admitted to one-hour lessons in each class, while only two pupils will receive instruction at the same time in the more advanced piano classes.

VOICE 1, 2. *Elementary Class.* First year work in voice training. Elective in the eleventh, junior and senior

years. Two lessons a week. Credit, one-half of a unit only when offered with Voice 3, 4 or Voice 5, 6. No credit for one-half of a unit alone. Each course offered both terms.

VOICE 3, 4. *Intermediate Class*. Second year work in voice training.

Prerequisite, Voice 1, 2 or the equivalent. Elective in the eleventh, junior, and senior years. Two lessons a week. Credit, one-half of a unit only when offered with Voice 1, 2 or 5, 6. No credit for one-half of a unit. Each course offered both terms.

VOICE 5, 6. *Advanced Class*. Third year work in voice training.

Prerequisite, Voice 3, 4 or the equivalent. Elective in the eleventh, junior, and senior years. Two lessons a week. Credit, one-half of a unit only when offered with Voice 1, 2 or 3, 4. No credit for one-half of a unit alone. Each course offered both terms.

In voice culture, special stress is laid on correct breathing, correct placing of the singing and speaking voice, distinct enunciation and artistic interpretation, development and control of the emotional faculties, physical and mental development, tone quality and registers.

### THE USE OF THE LIBRARY

Certain courses offered in the school require considerable work in the library, including reading, hunting up references, and looking up assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given at the beginning of each term throughout the course. Teachers of required subjects omit one or two recitations each term in order to give the time necessary for these recitations. An effort is made to have these lessons prepare for the library work to be required for the term. In the senior year a brief course in literature for children is given with required reading of books for children in the grades.

### PHYSICAL EDUCATION FOR WOMEN

PHYSICAL EDUCATION 1, 2. *First Year*. Athletic sports, free developing exercises, Swedish gymnastics, elementary apparatus work, elementary balance steps, gymnastic games, folk dancing, lectures in hygiene, in

which careful consideration is made of the various conditions of life, such as air, diet, sleep, exercise, bathing.

Required of the first year students. Two hours a week. Physical Education 1 offered first term, Physical Education 2, second term; partial equivalent offered in the summer term, *Physical Education 1*.

PHYSICAL EDUCATION 3, 4. *Second Year*. Athletic sports, free developing exercises, advanced gymnastics, advanced apparatus work, gymnastic games, balance steps, folk dancing.

Prerequisite, Physical Education 1, 2. Required in their second year of all students who do not elect Physical Education 5, 6. Two hours a week. Physical Education 3 offered in the first term, Physical Education 4 in the second term.

PHYSICAL EDUCATION 5, 6. *Theory of Gymnastics and Practice Teaching*. The purpose of this course is (1) to make clear the objects of definite gymnastics; (2) to study the selection and progression of exercises; (3) to give instruction in preparing and teaching gymnastic exercises and games. Practice teaching is done with sections of the class.

Prerequisite, Physical Education 1, 2. Elective for those who have completed Physical Education 1, 2, 3, 4 and accepted for required Physical Education 3, 4. Credit, one-half of a unit, but only when based on Courses 1, 2, 3, 4. Physical Education 5 offered first term, Physical Education 6, second term.

PHYSICAL EDUCATION 7, 8. *Corrective Gymnastics*. This course is given as a substitute for the regular gymnastic work for those who are physically weak or who are faulty in posture. The various forms of exercise, both active and passive, with massage, are determined by the nature of the special case.

PHYSICAL EDUCATION 9. *Folk and Aesthetic Dancing*. Omitted, 1918-1919.

PHYSICAL EDUCATION 10. *Personal and School Hygiene*. Omitted, 1918-1919.

PHYSICAL EDUCATION 11, 12. *Personal Hygiene*. Required in the ninth year and in the first year of the four-year course. One hour a week except in the weeks when library science lessons are given. Physical Education 11, offered first term, Physical Education 12, second term.

The department of physical education provides instruction and means for the improvement and preservation of health and harmonious development of the body. It purposes to make a careful physical examination of every student at the beginning of each fall term, at the close of the school year, and at such intervals as seem necessary. In accordance with this examination, personal advice and suggestions, regarding habits of life, recreation, study, and exercise best suited to individual development are given. Violent exercise is discouraged, but students are required to take rational exercise for the proper development of the body and for correcting improper postures in standing, sitting, and walking.

