CORRESPONDENCE

All inquiries should be addressed to the president of the school.

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in the schools.

Former students who wish situations may register their names with the president of the school.

Bulletins published by the school are sent upon request.

THE notion of "duty" must have as large a place in the meaning of democracy as the notion of "rights," and not the least important of democratic duties is the duty of intelligence.

WILLIAM C. BAGLEY

**Leave of absence February to June 1919.

The names of teachers, with the exception of the training teachers, are printed in the order of their engagement.

PART I
GENERAL INFORMATION

THE EASTERN ILLINOIS STATE NORMAL SCHOOL

LOCATION

The Eastern Illinois State Normal School is located at Charleston, the county seat of Coles county. Charleston is on the Big Four and Clover Leaf railroads and is connected with the Illinois Central at Mattoon by an interurban railway.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the State the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. On September 7, 1895, the five trustees provided for in the act, selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the State. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year, there were seventeen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. The school has grown steadily, graduating seventy-one students in 1918.

During the summer of 1901, a special term of six weeks was established for teachers. This term, beginning with an enrollment of one hundred seventy-two students the first summer, has reached a maximum enrollment of one thousand twenty-three.

"In order to equalize the advantages of the State Normal Schools," encourage attendance and thereby increase their usefulness, the State legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

In 1907, the State legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the school. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of school life.

As the school increased in numbers its facilities gradually became too restricted, and in 1911 the State legislature appropriated seventy-five thousand dollars for a training school building. The training school now enjoys all the advantages of a building designed and equipped for its special use, and the Normal School has opportunity for a more economical organization and an increase of its facilities.

The school has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the State in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. Public Normal Schools are the natural outgrowth of a policy of public education. The State is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Normal School is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Normal Schools.

EQUIPMENT

GROUND. The normal school grounds comprise forty acres, including the campus proper, the forestry, and the athletic field. These grounds were laid out by one of the most skilful landscape gardeners in the country, and they are justly considered exceptionally beautiful. A natural

grove and other fine old trees, two ponds, a wide stretch of green, and many borders of shrubbery and perennials in the natural style, present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds and athletic field for girls and the school garden. The forestry, planted during the early years of the school, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the secondary colleges and normal schools of the State, are the base-ball diamond, the foot-ball field, and the quarter-mile cinder track.

MAIN BUILDING. The main building is a three-story structure three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are general class rooms, offices, the library, the assembly room, the music and art rooms, and some of the laboratories.

TRAINING SCHOOL BUILDING. The training school building, of smooth Bedford stone, was completed in 1913 at a cost of \$75,000. It is placed conveniently near the main building, and besides the elementary school rooms it contains the class rooms and laboratories for domestic science and agriculture.

PEMBERTON HALL. The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the State of Illinois. A fine stone structure was finished and occupied January 4, 1909. Nearly all the rooms in the building were taken from the first and the demand for rooms now exceeds its capacity. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the school and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$6.00 a week. For table board, \$4.75 a week is charged. Students are not required to furnish anything.

MANUAL ARTS BUILDING. For work in manual training and mechanical drawing, the school has a well equipped building at a convenient distance from the main building. The bench room has twenty work benches. The machine room contains a universal saw, a band saw, lathes, a jointer, and a tool grinder.

LIBRARY. The library now contains over 20,500 books and pamphlets. The reference books, bound periodicals, and

reserve books are shelved in the reading room. Here are also found the current numbers of over one hundred twenty-five periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room, to which all students of the Normal School and pupils of the Junior High School are admitted. For grades lower than the seventh, school-room libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Two trained librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curriculums as explained in the Description of Courses of Instruction.

SCHOOL GARDEN AND GREENHOUSE. An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the gardener and the teachers. Connected with the students' garden is a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

All seventh and eighth grade pupils are required to do garden work. Where possible the home garden is used. If there is no garden at the home, space in the school garden is given to the pupils for use during the summer. The home garden work is carefully supervised. The pupil studies the principles of gardening in the classroom, and does the work in the garden under supervision of the teacher. This work is designed to stimulate a keener interest in the garden as an economic factor in the home life; to give to the pupil a better knowledge of the principles underlying the care of plants, and to teach methods of culture of special garden plants. The pupil is required to keep a record of the garden and to report each week to the teacher.

An excellent four-room greenhouse contains many plants of unusual interest and serves, moreover, as an important adjunct to the botanical laboratories.

Additional facilities for field observations and for obtaining laboratory materials are offered by a small lake, a lily pond, and a forestry of six thousand trees, all of which are within five minutes walk of the biological laboratories.

LABORATORIES. The department of botany is well equipped for laboratory study. There are facilities for learning the technique of microscopic preparation, plant physiology and pathology. The materials include microscopes, an herbarium, representations of plant structures and of groups of the plants, many microscopic slides, and a large collection of Illinois algae. There are display cases and a lantern for different forms of projection.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 15,000. The most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping living animals. A number of models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The physics and chemistry laboratories are large and well equipped with apparatus for demonstration and for individual use. Most of the apparatus for students' use is in duplicate so that all of the members of a section can work at the same problem at the same time.

The agricultural laboratory is supplied with tables, a complete set of apparatus for testing milk and its products, and apparatus for soil studies.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE. For the past four years the school has maintained a course of entertainments of four or five numbers, supported entirely by the sale of tickets among the students, the faculty, and people of the town. The aim of these courses is to furnish at a minimum cost musical and dramatic performances of real worth. Tickets to the entire course are sold at one dollar and a half or two dollars each. Through these courses the school has had the opportunity of seeing and hearing such entertainments as the United States Marine Band, the Zoellner String Quartet, the St. Louis Symphony Orchestra, the Coburn Players, the Dever-

eux Players, and others. The course for 1918-1919 was as follows:

Max Steindal, cellist, and Miss Elsa Koch, soprano.

Mr. Leland T. Powers, dramatic reader.

The Devereux Players in two modern plays.

THE NORMAL SCHOOL NEWS. A four-page weekly, "The Normal School News", published by a board of student editors with a faculty advisor is issued on Tuesdays. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing school spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

INVITATION TRACK AND FIELD MEET. A track and field meet for high school students is held each year in May under the auspices of the athletic association of the Normal School. There are from thirty to forty high schools represented, and usually from two hundred fifty to three hundred contestants take part. The track is always in good condition, and many good records are made. Each year several local track and field records are broken, and in some instances world records are almost equaled. Beautiful medals of gold, silver, and bronze are given as prizes for each event, while a suitable cup or shield is given to the school securing the most points in the meet. The meet of 1919 was the tenth under the auspices of the association. It was held on May 10, 1919. The team representing the Champaign High School won the most points in the meet.

The Interscholastic Oratorical Contest is likewise held in conjunction with the Track and Field Meet. It has two divisions: one for boys, and one for girls. The boys give declamations, while the girls give poetry and dramatic readings. Each high school is entitled to one contestant in each division. In each division three prizes are given, a gold, a silver, and a bronze.

In the 1919 contest, the following were the winners:

Division of Orations,—Harrisburg, first; Mattoon, second.

Dramatic Readings,—Decatur, first; Harrisburg, second.

Humorous Readings,—Decatur, first; Paris, second.

Modern Poetry,—Urbana, first; Paris, second.

ATHLETICS. All athletic activities of the school are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee of one dollar a term is charged each stu-

dent. This fee is payable at the beginning of each term. It entitles the student to free admission to all athletic contests in which the Normal School teams take part on the home grounds, and also to a vote for the student representative on the Athletic Council.

The Eastern Illinois State Normal School is a member of the Illinois Intercollegiate Athletic Association and follows the eligibility rules of that association.

ATTENDANCE AT CHURCH. Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students of the school at home in the churches and Sunday schools. The teachers of the Normal School encourage the pupils to form and sustain intimate relations with the churches.

THE CHRISTIAN ASSOCIATION. The Young Women's Christian Association has an organization in the school and is in a flourishing condition. Committees from the associations meet new students at trains and assist them in finding boarding places. Social gatherings under the auspices of the association are held during the year.

EXPENSES

Tuition is free to those who are to teach in the public schools of Illinois. Others pay tuition at the rate of twenty-one dollars a year, seven dollars being payable each term. An incidental fee of two dollars a term is required of all in the Normal Department.

Text books are owned by the school and rented to students at a uniform price of one dollar a term. Students wishing to own their books can buy them at the lowest wholesale prices.

Board and room can be obtained in private families for about \$6.00 a week. Students renting rooms and keeping house can materially reduce this amount. Room without board can be obtained for from one to two dollars a week.