Every student in school, unless excused for special reasons by a physician or by the physical director, is required to take the work of this department for the first two years of her course. Each pupil is required to have a gymnasium suit obtained at the school, in order that suits may be uniform in color and pattern. The cost including shoes is from three to five dollars.

The work in the Training School provides instruction in gymnastics by the physical instructor five times a week. In the lower grades formal gymnastic work is used but little, muscular activity being gained through educational play. In the grammar grades the work is more formal, Swedish free exercises being used in combination with games and folk dancing. In the fall and spring the work is conducted out of doors. Physical examinations and corrective gymnastic work are given in the Training School by special arrangement.

### PHYSICAL EDUCATION FOR MEN

PHYSICAL EDUCATION 1, 2. *Regular Exercises in the Gymnasium.* Free developing exercises, marching, tumbling, apparatus work and games. Required of first year students in all courses. Two hours a week. Physical Education 1, offered first term, Physical Education 2, second term.

PHYSICAL EDUCATION 3, 4. *Regular exercises in the Gymnasium.* Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work will be on the athletic field and consist of games and track work. The course includes lectures on hygiene and kinesiology.

Prerequisite, Physical Education 1, 2. Required of second year students in all courses. Two hours a week. Physical Education 3 offered first term, Physical Education 4, second term.

PHYSICAL EDUCATION 5, 6. *Coaching for Men*. This course will include coaching for foot-ball, basket-ball, base-ball, and track. It will be mainly class room work and will be for those who expect to have charge of athletics in high schools.

Prerequisite, Physical Education 1, 2, 3, 4. Elective in the eleventh, junior, and senior years. Three hours a week. Credit, one-half of a unit. Physical Education 5, offered first term, Physical Education 6, second term; partial equivalent offered in the summer term, *Athletic Coaching 1*.

### EXTENSION COURSES

This school is glad to offer such extension courses as its facilities permit. It is especially urged that such aid be sought as the school may be able to give in improving present teaching in the elementary schools. A skilful teacher is able in visiting schools and in talking with teachers to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing and music.

Courses have been given in English at Paris, and in psychology and agriculture at Effingham. Each course consists of fifteen lessons, each lesson being equivalent in time to two fifty-minute periods. Credit is given according to the amount of work done.

## THE TRAINING SCHOOL

**ORGANIZATION.** The Training School consists of nine grades, each grade being divided into two sections representing a half-year's advancement in the course of study. The seventh, eighth, and ninth grades are organized as a Junior High School. Students who have completed the eighth grade are admitted to the ninth grade of the Junior High School. Since the total seating capacity of each room, except the ninth grade room, is forty pupils, and since transfers of pupils from one room to another are sometimes necessary, new pupils are not admitted to any grade whose enrollment is then thirty-seven except the ninth.

**ADMISSION.** New pupils are admitted to grades below the ninth in the order of their registration by grades. Applications for admission are listed in the order of their dates. If a pupil does not appear on the day on which he has asked to be admitted, his name is dropped from the list. In case there are vacancies pupils are admitted to all grades on the opening day of school in September, and on the opening day of the second term. All new pupils must present certificates of standing in the school from which they come.

Pupils once admitted to the school for the regular school year retain their places until completing their course unless they are unreasonably irregular in attendance or fail to appear on the opening day of each new term without giving previous notice to the supervisor of their intention to appear later. Attendance during the summer term does not give any claim to a place during the regular school year.

A fee of one dollar each half year is charged to meet the cost of supplies and of most of the texts used throughout the grades.

**SCHEDULE.** The Training School calendar conforms to that of the other departments of the Normal School. Its daily schedule is as follows:

Pupils of Junior High School due in their seats at .....	8:15
Pupils of grades five and six admitted to the grounds at .....	8:10
Pupils of grades five and six due in their seats at .....	8:25

Pupils of the lower four grades due in their seats at .....	8:55
Chapel exercises with the Normal School .....	9:00 to 9:30
Noon dismissal .....	12:00
Pupils admitted to the building for the afternoon session .....	1:15
Pupils due in their seats for the afternoon session .....	1:30
Afternoon dismissal .....	3:00

TEACHERS. The immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, under the general direction of the supervisor, plan the work for their grades, discuss with the student-teachers their plans for teaching their particular subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of classes in methods of teaching special subjects in the Normal School proper. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose. The school has nine training teachers; one for each of the eight grades, and a special teacher for the work in history. The teachers in other departments of the Normal School have in all cases an advisory relation to the Training School and in several cases a supervisory relation. In a few cases they assist in the teaching of their subjects in the Training School. This is true in the departments of music, drawing, industrial arts, domestic science, and physical training.

PURPOSE. The purpose of the Normal School in maintaining a Training School is two-fold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Normal School. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

These results however cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the

school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type it is not best adapted to its purpose as an experimental school, and if it is not better than other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice. The school seeks first, then, to offer the best in curriculum and training of which it is capable, and at the same time to give the student-teacher the experience in teaching necessary to develop some skill. The training teachers do the greater part of the teaching, then, because it is believed that experience in teaching is valuable only when based on sound educational principles which are illustrated by a teacher of marked ability directing a well-trained class. Observation of the expert, followed by practice, and this again by observation should be the rule.

The school seeks also entire unity between the theories and methods of instruction taught in the other departments, and the practices of the Training School. To this end members of the Normal School faculty are advisers to training teachers and to student-teachers of the work of their departments in the Training School. The training teachers give lessons for observation by the Normal School classes in methods in special subjects, and conduct experiments in which the special department is interested.

**PRACTICE TEACHING.** All students graduating from the Normal School are required in their senior year to take throughout the year a course in practice teaching. For this purpose the school year is divided into four quarters. Each quarter the list of student-teachers is divided into as many groups as there are training teachers and one group is assigned to each teacher for the quarter. By the training teacher the student is assigned to teach a particular subject in her grade. The student is usually assigned to a different grade, and to a different subject each quarter, until the fourth quarter, when the student's preference for grade and subject is considered.

In the beginning of the first quarter, the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter with the training teacher, but for about two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing, and discussing the lessons and lesson plans before

and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching throughout the quarter as seems necessary to her to keep the class up to the standard and to furnish the student opportunity to observe expert teaching.

**OBSERVATION.** A course in observation is required of all juniors in connection with their course in psychology. The class meets for three periods a week during the last thirteen weeks of the junior year for directed observation of the work in the Training School. The course is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades to which they wish to devote themselves.

**RURAL SCHOOL METHODS.** A course in rural school management and methods is required of all students in the second year of the two-year course to prepare for teaching in rural schools. A large part of the course consists in observation of the work of the Training School, both the regular work of the school and special lessons given to illustrate certain points in pedagogy.

The course includes discussion of:

- I. Physical conditions of the rural school.
  - a. The schoolroom—lighting, heating and ventilation, seating arrangement, cleanliness, decoration.
  - b. The playground and its use.
- II. The rural school curriculum.
  - a. The Illinois course of study.
  - b. Methods in the special subjects—talks given by the teachers of the Training School illustrated by lessons with their pupils, observed by the students.
  - c. The use of local material in the various subjects.
- III. Making a daily, weekly, and yearly programme under the varying conditions that arise in different rural schools.
- IV. Rural school routine and problems of discipline; some attention to Illinois school law.

## EQUIPMENT

**GROUNDS.** The normal school grounds comprise forty acres, including the campus proper, the forestry, and the athletic field. These grounds were laid out by one of the most skilful landscape gardeners in the country, and they are justly considered as exceptionally beautiful. A natural grove and other fine old trees, two ponds, a wide stretch of green, and many borders of shrubbery and perennials in the natural style, present a succession of pictures throughout the year. In the main grounds are the tennis-courts, the children's playgrounds and athletic field for girls and the school garden. The forestry, planted during the early years of the school, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the secondary colleges and normal schools of the state, are the base-ball diamond, the foot-ball field, and the quarter-mile cinder track.

**MAIN BUILDING.** The main building is a three-story structure three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are general class rooms, offices, the library, the assembly room, the music and art rooms, and some of the laboratories.

**TRAINING SCHOOL BUILDING.** The Training School Building, of smooth Bedford stone, was completed in 1913 at a cost of \$75,000. It is placed conveniently near the main building, and besides the elementary school rooms it contains the class rooms and laboratories for domestic science and agriculture.

**PEMBERTON HALL.** The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the State of Illinois. A fine stone structure was finished and occupied January 4, 1909. Nearly all the rooms in the building were taken from the first and the demand for rooms now exceeds its capacity. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the school and in setting good standards of living is well established.

Room, including heat and light, with table board and

privileges of laundry, costs \$5.75 a week. For table board, \$4.50 a week is charged. Students are not required to furnish anything.