The Students' Loan Fund of the Eastern Illinois State Normal School makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in school and complete the course. This plan has been tried and students have found such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the senior class play and to the Training School entertainment, given during com-

mencement week. At the end of each school year a play is presented with the accessories of appropriate costume and scenery. The following plays have been given: Sheridan's "*The Rivals*" and "*The School for Scandal*", Goldsmith's "*She Stoops to Conquer*", Shakespeare's "*A Mid-Summer Night's Dream*", "*As You Like It*", "*Twelfth Night*", and "*The Tempest*", Tennyson's "*The Princess*", "*The Lady Sheriff*", Clyde Fitch's "*The Climbers*", Josephine Preston Peabody's "*The Piper*", Booth Tarkington's "*The Man from Home*", Madeline Riley's "*An American Citizen*", Oliphant Down's "*The Maker of Dreams*", J. M. Barrie's "*The Twelve Pound Look*", and Lady Gregory's "*Spreading the News*".

A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of higher character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

THE CERTIFICATING LAW

On July 1, 1914, the new law relating to the granting of teachers' certificates went into effect. By the provisions of this law, a third grade elementary school certificate, valid for one year in the first eight grades of the common schools of the county in which it is issued and in no other county, *may, at the option of the county superintendent*, be issued without examination to persons who have successfully completed two years of work in a recognized Normal School, or one year of such work if the applicant is a graduate of the tenth grade. This certificate is renewable once only and on evidence satisfactory to the county superintendent of three months' successful teaching or six weeks' professional training. This certificate is not issued the second time to the same person.

A second grade elementary school certificate, valid for two years in the first eight grades of the common schools of the county and in the ninth and tenth grades, when endorsed for the same by the county superintendent *may, at the option of the county superintendent*, be issued without examination to persons who have completed the junior year's work in a recognized Normal school or its equivalent. This certificate is renewable on evidence satisfactory to the county superintendent of six months' successful teaching or twelve weeks' professional training, and a second time if in the

period following the date of issue the holder shall have acquired eighteen weeks' professional training in any recognized school provided for such training.

A first grade elementary school certificate, valid for three years in the first ten grades of the common schools of the county, and in the high school when endorsed for the same by the county superintendent *shall be issued* to graduates of a recognized Normal School, or from an institution offering an equivalent preparation, provided the applicant has had one year of successful practice teaching, and applies for the certificate within three years after graduation.

Third grade and second grade certificates are valid for teaching only. A first grade certificate is valid for supervision in all positions where the principal or superintendent teaches one half or more of the time.

A high school certificate, valid for three years in the high schools of the county, and renewable indefinitely for periods of three years on evidence satisfactory to the county superintendent of successful teaching or supervision and professional growth has the following requirements: (1) graduation from a recognized high school, or an equivalent preparation; (2) a certificate showing the completion of at least two years' successful work in any recognized higher institution of learning, and (3) an examination in English, pedagogy, and six high school subjects, three majors and three minors, chosen from a list prescribed by the examining board: *Provided, however*, that graduates of a recognized Normal School, College or University may offer within three years after graduation, certified credits in lieu of examinations in the above subjects accompanied by faculty recommendations of ability to teach in the high school.

The law contains also provision for supervisory, kindergarten-primary, and special certificates issued by a county superintendent. The Superintendent of Public Instruction is empowered to grant four-year elementary school, high school, and supervisory certificates which shall at the time of their expiration become valid and be endorsed for life upon evidence of successful teaching or supervision satisfactory to the Superintendent of Public Instruction.

A first and second grade elementary school certificate, a high school certificate, a supervisory certificate, a kindergarten-primary certificate, or a special certificate is valid in the county of issue, and in any county of the State when endorsed by the county superintendent of such county, upon evidence of successful teaching, certified by the county

superintendent in whose county the teaching has been done.

All certificates, whether state or county, must be annually registered and endorsed, and a fee of one dollar must be paid.

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Normal School includes:

- The Normal School,
- The Senior High School, Grades X, XI, XII,
- The Training School,—
- The Junior High School, Grades VII, VIII, IX,
- The Elementary Grades, Grades I-VI.

SESSIONS OF THE SCHOOL

The regular school year consists of three terms of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers, who have no school on Saturday, opportunity of pursuing some regular work in the Normal School; and consequently promotes closer relations between the school and the teachers of the district. The mid-spring term coincides with the second half of the spring term.

A summer term of six weeks gives teachers and students an opportunity to study during a part of the summer vacation. The summer term for 1920 will begin on Monday, June 7, and close on Friday, July 16. The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Normal School.

ADMISSION

Graduates of accredited colleges are admitted to a one-year curriculum; graduates of accredited four-year high schools to a two-year or a three-year curriculum; undergraduates of accredited high schools are admitted to the Senior High School, with full credit for the work they have done. The holder of a first grade certificate is admitted to the junior class of the normal school upon the completion of four specified units of high school work; the holder of a second grade certificate is admitted to the junior class upon the completion of eight units specified in the tabular view of curriculums.

High school diplomas, teachers' certificates, and township scholarships must be presented to the registrar. Undergraduates of high schools and graduates of high schools

with three-year or two-year courses are required to bring a complete copy of their record, signed by the principal of the school. Attention is called to the fact that *high school work repeated in the Normal School does not count toward credit for a diploma*. Work done in accredited three-year or four-year high schools is given full credit without examination in any year of the high school and in Class IX, and Class XII of the certificate course. Work done in two-year high schools receives half credit, the work of the two years admitting a student to Class X of the certificate course or of the high school.

SPECIAL EXAMINATIONS

Special examinations are given on the following dates: At 2 o'clock in the afternoon on the first Thursday of each term; at the same hour on the next to the last Saturday in each term; and on the next to the last Monday of the summer term. It is necessary to arrange beforehand with the teacher under whom the examination is to be taken.

September 18, 1919, Thursday.

November 22, 1919, Saturday.

December 11, 1919, Thursday.

April 24, 1920, Saturday (for seniors).

May 22, 1920, Saturday.

July 5, 1920, Monday.

GRADUATION

Senior records are checked at the beginning of each term and on May 1. A statement of his credits is given every time to each student. The list of candidates for graduation in the current year is based on the checking in May. Any student who is not more than three credits behind the class at that time may participate in commencement exercises with the class and receive his diploma at the close of the summer term upon the completion of his work.

EXTENSION COURSES

This school is glad to offer such extension courses as its facilities permit. It is especially urged that such aid be sought as the school may be able to give in improving present teaching in the elementary schools. A skilful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely:

reading, language and grammar, arithmetic, geography, history, drawing, and music.

Courses have been given in English at Paris, and in psychology and agriculture at Effingham. Each course consists of fifteen lessons, each lesson being equivalent in time to two fifty-minute periods. Credit is given according to the amount of work done.

CURRICULUMS

A revision of curriculums goes into effect September, 1919. An adjustment programme is offered for seniors. The former five-year curriculum is continued for those who have completed one or more years of it. Ninth year students enter the last year of the Junior High School.

TERMS

The school year consists of three terms of twelve weeks each, including a mid-spring term which coincides with the second half of the spring term. A summer term of six weeks is held immediately after the close of the regular school year.

CREDIT

A *credit* is a term's work in a subject requiring preparation and reciting five periods a week. There is one unprepared recitation a week in each five-period subject. A period is fifty minutes but laboratory sciences have five sixty minute periods. Manual arts and all home economics courses offered in 1919-1920 require ten periods a week for a credit; the five-period courses are half credit courses and two are required therefore for full credit. A statement of the amount of credit is included in the description of each course. No credit toward graduation is given for fewer than three credits in piano or in voice, or in the *first year's* work in a foreign language; or for fewer than one and a half credits in the *first year's* work in elective drawing, home economics, manual arts, physical education, reading, or school music.

In the junior year, the required reading and drawing for the three terms count together as one credit. In the senior year, manual arts and music count together as one credit. Physical education, use of the library, penmanship, and observation are required but are not a part of the total number of credits.

MAJOR AND MINOR SUBJECTS

In the three-year curriculums for graduates of four-year high schools, a student in a special curriculum takes nine credits of work in the special subject; three in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, the only restriction being that they shall constitute a year's work in some one department and that the courses chosen shall be satisfactory to that department.

ELECTIVES

There are two groups of electives: One for those in the junior year or above; the other for those below the junior year, the latter not counting for those above the junior year unless so stated in the description of the course. Students in the eleventh year or above are admitted to elective courses in agriculture, home economics, and manual arts. Students in the junior year may take first year work in botany, chemistry, physics, or zoölogy if they have never had these subjects, but extra work is required of them to make the course equivalent to an upper class subject.

NUMBERING OF COURSES

Courses numbered 1-19 are for credit below the junior year; courses numbered 20-29 are required in a curriculum in the junior year or above; courses numbered 30 to 39 are elective courses for those in the junior year or above. Courses numbered 1-19 do not count for those in the junior year or above unless so stated in the description of the course. Courses in foreign language, botany, zoölogy, first year physics, and first year chemistry may be taken by those who have not had them, but some extra work is required to make the course equivalent to an upper class subject.

DESCRIPTION OF CURRICULUMS

I. For graduates of recognized colleges: A one-year curriculum to prepare teachers for the grades or for high schools.

II. For graduates of four-year high schools:

1. Two-year curriculums. (See tabular view of curriculums.)

Curriculum A. To prepare teachers for the lower grades.

Curriculum B. To prepare teachers for the upper grades.

- Curriculum C. To prepare teachers for the grades.
 2. Three-year curriculums. (See tabular view of curriculums.)

These prepare teachers for the grades, for department work in junior high schools, or for work in the smaller high schools. Students may choose a general three-year curriculum or a special curriculum in agriculture, English, foreign language, geography, history, home economics, manual arts, mathematics, science (biological or physical). In each special curriculum, the student has three years' work (nine credits) in the special subject, one year's work (three credits) in a minor subject, and one year (three credits) elective. In the general curriculum the student is not required to continue one subject through the three years.

Curriculum F. General three-year curriculum.

The student has fifteen elective credits which he may take in different departments but twelve of them should be in not more than four and preferably in three departments. The three remaining credits give him an opportunity to take one term courses—as English 24, primary education, and others—required in other curriculums but not in the one which he has chosen. Any subject required in any curriculum may be counted as elective in any other curriculum.

Curriculum G. Agriculture.

Major subject: any three of the courses in agriculture, numbered 30 to 35 together with Courses 36-41, making nine credits.

Minor subject: Botany or zoology, three credits.

Suggested elective: Chemistry, three credits.

Curriculum H. English.

Major subject: English 20 and 37, (composition); English 21 (grammar); English 34 or 35 (American literature); and five other English credits selected with the approval of the English department. Any English credit required in another curriculum may be counted toward the nine credits of the major subject.

Minor subject: Foreign language, history, mathematics, or science; as one of these gives with English a combination frequently called for in teaching positions in high schools.

Elective: No recommendation.

Curriculum I. Foreign Language.

Major subject: Latin, Courses 30 to 39, omitting any two

of them except Course 38, the teaching of Latin, and Course 39, Latin writing.

Minor subject: French, first year, or German, first year.

Recommended elective: French, second year, or German, first or second year.

Curriculum J. Geography.

Major subject: Geography 37 and eight of the geography courses numbered 20 to 39; but a student should not take both Course 38 and Course 39. He may count Botany 33 or Botany 34 as one of the eight courses.

Minor subject: Physical science for those preparing to teach in the high school; history for those who are preparing to teach in the grades.

Recommended electives: Physical science, history, economics, mathematics, agriculture.

Curriculum K. History.

Major subject: History 30-35, Government 30-32, Economics 30-32, omitting any three of these twelve courses.

Minor subject: No restriction except that the three credits constituting the minor subject must be in one department of study and must be satisfactory to the teacher of that department.

Elective: No restriction.

Curriculum L. Home Economics.

Major subject: Home Economics. Domestic Art 30, 31, 32, and Domestic Science 30, 31, 32, (three credits for the two together); four credits from Domestic Art 33-37 and Domestic Science 33-37; Domestic Art 38 (methods), and Domestic Science 38 (methods).

Minor subject: Any three credits in the department omitted from the major subject; but students will be permitted to offer a minor from another department if they wish.

Elective: No restriction.

Curriculum M. Manual Arts.

Major subject: Manual Arts 30-41, nine credits, Courses 30-35 being half credit courses.

Minor subject: English 37 (rhetoric) and two other English courses approved by the departments of English and of manual arts.

Recommended elective: Trigonometry, athletic coaching.

Curriculum N. Mathematics.

Major subject: Mathematics 20, 21 and 30-36.

Minor subject: No restriction except that the three credits

constituting the minor subject must be in one department of study and must be satisfactory to the teacher of that department. For students in some other department who wish to make mathematics their minor subject, a minor in mathematics consists of three courses chosen with the approval of the department from Courses 30-35.

Elective: No restriction.

Curriculum O. Science (Biological).

Major subject: Nine credits from Botany 30-36; Zoology 30-32; and Physiology 20. Botany 1, 2, 3 or Zoology 1, 2, 3 may be taken by those who have not had the subject, but extra work should be done to make it equal to an upper class subject.

Minor subject: Any three of the above courses not taken as part of the major subject or three other credits in one department of study approved by the teacher of that department and by the teachers of biological science.

Elective: No restriction.

Curriculum P. Science (Physical).

Major subject: Physics and chemistry, six credits of either with three of the other.

Minor subject: Biology, mathematics, or geography, three credits in one of these with the approval of the department of the study chosen.

Elective: No restriction.

III. Preliminary curriculums for those who hold teachers' certificates:

1. For those who hold a first grade certificate. The completion of the four units (twelve credits) indicated in the tabular view of curriculums admits to any of the curriculums given under II.

2. For those who hold a second grade certificate. The completion of the eight units (twenty-four credits) indicated in the tabular view of curriculums admits to any of the curriculums given under II.

IV. Curriculum for those who have completed the ninth year; and also for graduates of the eighth year who are not less than sixteen years of age. A two-year curriculum is offered to prepare for teaching in country schools. Those who complete these two years are recommended for third grade teachers' certificates under the certificating law.

The completion of the sixteen units (forty-eight credits) listed in the tabular view of curriculums admits to any of the curriculums given under II.

		Graduates of the high school are admitted to a Normal School curriculum. Substitution for physics is permitted upon recommendation of the department of mathematics. Students wishing to take two electives in the XI. year will postpone physics to the XII. year.		Physical Education (2)	
		Students who complete the four years' work listed above are admitted to a Normal School curriculum. Upon the completion of the work of the X. and XI. years, they receive a statement that they have completed two years of work in preparation for teaching in a country school. Students who have not had Science 4, 5, 6 (including Physiology and Hygiene) take Science 4, 5, 6 instead of Botany 1, 2, 3.		English 7, 8, 9 Geography 1, 2, 3 Geometry 1, 2, 3 Elective 1, 2, 3	
				Physical Education (2)	
				English 7, 8, 9 Geography 1, 2, 3 Geometry 1, 2, 3 Physics 1, 2, 3 Elective 1, 2, 3	
				Physical Education (2)	
				The completion of the work listed in any one of the columns above admits a student to the junior class.	

1. A credit is the amount of work done in a prepared subject reciting five periods a week for a term of twelve weeks. In the junior year, reading and drawing together count one credit.

2. Each subject has five fifty-minute periods a week unless otherwise indicated by a number in parentheses; but laboratory sciences have five sixty-minute periods and manual arts and home economics require ten periods a week for full credit. In each five-period course, there is one unprepared recitation a week. One period from Education 20 and two from Education 21 may be used in the Training School for work in connection with the course in teaching.

3. Students who have had a year of geography in this school substitute elective credits for Geography 20, 21. Students who are graduates of our high school substitute an elective credit for biology. Those who have not had in high school a year of biology (botany or zoology) with laboratory work are required to take a second term of biology. This second term counts as an elective credit.

SENIOR HIGH SCHOOL

The Senior High School is open to those who have completed one, two, or three years in an accredited high school; or the ninth year of the Junior High School; or the work of a two-year high school. Full credit is allowed for work in accredited high schools and in the ninth year of the Junior High School; half credit is allowed for the work of a two-year high school. The ninth year of the Junior High School with the tenth, eleventh, and twelfth years of the Senior High School complete the work of a four-year high school. The High School Curriculum is given in the tabular view of curriculums.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION. The Training School consists of nine grades, the seventh, eighth, and ninth grades being organized as a Junior High School. Pupils who have completed the eighth grade of other schools are admitted to the ninth grade. Below the ninth grade, the number of pupils who can be accepted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur. All new pupils must present certificates of standing in the schools from which they come.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the supervisor of their intention to appear later. Attendance during the summer term does not give a claim to a place during the regular school year.

A fee of seventy-five cents is charged on the opening day of each of the three terms of the year. This fee meets the cost of supplies and of most of the texts used throughout the grades. No fee is charged for the summer term.

TRAINING TEACHERS. The immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, under the general direction of the supervisor, plan the work for their grades, discuss with the student teachers their plans for teaching their particular subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of classes in methods of teaching special subjects in the Normal School. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose. The school has nine training teachers. The teachers in other departments of the Normal School have in all cases an advisory relation to the Training School and in several cases a supervisory relation. In a few cases they assist in the teaching of their subjects in the Training School. This is true in the departments of music, drawing, industrial arts, home economics, and physical training.

PURPOSE. The purpose of the Normal School in maintaining a Training School is two-fold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Normal School. And to develop in the

students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

These results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING. All students graduating from the Normal School are required to take throughout their senior year a course in practice teaching. The first term of twelve weeks is spent under the direction of one training teacher, the second term is divided between two training teachers, and the third term, when the student-teacher has determined the grade in which his future teaching is to be done, is spent in training in that grade.