**MANUAL ARTS BUILDING.** For work in manual training and mechanical drawing, the school has a well equipped building at a convenient distance from the main building. The bench room has twenty work benches. The machine room contains a universal saw, a band saw, lathes, a jointer, and a tool grinder.

**LIBRARY.** The library now contains over 20,500 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of over one hundred twenty-five periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room, to which all students of the Normal School and pupils of the Junior High School are admitted. For grades lower than the seventh, school-room libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Two trained librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all courses as explained in the Description of Courses of Instruction.

**SCHOOL GARDEN AND GREENHOUSE.** An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the gardener and the teachers. Connected with the students' garden is a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the method of propagation, crop rotation, and some of the principles of plant breeding.

All seventh and eighth grade pupils are required to do garden work. Where possible the home garden is used. If there is no garden at the home, space in the school garden is given to the pupils for use during the summer. The home garden work is carefully supervised. The pupil studies the principles of gardening in the classroom, and does the work in the garden under supervision

of the teacher. This work is designed to stimulate a keener interest in the garden as an economic factor in the home life; to give to the pupil a better knowledge of the principles underlying the care of plants, and to teach methods of culture of special garden plants. The pupil is required to keep a record of the garden and to report each week to the teacher.

An excellent four-room greenhouse contains many plants of unusual interest and serves, moreover, as an important adjunct to the botanical laboratories.

Additional facilities for field observations and for obtaining laboratory materials are offered by a small lake, a lily pond, and a forestry of six thousand trees, all of which are within five minutes' walk of the biological laboratories.

**LABORATORIES.** The department of botany is well equipped for laboratory study. There are facilities for learning the technique of microscopic preparation, plant physiology and pathology. The materials include microscopes, an herbarium, representations of plant structures and of groups of the plants, many microscopic slides, and a large collection of Illinois algae. There are display cases and a lantern for different forms of projection.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 15,000. The most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping living animals. A number of models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The physics and chemistry laboratories are large and well equipped with apparatus for demonstration and for individual use. Most of the apparatus for students' use

is in duplicate so that all of the members of a section can work at the same problem at the same time.

The agricultural laboratory is supplied with tables, a complete set of apparatus for testing milk and its products, and apparatus for soil studies.

## GENERAL INFORMATION

**EXPENSES.** Tuition is free to those who are to teach in the public schools of Illinois. Others pay tuition at the rate of twenty-one dollars a year. An incidental fee of three dollars a term is required of all in the Normal Department.

Text books are owned by the school and rented to students at a uniform price of one and a half dollars a term. Students wishing to own their books can buy them at the lowest wholesale prices.

Board and room can be obtained in private families for about \$5.75 a week. Students renting rooms and keeping house can materially reduce this amount. Room without board can be obtained for from one to two dollars a week.

**THE STUDENTS' LOAN FUND.** The Students' Loan Fund of the Eastern Illinois State Normal School makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in school and complete the course. This plan has been tried and students have found such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the senior class play and to the Training School entertainment, given during commencement week. At the end of each school year a play is presented with the accessories of appropriate costume and scenery. Sheridan's "*The Rivals*" and "*The School for Scandal*," Goldsmith's "*She Stoops to Conquer*," Shakespeare's "*A Mid-Summer Night's Dream*," "*As You Like It*," "*Twelfth Night*," and "*The Tempest*," Tennyson's "*The Princess*," "*The Lady Sheriff*," Clyde Fitch's "*The Climbers*," Josephine Preston Peabody's "*The Piper*," and Booth Tarkington's "*The Man from Home*," have been given.

**THE ADELIA CAROTHERS FUND.** A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of higher character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

**ENTERTAINMENT COURSE.** For the past three years

the school has maintained a course of entertainments each year supported entirely by the sale of tickets among students, faculty, and people of the town. The aim has been to furnish at a minimum cost musical and dramatic performances and lectures which shall provide entertainment of a worthy kind. To this end, a series of five entertainments, given at various intervals during the school year, has been arranged; and tickets to the entire course have been sold at one dollar and a half and two dollars each. Through these courses the school has had an opportunity to hear and see the United States Marine Band, the Cornburn Players, the Zoellner String Quartet, Leland T. Powers, and others. The course for 1917-18 was as follows:

St. Louis Symphony Orchestra.

Howe Moving Pictures.

Henry J. Hadfield in a Kipling Recital.

Imperial Male Quartet.

William Lyon Phelps of Yale University—a lecture.

During the summer school session of 1918 the Elsie Herndon Kearns Company with George Carleton Somnes as director will present on July ninth and tenth three plays on the campus. These plays will be as follows: Maeterlinck's *Pelleas and Melisande*; Ibsen's *The Master Builder*; and Shakespeare's *The Tempest*.

INVITATION TRACK AND FIELD MEET. A track and field meet for high school students is held each year in May under the auspices of the athletic association of the Normal School. There are from thirty to forty high schools represented, and usually from two hundred fifty to three hundred contestants take part. The track is always in good condition, and many good records are made. Each year several local track and field records are broken, and in some instances world records are almost equaled. Beautiful medals of gold, silver, and bronze are given as prizes for each event, while a suitable cup or shield is given to the school securing the most points in the meet. The meet of 1917 was the ninth under the auspices of the association. It was held on May 12, 1917. The team representing the Champaign High School won the most points in the meet.

In connection with the Track and Field Meet a Tennis Tournament is held. Three such tournaments have been held, and each year the number of entries has increased. With eight splendid courts the Normal School is in a

position to handle this tournament successfully. Gold and silver medals are awarded as prizes in both the singles and doubles. In the 1917 meet the representatives from the Paris High School won the doubles, and a representative from the Urbana High School the singles.

The Interscholastic Oratorical Contest is likewise held in conjunction with the Track and Field Meet. It has two divisions: one for boys, and one for girls. The boys give declamations, while the girls give poetry and dramatic readings. Each high school is entitled to one contestant in each division. In each division three prizes are given, a gold, a silver, and a bronze. In the 1917 contest the representative of Urbana High School won first place in the boys' division, the representative from Bismarck High School won second place, and the representative from Decatur High School won third place. First place in the girls' division was won by the representative from Paris High School, second place by the representative from Decatur High School, and third place by the representative from Bismarck High School.

On account of the unusual conditions in high schools due to the war, the athletic association has deemed it inadvisable to hold either the Field and Track Meet, the Oratorical Contest, or the Tennis Tournament in the spring of 1918.

**ATHLETICS.** All athletic activities of the school are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee of three dollars a year is charged each student. This fee is payable at the beginning of each term. It entitles the student to free admission to all athletic contests in which the Normal School teams take part on the home grounds, and also to a vote for the student representative on the Athletic Council.

The Eastern Illinois State Normal School is a member of the Illinois Intercollegiate Athletic Association. Following are the eligibility rules.

(a) A contestant must be a bona fide under-graduate student of the institution which he represents, and must be successfully carrying no less than twelve hours of school work per week.

(b) He must have successfully completed at least twelve credit hours of the preceding term's work.

(c) His record of previous college competition in Illinois Intercollegiate Athletic Association must be filed with the statistical committee.

(d) He must not have had, as a college student, more than three years, or, as an academy and college student, more than five years of competition.

(e) He must not have used his knowledge of athletics for financial gain except that he may play "Summer Baseball" with teams not in leagues under the jurisdiction of the National Baseball Commission.

(f) He must sign an eligibility card, furnished him by his school, as to his amateur standing and previous competition.

(g) He must not compete in any branch of athletics in or out of the Association under an assumed name. The penalty for violating this rule is suspension for one year from competition.

(h) If he enters ten or more days after the beginning of a term, he must be in school three weeks before he may compete.

(i) When competing on any college team, no student will be permitted to compete as a member of an outside team or organization in his respective branch. This rule is not in operation during regular vacation periods.

(j) A student who has competed in athletics for any institution above the high school rank, for one season or more, shall be ineligible for competition in any institution of this association for a period of four and one-half months after matriculation; but this rule shall not affect a student who has completed his course in academy or preparatory school.

(k) Any student having competed for any institution above high school rank for three years, shall be ineligible to compete for any institution of this association. This rule shall not apply to students completing courses in academies or preparatory schools.

**ATTENDANCE AT CHURCH.** Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students of

The Young Women's Christian Association has an organization in the school and is in a flourishing condition. Committees from the associations meet new students at trains and assist them in finding boarding places. Social gatherings under the auspices of the association are held during the year.