Student teachers are assigned to training teachers by the supervisor and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first term the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching throughout the quarter as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

OBSERVATION. A course in observation is required of juniors. The class meets for two periods a week during the spring term of the junior year for directed observation of the work in the Training School. The course is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades to which they wish to devote themselves.

DESCRIPTION OF COURSES

AGRICULTURE

30. FARM CROPS. A study of economic, cereal, and forage crops. Seed identification; crop requirements; insect enemies and diseases.

Required in the certificate course. Elective in XI, XII, and junior years. Five hours a week. One credit. Fall term.

31. SOIL PHYSICS. A study of the formation and classification of soils. Physical problems involved in soil management and plant growth.

Elective in XI, XII, and junior years. Five hours a week. One credit. Winter term.

32. HORTICULTURE. Fruit growing and vegetable gardening; spraying and pruning, insect enemies and diseases of fruit trees and vegetables, their habits and control.

Elective in XI, XII, and junior years. Five hours a week. One credit. Spring term.

33. STOCK JUDGING. Omitted 1919-1920.

34. FEEDS AND FEEDING. Omitted 1919-1920.

35. POULTRY AND DAIRYING. Omitted 1919-1920.

36. FARM MANAGEMENT. Farm buildings, equipment and farm implements; labor, capital, and managerial problems. Cropping systems and soil improvement.

Prerequisite: One credit in agriculture or permission of the instructor. Elective in the junior and senior years. Five hours a week. One credit. Fall term.

37. AGRICULTURAL EXTENSION. Programme outlined for country church and school to promote permanent agriculture. Work of the agricultural college, farmers' institute, country life clubs, and community centers.

Required in the country school course. Elective in junior and senior years. Five hours a week. One credit. Winter term.

38. FARM MECHANICS. Care and management of farm machinery. Farm motors, such as gasoline engines, tractors, and electric motors. Concrete: composition, strength, and properties. Problems in drainage.

Prerequisite: One credit in agriculture or permission of the instructor. Elective in junior and senior years. Five hours a week. One credit. Spring term.

39. ANIMAL AND PLANT BREEDING. Omitted 1919-1920.

40. FARM ARITHMETIC. *Omitted 1919-1920.*
 41. SOIL FERTILITY. *Omitted 1919-1920.*

DRAWING

ELEMENTARY COURSES

1, 2, 3. FIRST YEAR DRAWING. Nature study, still life, study of color, design, perspective, lettering, and composition.

Required in the first year of certificate course. Two hours a week. One credit. Course 1, fall term; Course 2, winter term; Course 3, spring term. Equivalent, summer term, Drawing 20, 21, 22.

COURSES FOR JUNIORS AND SENIORS

20, 21, 22. ELEMENTARY DRAWING. Nature study, still life, study and practice of color, design, perspective, lettering, composition, and poster work.

Required in junior year of all who have not had Drawing 1, 2, 3. Two hours a week. One-half of a credit. Drawing 20, fall and summer terms; Drawing 21, winter and summer terms; Drawing 22, spring and summer terms.

30, 31, 32. ADVANCED DRAWING. Nature drawing; applied design; composition; figure drawing; crafts; interior decoration; outdoor sketching; and poster work.

Prerequisite: Drawing 1, 2, 3, or Drawing 20, 21, 22. Elective in the junior and senior years. Five hours a week. One and a half credits for the three courses; no credit toward graduation for a part of the year's work. Course 30, fall term; Course 31, winter term; Course 32, spring term; partial equivalent offered each summer term.

33. CRAFTS. *Omitted 1919-1920.*

34. METHODS, Grades I-IV. *Omitted 1919-1920.*

35. METHODS, Grades V-VIII and in the High School. *Omitted 1919-1920.*

EDUCATION, TEACHING, AND OBSERVATION

EDUCATION

ELEMENTARY COURSE

1. PEDAGOGY. A course in rural school methods and management. It discusses the physical conditions of the schoolroom, the play ground and its use, the rural school curriculum, the Illinois Course of Study, etc. A part of the course consists in observation in the Training School with discussion of the lessons observed.

Required in the certificate course. Five hours a week. One credit. Spring and summer terms.

ADVANCED COURSES

20. PRINCIPLES OF EDUCATION. Through discussion of the nature and aims of education, foundations are laid for notions of educational values, selection of the curriculum, methods of teaching and the school management course which follows.

Required in the senior year. Five periods a week, one of which is used in the Training School. One credit. Fall, winter, and spring terms.

21. SCHOOL MANAGEMENT. This course accompanies the course in practice teaching and interprets the management of the Training School. Classroom social relations, routine, the daily programme, discipline, and the technique of teaching are discussed.

Required in the senior year. Five periods a week, two of which are used in the Training School. One credit. Fall, winter, and spring terms.

22. HISTORY OF EDUCATION. Omitted 1919-1920.

23. EDUCATIONAL SOCIOLOGY. Omitted 1919-1920.

24. PRIMARY EDUCATION. The course deals with reading, number, dramatization, story-telling, games, and other activities belonging to a primary school.

Required in the senior year in Curriculum A; elective in other curriculums. Five periods a week. One credit. Spring term.

TEACHING

20, 21, 22. A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

Required in the senior year. Five hours a week. Three credits. Fall, winter, and spring terms.

23. TEACHING IN THE THREE-YEAR CURRICULUM. This course gives practice teaching in the major subject of a three-year curriculum.

Required in the last year of each three-year curriculum. Five hours a week. One credit. Spring term.

30, 31, 32. Teaching may be elected in the senior year if permission is obtained.

Elective in the senior year. Five hours a week. Three credits. Fall, winter, and spring terms.

OBSERVATION

20. DIRECTED OBSERVATION OF THE WORK OF THE TRAINING SCHOOL. The course is designed to prepare students to meet the problems of teaching which they must meet in

their course in practice teaching, to enable them to see the application of their work in psychology; and to assist them in selecting the group of grades to which they wish to devote themselves.

Required in the junior year. Two hours a week. Spring term.

ENGLISH

ELEMENTARY COURSES

1, 2, 3. **ELEMENTS OF ENGLISH.** Elementary composition, with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech. Several good books read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours. Three credits. Every term.

4, 5, 6. **RHETORIC.** Chiefly description, narration, and exposition, both oral and written. Grammar review, continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in tenth year. Five hours. Three credits. Every term.

Students entering the Senior High School unable to carry English 4 are required to take one or more terms of *Elements of English* (see above) without credit.

7, 8, 9. **ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.** Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours. Three credits. Course 7, fall term; Course 8, winter term; Course 9, spring term.

ADVANCED COURSES

20. **COMPOSITION.** Intended primarily to insure a fairly adequate equipment in English to prospective teachers. Clearness in thought and expression, with correctness in grammar and spelling, insisted upon. Further work required of all who, upon completing the course, fail to meet a definite standard of proficiency, this proficiency to be at-

tested by the work done not only in the English class but in all others.

Required in the junior year. Five hours. One credit. Every term.

21. GRAMMAR. An elementary course in the science of modern English grammar, which gathers together the most important facts about the sentence and parts of speech.

Required in the junior year. Five hours. One credit. Fall, winter, and summer terms.

Any student who has offered English 21a and 21b (given in the summer term) as part equivalent for English 1, 2, 3 is required to substitute some other course in English for Course 21.

22. LITERATURE IN THE GRADES.. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the junior year unless Course 24 is taken; elective in any curriculum. Five hours. One credit. Spring and summer terms.

23. LITERATURE AND STORY-TELLING, Grades I to IV. *Omitted 1919-1920.*

24. TEACHING OF ENGLISH. The English work of the upper grades, covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, and methods of teaching.

Prerequisites: English 20 and 21. Required in the junior year unless Course 22 is taken; elective in any curriculum. Five hours. One credit. Spring and summer terms.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary to furnish him with standards of judgment.

Elective. Five hours. Two credits. Course 30, fall term; Course 31, winter term.

32, 33. MODERN ENGLISH POETRY. *Omitted 1919-1920.*

34. AMERICAN PROSE. A study of American prose in its various forms from the early times to the present, including orations, essays, novels, and short stories.

Elective. Five hours. One credit. Spring term.

35. AMERICAN POETRY. *Omitted 1919-1920.*

36. MODERN DRAMA. *Omitted 1919-1920.*

37. ADVANCED RHETORIC. *Omitted 1919-1920.*

38. CONTEMPORARY LITERATURE. *Omitted 1919-1920.*

FOREIGN LANGUAGE

FRENCH

1J, 2J, 3J. FIRST YEAR FRENCH, JUNIOR HIGH SCHOOL. Fraser and Squair's Shorter French Course. *Petits Contes de France*.

Prerequisite: French 1, to French 2; French 2, to French 3. Elective ninth year. Five hours a week. Three credits. French 1, fall term; French 2, winter term; French 3, Spring term.

4J, 5J, 6J. SECOND YEAR FRENCH. Fraser and Squair's Shorter French Course. Malot's *Sans Famille*; other texts to be selected. Sight reading of easy French prose. Composition. Conversation.

Prerequisite: French 1J, 2J, 3J; also French 4J, to French 5J, and French 5J, to French 6J. Elective, tenth year. Five hours a week. Three credits. French 4J, fall term; French 5J, winter term; French 6J, spring term.

1, 2, 3. FIRST YEAR FRENCH. Fraser and Squair's Shorter French Course. A careful study of grammatical rules and of pronunciation. *Petits Contes de France*; Malot's *Sans Famille*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1, to French 2; French 2, to French 3. Elective in any year of any curriculum, but additional work in reading and composition is required of juniors and seniors. Five hours a week. Three credits. French 1, fall term; French 2, winter term; French 3, spring term.

4, 5, 6. SECOND YEAR FRENCH. Fraser and Squair's Complete French Grammar. L'Abbe Constantin. *Tartarin de Tarascon*. Other books to be selected. Sight reading; conversation; composition.

Prerequisite: French 1, 2, 3 or equivalent. Elective in any year of any curriculum, but additional work in reading and in composition is required of juniors and seniors. Five hours a week. Three credits. French 4, fall term; French 5, winter term; French 6, spring term.

GERMAN

Omitted 1919-1920.

LATIN

ELEMENTARY COURSES

1, 2, 3. FIRST YEAR LATIN. A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1, to Latin 2; Latin 2, to Latin 3.

Elective in any year of any curriculum. Five hours a week. Three credits. Latin 1, fall term; Latin 2, winter term; Latin 3, spring term.

4, 5, 6. SECOND YEAR LATIN. Caesar, Bks. I-IV with selections from the other books. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Elective in any year of any curriculum. Five hours a week. Three credits. Latin 4, fall term; Latin 5, winter term; Latin 6, spring term.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. Elective in any year of any curriculum. Five hours a week. Three credits. Latin 7, fall term; Latin 8, winter term; Latin 9, spring term.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Bks. I-VI. Omitted 1919-1920.

ADVANCED COURSES

30. LIVY, SELECTIONS.

Prerequisite: Fours years of elementary Latin. Elective. Five hours a week. One credit. Fall term.

31. CICERO, DE AMICITIA AND DE SENECTUTE.

Prerequisite: Course 30. Elective. Five hours a week. One credit. Winter term.

32. HORACE, ODES AND EPODES.

Prerequisite: Course 31. Elective. Five hours a week. One credit. Spring term.

33. VIRGIL, AENEID, Bks. VII-XII. Omitted 1919-1920.

34. HORACE, SATIRES AND EPISTLES. Omitted 1919-1920.

35. LATIN COMEDY. Omitted 1919-1920.

36. OVID, METAMORPHOSES. Omitted 1919-1920.

37. PLINY, LETTERS. Omitted 1919-1920.

38. THE TEACHING OF LATIN. Omitted 1919-1920.

39. LATIN WRITING. Omitted 1919-1920.

GEOGRAPHY

ELEMENTARY COURSES

1. PHYSIOGRAPHY. Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Required in the twelfth and XI, C years. Five hours a week. One credit. Fall and summer terms.

2. **PHYSIOGRAPHY.** A continuation of Course 1.

Prerequisite: Course 1. Required in the twelfth and XI, C years. Five hours a week. One credit. Winter and summer terms.

3. **GEOGRAPHY OF NORTH AMERICA.**

Prerequisite: Course 2. Required in the twelfth and XI, C years. Five hours a week. One credit. Spring term.

ADVANCED COURSES

20. **PHYSIOGRAPHY.** Land and water, mathematical geography.

Required in the junior year of those who have not had Courses 1 and 2. Five hours a week. One credit. Fall, spring, and summer terms.

21. **PHYSIOGRAPHY.** Climate, vegetation, the application of geographical principles and the method of attack in regional geography as illustrated by the general study of a continent and the detailed study of a country.

Prerequisite: Course 20. Required in the junior year of those who have not had Courses 1, 2, and 3. Five hours a week. One credit. Winter term.

30. **GEOGRAPHY OF NORTH AMERICA.** Omitted 1919-1920.

31. **GEOGRAPHY OF SOUTH AMERICA.**

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Five hours a week. One credit. Fall and summer term, 1919.

32. **GEOGRAPHY OF EUROPE.**

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Elective. Five hours a week. One credit. Winter term.

33. **GEOGRAPHY OF ASIA, AFRICA, AND AUSTRALIA.**

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Elective. Five hours a week. One credit. Spring term.

34. **METEOROLOGY.** Omitted 1919-1920.

35. **ADVANCED PHYSIOGRAPHY.** Omitted 1919-1920.

36. **GEOLOGY.** Omitted 1919-1920.

37. **THE TEACHING OF GEOGRAPHY.** Omitted 1919-1920.

38. **ECONOMIC AND COMMERCIAL GEOGRAPHY.** Omitted 1919-1920.

39. **ECONOMIC GEOGRAPHY OF THE UNITED STATES.** Omitted 1919-1920.

HISTORY, GOVERNMENT, AND ECONOMICS

HISTORY

ELEMENTARY COURSES

1. ANCIENT HISTORY TO THE RISE OF GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. Fall term. One credit.

2. THE GREEKS AND GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One credit. Winter term.

3. THE ROMAN REPUBLIC AND EMPIRE AND THE BARBARIAN INVASIONS.

Elective in the tenth year. Five hours a week. One credit. Spring term.

4. THE HISTORY OF ENGLAND TO 1400.

Required in the eleventh year. Five hours a week. One credit. Fall term.

5. THE HISTORY OF ENGLAND, 1400-1689.

Required in the eleventh year. Five hours a week. One credit. Winter term.

6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1689 TO THE PRESENT.

Required in the eleventh year. Five hours a week. One credit. Spring term.

7. AMERICAN HISTORY TO 1789.

Elective in the twelfth year. Five hours a week. One credit. Fall term.

8. THE HISTORY OF THE UNITED STATES, 1789-1860.

Elective in the twelfth year. Five hours a week. One credit. Winter term.

9. THE HISTORY OF THE UNITED STATES, 1860 TO THE PRESENT.

Elective in the twelfth year. Five hours a week. One credit. Spring term.

ADVANCED COURSES

The requirement of History 20 and History 21 for seniors may be fulfilled by selecting any two consecutive terms of either European or American history.

30. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1648.

Elective in the junior and senior years. Five hours a week. One credit. Fall term.

31. THE HISTORY OF EUROPE, 1648-1715.

Elective in the junior and senior years. Five hours a week. One credit. Winter term.

32. THE HISTORY OF EUROPE, 1715 TO THE PRESENT.

Elective in the junior and senior years. Five hours a week. One credit. Spring term.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1789.

Elective in the junior and senior years. Five hours a week. One credit. Fall term.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1789-1860.

Elective in the junior and senior years. Five hours a week. One credit. Winter term.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1860 TO THE PRESENT.

Elective in the junior and senior years. Five hours a week. One credit. Spring term.

GOVERNMENT

ELEMENTARY COURSES

1. STATE AND LOCAL CIVIL GOVERNMENT.

Elective in the eleventh and twelfth years. Five hours a week. One credit. Fall, spring, and summer terms.

2. THE NATIONAL GOVERNMENT.

Elective in the eleventh and twelfth years. Five hours a week. One credit. Winter and summer terms.

ADVANCED COURSES

30. STATE AND LOCAL GOVERNMENT.

Elective in the junior and senior years. Five hours a week. One credit. Fall term.

31. THE NATIONAL GOVERNMENT.

Elective in the junior and senior years. Five hours a week. One credit. Winter term.

32. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 31. Elective in the junior and senior years. Five hours a week. One credit. Spring term.

ECONOMICS

30. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relations to present economic problems.

Elective in the junior and senior years. Five hours a week. One credit. Fall term.

31. THE PRINCIPLES OF ECONOMICS.

Elective in the junior and senior years. Five hours a week. One credit. Winter term.

32. THE PRINCIPLES OF ECONOMICS, and their application to present day economic problems.

Prerequisite: Course 31. Elective in the junior and senior years. Five hours a week. One credit. Spring term.

HOME ECONOMICS

ELEMENTARY COURSE

In the ninth and XI, C years, girls have two hours a week in home economics, the course including work in sewing and cooking.

ADVANCED COURSES

DOMESTIC SCIENCE

30. FOOD PRINCIPLES AND THE THEORY OF NUTRITION. Selection and preparation of foods, including: Beverages, fruits, vegetables, cereals, starches, and sugars.

Elective in the eleventh year and above. Five hours a week. One half of a credit, when followed by Courses 31 and 32. Fall and summer terms.

31. PROTEIN FOODS. Milk, eggs, cheese, meats, gelatin, and salads.

Elective in the eleventh year and above. Five hours a week. One half of a credit, when followed by Course 32. Winter term.