## THE CERTIFICATING LAW

On July 1, 1914, the new law relating to the granting of teachers' certificates went into effect. By the provisions of this law, a third grade elementary school certificate, valid for one year in the first eight grades of the common schools of the county in which it is issued and in no other county, *may, at the option of the county superintendent*, be issued without examination to persons who have successfully completed two years of work in a recognized Normal School, or one year of such work if the applicant is a graduate of the tenth grade. This certificate is renewable once only and on evidence satisfactory to the county superintendent of three months' successful teaching or six weeks' professional training. This certificate is not issued the second time to the same person.

A second grade elementary school certificate, valid for two years in the first eight grades of the common schools of the county and in the ninth and tenth grades, when endorsed for the same by the county superintendent *may, at the option of the county superintendent*, be issued without examination to persons who have completed the junior year's work in a recognized Normal School or its equivalent. This certificate is renewable on evidence satisfactory to the county superintendent of six months' successful teaching or twelve weeks' professional training, and a second time if in the period following the date of issue the holder shall have acquired eighteen weeks' professional training in any recognized school provided for such training.

A first grade elementary school certificate, valid for three years in the first ten grades of the common schools of the county, and in the high school when endorsed for the same by the county superintendent *shall be issued* to graduates of a recognized Normal School, or from an institution offering an equivalent preparation, provided the applicant has had one year of successful practice teaching, and applies for the certificate within three years after graduation.

Third grade and second grade certificates are valid for teaching only. A first grade certificate is valid for supervision in all positions where the principal or superintendent teaches one half or more of the time.

A high school certificate, valid for three years in the

high schools of the county, and renewable indefinitely for periods of three years on evidence satisfactory to the county superintendent of successful teaching or supervision and professional growth has the following requirements: (1) graduation from a recognized high school, or an equivalent preparation; (2) a certificate showing the completion of at least two years' successful work in any recognized higher institution of learning, and (3) an examination in English, pedagogy, and six high school subjects, three majors and three minors, chosen from a list prescribed by the examining board: *Provided, however*, that graduates of a recognized Normal School, College or University may offer within three years after graduation, certified credits in lieu of examination in the above subjects accompanied by faculty recommendations of ability to teach in the high school.

The law contains also provision for supervisory, kindergarten-primary, and special certificates issued by a county superintendent. The Superintendent of Public Instruction is empowered to grant four-year elementary school, high school, and supervisory certificates which shall at the time of their expiration become valid and be endorsed for life upon evidence of successful teaching or supervision satisfactory to the Superintendent of Public Instruction.

A first and second grade elementary school certificate, a high school certificate, a supervisory certificate, a kindergarten-primary certificate, or a special certificate is valid in the county of issue, and in any county of the state when endorsed by the county superintendent of such county, upon evidence of successful teaching, certified by the county superintendent in whose county the teaching has been done.

All certificates, whether state or county, must be annually registered and endorsed, and a fee of one dollar must be paid.

## THE ALUMNI ASSOCIATION

Wednesday of commencement week is Alumni Day. Returning graduates attend morning exercises at nine o'clock and the alumni reception at eight o'clock in the evening. It is customary to have in the afternoon a ball game between members of the regular team and players on former teams. A large number of alumni attended the eighteenth anniversary celebration last year.

The officers of the association are:

Mr. Henry H. Zimmerman, '10, President.

Mrs. William H. Smith, '06, Vice-President.

Miss Olive Rogers, '14, Secretary and Treasurer.

### *Executive Committee*

Mr. Ernest R. Bails, '16, Chairman.

Miss Leah T. Todd, '16.

Miss Helen I. Moffett, '14.

Miss Esther W. Doty, '17.

Mr. Martin O. Schahrer, '17.

### *Standing Committee for Advancing the Interests of the School*

Mr. Warren L. Hagan, '07.

Miss Runie T. Robinson, '12.

Mr. Leonard E. Davis, '08.

## ALUMNI CLUBS

The Charleston Club of Chicago and the Charleston Club of the University of Illinois are organizations of former students of this school. These clubs meet occasionally in a very pleasant way and all former students or teachers, living in or near these centers, will be notified of these meetings if they will send their names to the secretary. Mail addressed in the care of The University of Chicago and The University of Illinois will reach these officers.

The officers of the Charleston Club of Chicago are:

Mr. William R. Meeker, President.

Miss Ruth Hostetler, Vice-President.

Miss Effie L. Feagan, Secretary and Treasurer.

The officers of the Charleston Club of The University of Illinois are:

Mr. William C. Troutman, President.  
Miss Georgia Helen McDonald, Vice-President.  
Mr. Oren L. Whalin, Secretary and Treasurer.