32. BATTERS AND DOUGHS. Leavening agents, pastry, bread, and cakes.

Elective in the eleventh year and above. Five hours a week. One half of a credit when preceded by Course 30 and Course 31, making one and a half credits for the year's work. Spring term.

33. EXPERIMENTAL COOKERY. *Omitted 1919-1920.*

34. INVALIDS' AND CHILDREN'S DIETS. *Omitted 1919-1920.*

35. PLANNING AND SERVING OF MEALS. *Omitted 1919-1920.*

36. HOUSEHOLD CHEMISTRY. *Omitted 1919-1920.*

37. DIETETICS. *Omitted 1919-1920.*

38. METHODS. *Omitted 1919-1920.*

DOMESTIC ART

30. HAND SEWING. Various hand stitches and their application to problems that may be used in the grades or in rural schools. Mending, crocheting, and knitting.

Elective in the eleventh year and above. Five hours a week. One half of a credit when followed by Course 31 and Course 32. Fall and summer terms.

31, 32. MACHINE SEWING. The use of machines and their attachments applied to garment making. Pattern making.

Elective in the eleventh year and above. Five hours a week. One credit when preceded by Course 30. Course 31, winter term; Course 32, spring term.

33, 34, 35. COSTUME DESIGN, PATTERN MAKING, MILLINERY.

Elective in the twelfth year and above. Five hours a week. One and a half credits. Course 33, fall term; Course 34, winter term; Course 35, spring term.

36. TEXTILES. Omitted 1919-1920.

37. HOUSEHOLD MANAGEMENT. Omitted 1919-1920.

38. METHODS. Omitted 1919-1920.

THE USE OF THE LIBRARY

Certain courses offered in the school require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh and junior years. An effort is made to have these lessons prepare for library work required of students in other courses.

1. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall or winter terms.

20. THE USE OF THE LIBRARY. Advanced Course.

Required in the junior year. One hour a week. Fall, winter, or spring term.

MANUAL ARTS

20, 21. PRIMARY GRADE WORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work.

Required in the senior year. Three periods a week. One

half of a credit. Course 20, every term; Course 21, winter, spring, and summer terms.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, simple perspective, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Elective in any year of any curriculum. Five sixty-minute periods a week. One half of a credit. Fall and summer terms.

31, 32. MECHANICAL DRAWING. Isometric and cabinet projection, elementary furniture design principles and developments. A practical course in machine design. Lectures, demonstration, and applications, supplemented by textbook work.

Prerequisite: Course 30; also Course 31 to Course 32. Elective in any year of any curriculum. Five sixty-minute periods a week. Course 31, one half of a credit; Course 32, one half of a credit. Course 31, winter term; Course 32, spring term.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstration, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Elective in any year of any curriculum. Five sixty-minute periods a week. One half of a credit. Fall and summer terms.

34, 35. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstration, and applications.

Prerequisite: Course 33; also Course 34 to Course 35. Elective in any year of any curriculum. Five sixty-minute periods a week. Course 34, one half of a credit; Course 35, one half of a credit. Course 34, winter term; Course 35, spring term.

36, 37. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Students pay for material used and are allowed to take the furniture home at the end of the school year.

Prerequisite: Course 35. Elective in the eleventh year

and above. Five two hour periods a week. Course 36, one credit; Course 37, one credit. Course 36, fall and summer terms; Course 37, winter term.

38. BUILDINGS AND EQUIPMENT FOR MANUAL ARTS WORK; Prices and supplies. Library assignments and reports. A careful study of wood finishes and their application. A continuation of Course 37 in that one piece of superior cabinet work of original but approved design is made.

Prerequisite: Course 37. Elective in the eleventh year and above. Five two hour periods a week. One credit. Spring term.

39. WOOD TURNING AND PATTERN MAKING. Omitted 1919-1920.

40, 41. MACHINE SHOP PRACTICE. Omitted 1919-1920.

MATHEMATICS

1. ARITHMETIC 1. Notation and numeration, the fundamental operations with integers and with common and decimal fractions, the English and metric systems of weights and measures.

Required in the first year of the country school course. Five hours a week. One credit. Fall term.

2. ARITHMETIC 2. Percentage and its applications.

Required in the first year of the country school course. Five hours a week. One credit. Winter term.

3. ARITHMETIC 3. Square root and mensuration. In all courses in arithmetic careful attention is given to methods of teaching.

Required in the first year of the country school course. Five hours a week. One credit. Spring term.

4. ALGEBRA 1. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, an introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One credit. Fall, winter, and summer terms.

5. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio, proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One credit. Fall, winter, spring, and summer terms.

6. ALGEBRA 3. Simple equations in two or more un-

knowns; square root and its applications; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One credit. Winter, spring, and summer terms.

7. GEOMETRY 1. Plane Geometry. Book I.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One credit. Fall and spring terms.

8. GEOMETRY 2. Books II and III.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One credit. Fall and winter terms.

9. GEOMETRY 3. Books IV and V.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One credit. Winter and spring terms.

20. ARITHMETIC. The topics taken up in this course and the following one are essentially the same as in Arithmetic 1, 2, 3, but the work is more advanced and a knowledge of elementary algebra and geometry is assumed.

Required in the junior year. Five hours a week. One credit. Every term including the summer term.

21. ARITHMETIC. A continuation of the preceding course.

Required in the junior year. Five hours a week. One credit. Every term including the summer term.

30. SOLID GEOMETRY. Books VI, VII, and VIII.

Prerequisite: Geometry 3. Elective in the eleventh year and above. Five hours a week. One credit. Fall term.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective in the eleventh year or above. Five hours a week. One credit. Winter term.

32. ALGEBRA. Exponents and radicals; logarithms; binomial theorem; progressions; permutations and combinations; theory of equations, including elementary transformations, location of roots, and solution of cubic equation; elementary properties of series.

Prerequisite: Algebra 31. Elective in the eleventh year or above. Five hours a week. One credit. Spring term.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deductions of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Elective in the twelfth year or above. Five hours a week. One credit. Fall term.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Elective in the twelfth year or above. Five hours a week. One credit. Winter term.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: 34, plane analytic geometry. Elective in the twelfth year or above. Five hours a week. One credit. Spring term.

36. THE TEACHING OF HIGH SCHOOL MATHEMATICS. Omitted 1919-1920.

SCIENCE (BIOLOGICAL)

GENERAL BIOLOGY

One term of general biology is required in the junior year except in the case of students who have had a year of botany in this school; these students take any elective credit instead of general biology. A second term of general biology is required of juniors who have not had in their high school course a year of biological science (botany or zoology) with laboratory work; this second term is credited as elective. The course or courses may be taken from Courses 20, 21, 25, 26 in general biology; or from Courses 1, 2, 3, 30-35, in zoology; or from Courses 30-36 in botany. Students who have had a year of botany should not take Biology 25. Otherwise courses in general biology may be taken as elective in any curriculum in which they are not required.

20. LIFE-PROCESSES OF ANIMALS. Motion, digestion, breathing, excretion, and reproduction. Comparisons with similar processes in plants made. The animal kingdom considered in a general way, but an evolutionary series of typical forms given special attention. The minimum amount of anatomy for the understanding of the life-processes studied.

Required of juniors, except those who take Course 25 or are graduates of the high school department of the Normal School. Five periods a week. One credit. Fall term.

21. ANIMAL ECOLOGY. Life-histories of animals and their relations to man. Birds, insects, and other forms suitable for elementary science work in graded schools are given especial attention. Methods of collecting and preparing material and recording observations in field and laboratory are made a prominent part of the course.

Required of juniors, who have not had in their high school course a year of biological science with laboratory work and who do not take Course 20. Five periods a week. One credit.

25. PLANT BIOLOGY. This course is planned for those who have had little or no botany. Brief resume of plant groups, structures, and activities; bacteria in relation to disease; botanical aspects of food production and food conservation.

Required or elective (see above). Five periods a week. One credit. Spring term.

BOTANY

ELEMENTARY COURSES

1. MORPHOLOGY OF THE LOWER PLANTS. Bacteria, algae, fungi, moss-plants, and fern-plants.

Required in the tenth year. Five sixty minute periods a week. One credit. Fall term.

2. MORPHOLOGY OF SEED-PLANTS. Origin and development of the highest plant groups; orders and common families of flowering plants.

Prerequisite: Botany 1. Required in the tenth year. Five sixty-minute periods a week. One credit. Winter term.

3. PROCESSES AND ADJUSTMENTS OF PLANTS. Ordinary activities of plants and common relations to environment. Physiological experiments, study of structure as modified by varied exposure to external conditions, and of specialized parts of plants.

Prerequisite: Botany 2. Required in the tenth year. Five sixty-minute periods a week. One credit. Spring term.

ADVANCED COURSES

Students who have had no botany may take Courses 1, 2, 3 as electives.

30. PLANT ECOLOGY. The factors of the environment, and an introduction to community relations of plants. Field study of nearby forest and prairie vegetation, giving acquaintance with many native plants.

Prerequisite: One credit in botany. Elective in the eleventh year or above; or accepted for Biology 25 or 26. Five sixty-minute periods a week. One credit. Fall term.

31. THE LOCAL FLORA. Collection, identification and preservation of plants of the vicinity. Develops acquaintance with common plant families and larger groups. Spring flowers receive special attention.

Prerequisite: One credit in botany. Elective in the

eleventh year or above; or accepted for Biology 25 or 26. One credit. Summer term, 1919 and spring term, 1920.

32. EVOLUTION OF FLOWERING PLANTS. *Omitted 1919-1920.*

33. PLANT GEOGRAPHY OF NORTH AMERICA. *Omitted 1919-1920.*

34. GENERAL PLANT GEOGRAPHY. *Omitted 1919-1920.*

35. ECONOMIC BOTANY. The botany of economic plants. Food, forage, fiber, fuel and drug plants, garden plants, plants of miscellaneous uses, parasites, and weeds. This and Course 36 are of value to students of agriculture, economics, and commercial geography.

Prerequisite: One credit in botany. Elective in the eleventh year or above; or accepted for Biology 25 or 26. One credit. Winter term.

36. FOREST BOTANY. The botany of forests and forest trees. Classification and identification of trees, a synopsis of tree families and species, and brief consideration of the technical subjects and methods of forestry.

Prerequisite: One credit in botany. Elective in the eleventh year or above; or accepted for Biology 25 or 26. One credit. Summer term, 1919.

HUMAN PHYSIOLOGY ELEMENTARY COURSES

1, 2. Life-processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year and in the first year of the certificate curriculum. Five periods a week. Two credits. Equivalent offered in the summer term, Physiology 20 and Hygiene 20. Winter and spring terms.

ADVANCED COURSES

20. PHYSIOLOGY. Similar to Courses 1, 2, but more advanced with special attention to the digestive system, the nervous system, and sense organs.

Required of seniors in the adjustment curriculum in 1919-1920, and elective in any curriculum. Five periods a week. One credit. Winter, spring, and summer terms.

20. HYGIENE. *Omitted 1919-1920.*

ZOOLOGY

ELEMENTARY COURSES

1. ELEMENTARY INVERTEBRATE ZOOLOGY. Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life-processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh year and above and accepted for Biology 20 or 21. Five sixty-minute periods a week. One credit. Fall and alternate summer terms.

2. ELEMENTARY VERTEBRATE ZOOLOGY. Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds, and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh year and above and accepted for Biology 20 or 21. Five sixty-minute periods a week. One credit. Winter term and alternate summer terms.

3. FIELD ZOOLOGY. Life-histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region, which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh year and accepted for Biology 20 or 21. Five sixty-minute periods a week. One credit. Spring and summer terms.

ADVANCED COURSES

30, 31, 32. ADVANCED ZOOLOGY AND SPECIAL METHODS. A study of fresh-water animals and their environment. Much attention is given to the common and important species of aquatic vertebrates with a view to familiarizing students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoology 1, 2. Elective in the twelfth year and above and accepted for Biology 20 or 21. Five sixty-minute periods. One credit. Course 30, fall term; Course 31, winter term; Course 32, spring term.

SCIENCE (PHYSICAL)

GENERAL SCIENCE

1, 2, 3. Work in general science in the first two years of the Junior High School includes the physics and chemistry of air and water, humidity, weather, the seasons, water supply, and sewage disposal, food manufacture by plants, the use of food by plants and animals, germ diseases, and selected topics from physics such as nature of sound, of light, of heat; machines; magnetism and current electricity. Classes recite twice a week in this subject in the grades VII and VIII.

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year and accepted in the first year of the certificate curriculum. Five periods a week. Fall term.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology, Courses 1, 2.

PHYSICS

1, 2, 3. ELEMENTARY PHYSICS. Mechanics; heat, sound, light, electricity.

Prerequisite: Geometry 1, 2, 3. Required in the eleventh year; elective in the junior and senior years. Five sixty-minute periods a week. Course 1, fall term; Course 2, winter term; Course 3, spring term.

30, 31, 32. ADVANCED PHYSICS. Omitted 1919-1920.

CHEMISTRY

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Elective in the eleventh year and above. Five sixty-minute periods a week. Three credits. Course 1, fall and summer terms; Course 2, winter term; Course 3, spring term.

30, 31, 32. ADVANCED CHEMISTRY. Omitted 1919-1920.

33. HOUSEHOLD CHEMISTRY. Omitted 1919-1920.

SCHOOL MUSIC

ELEMENTARY COURSES

1. ELEMENTARY SIGHT SINGING AND EAR TRAINING. The course is a study of the major scale, note values, rhythms, key signatures, and the elements of notation.

Required in the first year of the certificate course. Two hours a week. One-third of a credit. Fall and summer terms.

2, 3. SIGHT SINGING AND EAR TRAINING. This course includes a study of minor scales, and a short course in

transposition and melody writing. Songs and exercises in two, three, and four part songs, intervals and triads are studied. Some attention is paid to work in methods, with a study of the development, care, and preservation of the child voice, and discussion of materials for use in the grades.

Prerequisite: Course 1. Required in the first year of the certificate curriculum. Two hours a week. One-third of a credit for Course 2; one-third of a credit for Course 3. Course 2, winter and summer terms; Course 3, spring and summer terms.

ADVANCED COURSES

20. MUSIC METHODS. A specific study of methods, including a study of the development, care, and preservation of the child voice and special practice in producing good tone patterns for children; it also includes discussion of materials for use in the grades. Some attention is paid to sight singing and ear training.

Required in the senior year. Two hours a week. One half of a credit. Fall term.

21. MUSIC METHODS. A continuation of Course 20.

Required in the senior year unless Course 22 is taken. Two hours a week. One half of a credit. Winter term.

22. PRIMARY SONGS.

Required in the senior year unless Course 21 is taken. Two hours a week. One half of a credit. Spring term.

30. PUBLIC SCHOOL MUSIC. The first part of this course is a review of sight singing and ear training. Then a survey of music in the public schools is made, with special emphasis on methods, and a careful study of child voice.

Prerequisite: Music 20 or the equivalent. Elective in the junior and senior years. Five hours a week. One half of a credit when followed by Music 31 and 32, thus giving one and a half credits for Music 30, 31, 32.

31, 32. PUBLIC SCHOOL MUSIC. This course includes practice in conducting, chorus selection and arrangement. Materials for use in the public schools are discussed and examined. Some attention is given to melody writing, and to a study of the development of music.

Prerequisite: Music 30 or its equivalent. Elective in the junior and senior years. Five hours a week. One credit when preceded by Music 30, thus giving one and a half credits for Music 30, 31, 32. No credit toward graduation for less than one and a half credits in public school music.

INSTRUMENTAL MUSIC

In beginning classes in piano, from two to four pupils are admitted to one hour lessons in each class, while only two pupils receive instruction at the same time in the more advanced classes.

30, 31, 32. PIANO, FIRST YEAR. The course has to do with hand culture, touch, notation, rhythm, and ear training.

Elective in the eleventh year and above. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Fall, winter, and spring terms.

33, 34, 35. PIANO, SECOND YEAR.

Prerequisite: Courses 30, 31, 32 or the equivalent. Elective in the eleventh year and above. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Fall, winter, and spring terms.

36, 37, 38. PIANO, THIRD YEAR.

Prerequisite: Courses 33, 34, 35 or the equivalent. Elective in the eleventh year and above. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Fall, winter, and spring terms.

VOICE TRAINING

Special stress is laid on correct breathing, correct placing of the singing and speaking voice, distinct enunciation and artistic interpretation, development and control of the emotional faculties, physical and mental development, tone quality and registers.

30, 31, 32. VOICE TRAINING, FIRST YEAR.

Elective in the eleventh year and above. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Fall, winter, and spring terms.

33, 34, 35. VOICE TRAINING, SECOND YEAR.

Prerequisite: Courses 30, 31, 32 or the equivalent. Elective in the eleventh year or above. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Fall, winter, and spring terms.

36, 37, 38. VOICE TRAINING, THIRD YEAR.

Prerequisite: Courses 33, 34, 35 or the equivalent. Elective in the eleventh year or above. Two lessons a week. One and a half credits. No credit toward graduation for

fewer than three credits in vocal music. Fall, winter, and spring terms.

PHYSICAL EDUCATION FOR MEN

ELEMENTARY COURSES

1, 2, 3. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required of first year students in all curriculums. Two hours a week. Course 1, fall term; Course 2, winter term; Course 3, spring term.

4, 5, 6. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work will be on the athletic field and consist of games and track work. The course includes lectures on hygiene and kinesiology.

Prerequisite: Courses 1, 2, 3. Required of second year students in all curriculums. Two hours a week. Course 4, fall term; Course 5, winter term; Course 6, spring term.

ADVANCED COURSES

30, 31, 32. COACHING FOR MEN. This course includes coaching for foot ball, basket ball, base ball, and track. It is mainly classroom work and is for those who expect to have charge of athletics in high schools.

Prerequisite: Courses 4, 5, 6. Elective in the eleventh year and above. Three hours a week. One and a half credits. Course 30, fall term; Course 31, winter term; partial equivalent, summer term.

PHYSICAL EDUCATION FOR WOMEN

ELEMENTARY COURSES

1, 2, 3. FIRST YEAR. Swedish gymnastics, elementary apparatus work, games, athletics, fancy steps, folk and gymnastic dancing.

Required in the first year of every curriculum. Two hours a week. Course 1, fall term; Course 2, winter term; Course 3, spring term.

4, 5, 6. SECOND YEAR. Advanced Swedish gymnastics, apparatus work, games, athletics, fancy steps, folk and aesthetic dancing.

Prerequisite: Physical Education 1, 2, 3. Two hours a week. Course 4, fall term; Course 5, winter term; Course 6, spring term.

7, 8, 9. CORRECTIVE GYMNASTICS. A substitute for the

regular gymnastic work for those who are physically weak and treatment for those who have flat feet, spinal curvatures, and other remediable defects.

ADVANCED COURSES

20, 21, 22. THEORY OF PHYSICAL EDUCATION AND PRACTICE TEACHING. History of physical education, Swedish Kinesiology, instruction in preparing and teaching gymnastics, games, and dances; and practice teaching.

Prerequisite: Physical Education 1, 2, 3. Required in the senior year. Two hours a week. Course 20, fall term; Course 21, winter term; Course 22, spring and summer terms.

30, 31, 32. FOLK, GYMNASMIC, AND AESTHETIC DANCING.

Prerequisite: Physical Education 1, 2, 3, 4, 5 6. Elective. Two hours a week. Course 30, fall term; Course 31, winter term; Course 32, spring term.

PSYCHOLOGY

20, 21. INTRODUCTION TO PSYCHOLOGY. The first aim in psychology is to see that the student possesses a body of properly classified psychological knowledge, and to give him a proper method of acquiring such knowledge. His attention is directed to the working of his own mind in such a manner as to make introspection fairly accurate. He is also directed to study the process of mental action in others as manifested in conduct. The student is introduced to the works of trained observers of the human mind that he may see through their eyes and thus correct his own somewhat crude observations. A careful application of the principles discovered and acquired is made to the problem of teaching, and it is impressed upon the student that a scientific statement of a psychological principle is a much easier thing than its ready application to the learning mind. Directed observation of the work of the Training School and discussion of the work observed are a part of this course.

Required in the junior year. Five hours a week. Two credits. Every term.

30. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurement of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Op-

portunity is given for the development through practice of some skill in the application of tests and the employment of scales.

Prerequisite: Course 20 with recommendation of the instructor. Elective in the junior and senior years. Five hours a week. One credit. Winter and summer terms.

31. EDUCATIONAL PSYCHOLOGY. This course makes a more detailed study than is possible in Courses 20 and 21 of the special technique of learning and of the acquisition of skill. Experiments and demonstrations are carried on in the trial and error method of motor learning; in memorizing, in transfer of training, in imagery characteristics, in fatigue effects and in the rate of learning. Consideration is given to the special mental traits of children and of adolescents and to the significance of these traits for school procedure.

Prerequisite: Course 20 with recommendation of the instructor. Elective in the junior and senior years. Five hours a week. One credit. Spring term.

PART III
LISTS

THE NORMAL SCHOOL BULLETIN

The Normal School Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the school, free of charge. The numbers issued are:

1. A Suggestion for Teaching Shakespeare's Dramas, by *Thomas H. Briggs, Jr., A. B.*
2. Method of Teaching, by *Francis G. Blair, B. S.*
3. The Causal Idea of History, by *Roswell C. McCrea, Ph. D.*
4. Some of the Objects of Studying English Grammar, by *W. M. Evans, Litt. D.*
5. The School Garden, by *Otis W. Caldwell, Ph. D.*
6. Manual Training, by *Caroline A. Forbes.*
7. The School Library, by *Florence M. Beck, B. L. S.*
8. Graphic Arithmetic, by *E. H. Taylor, B. S.*
9. Reading in the Grades, by *Katharine Gill.*
10. The Relation of the Home and School, by *Charlotte May Slocum.*
11. Bird Study in the Rural School, by *Thomas L. Hankinson, B. S.*
12. Bird Study in the Rural School (Second Edition), by *Thomas L. Hankinson, B. S.*
13. Physics in the High School, by *Albert B. Crowe, A. M.*
14. Some Suggestions for the Teaching of Geography in the Grades, by *Annie L. Weller, B. S.*
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, by *Clara M. Snell.*
16. English Composition in Secondary Schools—Topic: Correct English, by *Florence V. Skeffington, A. B.*
17. The Study of Literature in the Upper Grades, by *Isabel McKinney, A. M.*
18. Announcement of the Summer Session of 1907.
19. Annual Catalogue Number, 1906-1907.
20. The School Garden II, by *Otis W. Caldwell, Ph. D.*
21. Announcement of the Summer Session of 1908.
22. Annual Catalogue Number, 1907-1908.
23. Some Problems in Education, by *John M. Coulter, Ph. D.*
24. Announcement of the Summer Session of 1909.
25. Annual Catalogue Number, 1908-1909.
26. Education and Utility, by *W. C. Bagley, Ph. D.*
27. Announcement of the Summer Session of 1910.
28. Annual Catalogue Number, 1909-1910.
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), by *Katharine Gill.*
31. Announcement of the Summer Session of 1911.
32. The Annual Invitation Athletic and Oratorical Meet, held at the Eastern Illinois State Normal School.
33. Annual Catalogue Number, 1910-1911.
34. Schoolroom Gymnastics and Graded Games, by *Alice M. Christiansen.*
35. Announcement of the Summer Session, 1912.
36. Annual Catalogue Number, 1911-1912.

37. Views of the Buildings and Grounds.
38. Arguments for Vocational Guidance, *by E. E. Lewis, A. M.*
39. Announcement of the Summer Session of 1913.
40. Annual Catalogue Number, 1912-1913.
41. English Literature in Secondary Schools: The Rise of the Drama in England; Outlines for the Study of Literature, *by DeWitt C. Sprague, Ph. B.*
42. Preliminary Announcement of the Summer Session of 1914.
43. Announcement of the Summer Session of 1914.
44. Alumni Register, 1900-1913.
45. Annual Catalogue Number, 1913-1914.
46. Material on Geography (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
47. Preliminary Announcement of the Summer Session of 1915.
48. Announcement of the Summer Session of 1915.
49. Annual Catalogue Number, 1914-1915.
50. Lists of Material (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
51. Announcement of the Summer Session of 1916.
52. Annual Catalogue Number, 1915-1916.
53. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
54. Material on Geography (which may be obtained free or at small cost), Revised Edition, *by Mary Josephine Booth, A. B., B. L. S.*
55. Announcement of the Summer Session of 1917.
56. Annual Catalogue Number, 1916-1917.

THE ALUMNI ASSOCIATION

Wednesday of commencement week is Alumni Day. Returning graduates attend morning exercises at nine o'clock and the alumni reception at eight o'clock in the evening. It is customary to have in the afternoon a ball game between members of the regular team and players on former teams. A large number of alumni attended the nineteenth anniversary celebration last year.

The officers of the association are:

Miss Antha E. Endsley, '12, President.

Miss Loel Zehner, '18, Vice-President.

Miss Anna M. Dwyer, '13, Secretary and Treasurer.

Executive Committee

Miss Nelle C. Hutchason, '16, Chairman.

Miss M. Pauline Cottingham, '18.

Miss Mary Crowe, '18.

Miss Mary S. Linder, '15.

Miss Mary B. Roderus, '17.

Standing Committee for Advancing the Interests of the School

Mr. Warren L. Hagan, '07.

Mrs. Runie T. Robinson Oliver, '12.

Mr. Leonard E. Davis, '08.

ALUMNI CLUBS

The Charleston Club of Chicago and the Charleston Club of the University of Illinois are organizations of former students of this school. These clubs meet occasionally in a very pleasant way and all former students or teachers, living in or near these centers, will be notified of these meetings if they will send their names to the secretary. Mail addressed in the care of The University of Chicago and The University of Illinois will reach these officers.

The officers of the Charleston Club of Chicago are:

Mr. William R. Meeker, President.

Miss Ruth Hostettler, Vice-President.

Miss Effie L. Feagan, Secretary and Treasurer.

The officers of the Charleston Club of The University of Illinois are:

Mr. Earl W. Anderson, President.

Miss Nellie A. Balch, Vice-President.
