ALUMNI REGISTER

1900—1921

[Printed by authority of the State of Illinois]

The first part of the document discusses the general principles of the law of contract. It states that a contract is a legally binding agreement between two or more parties. The law of contract is concerned with the formation, performance, and breach of contracts.

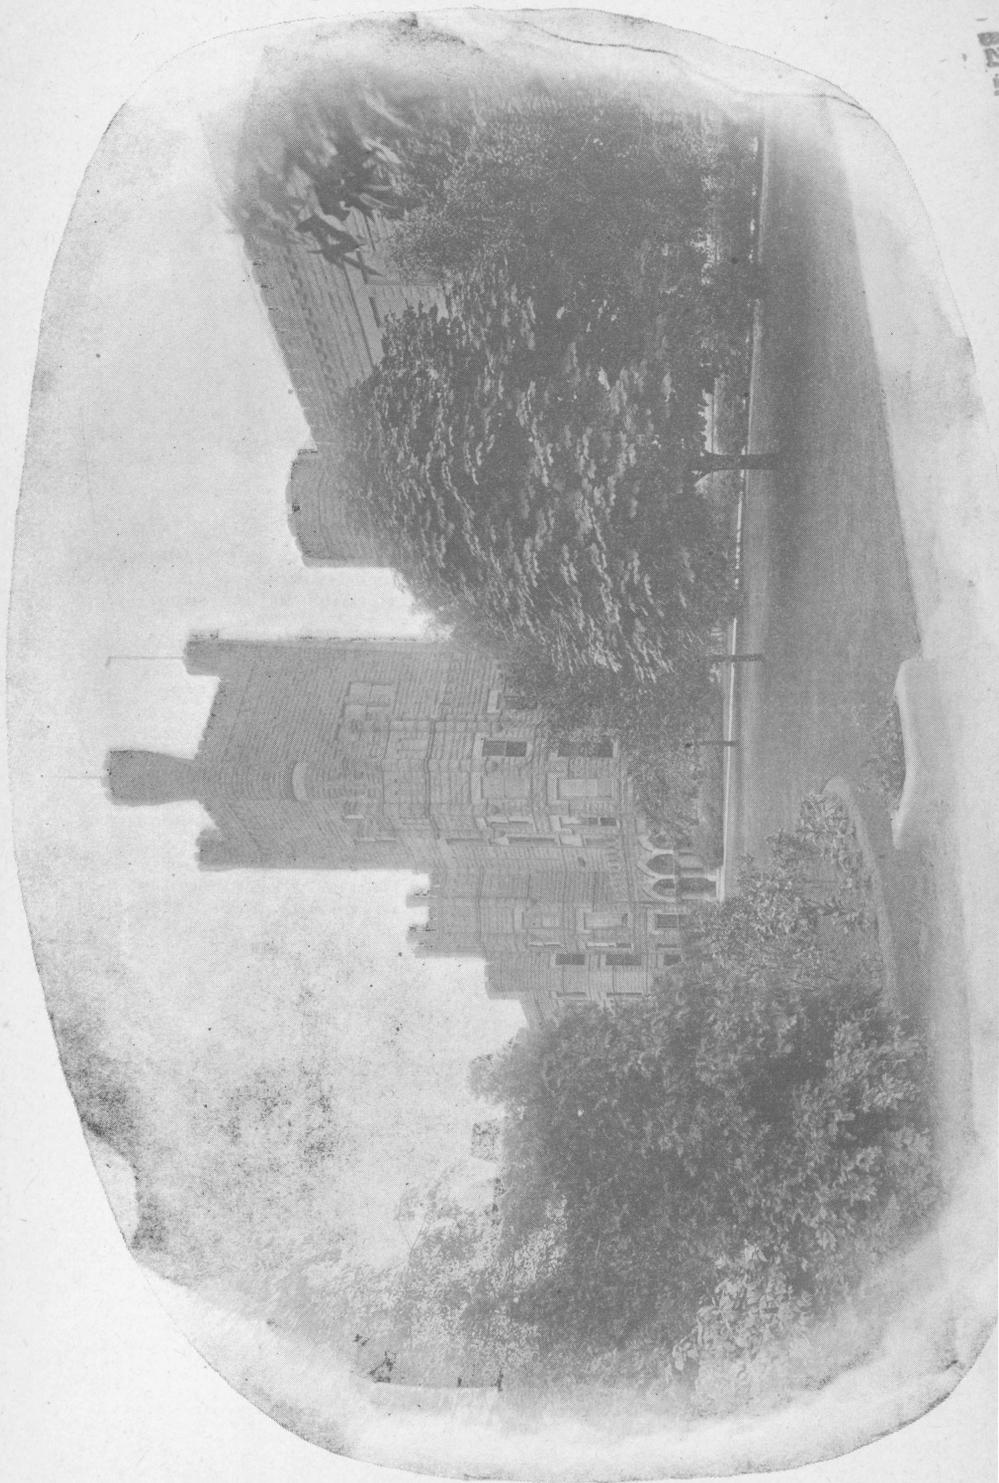

The second part of the document discusses the requirements for a valid contract. It states that a contract must be made between two or more parties who are legally competent to enter into a contract. The parties must have a mutual understanding of the terms of the contract, and the contract must be supported by consideration.

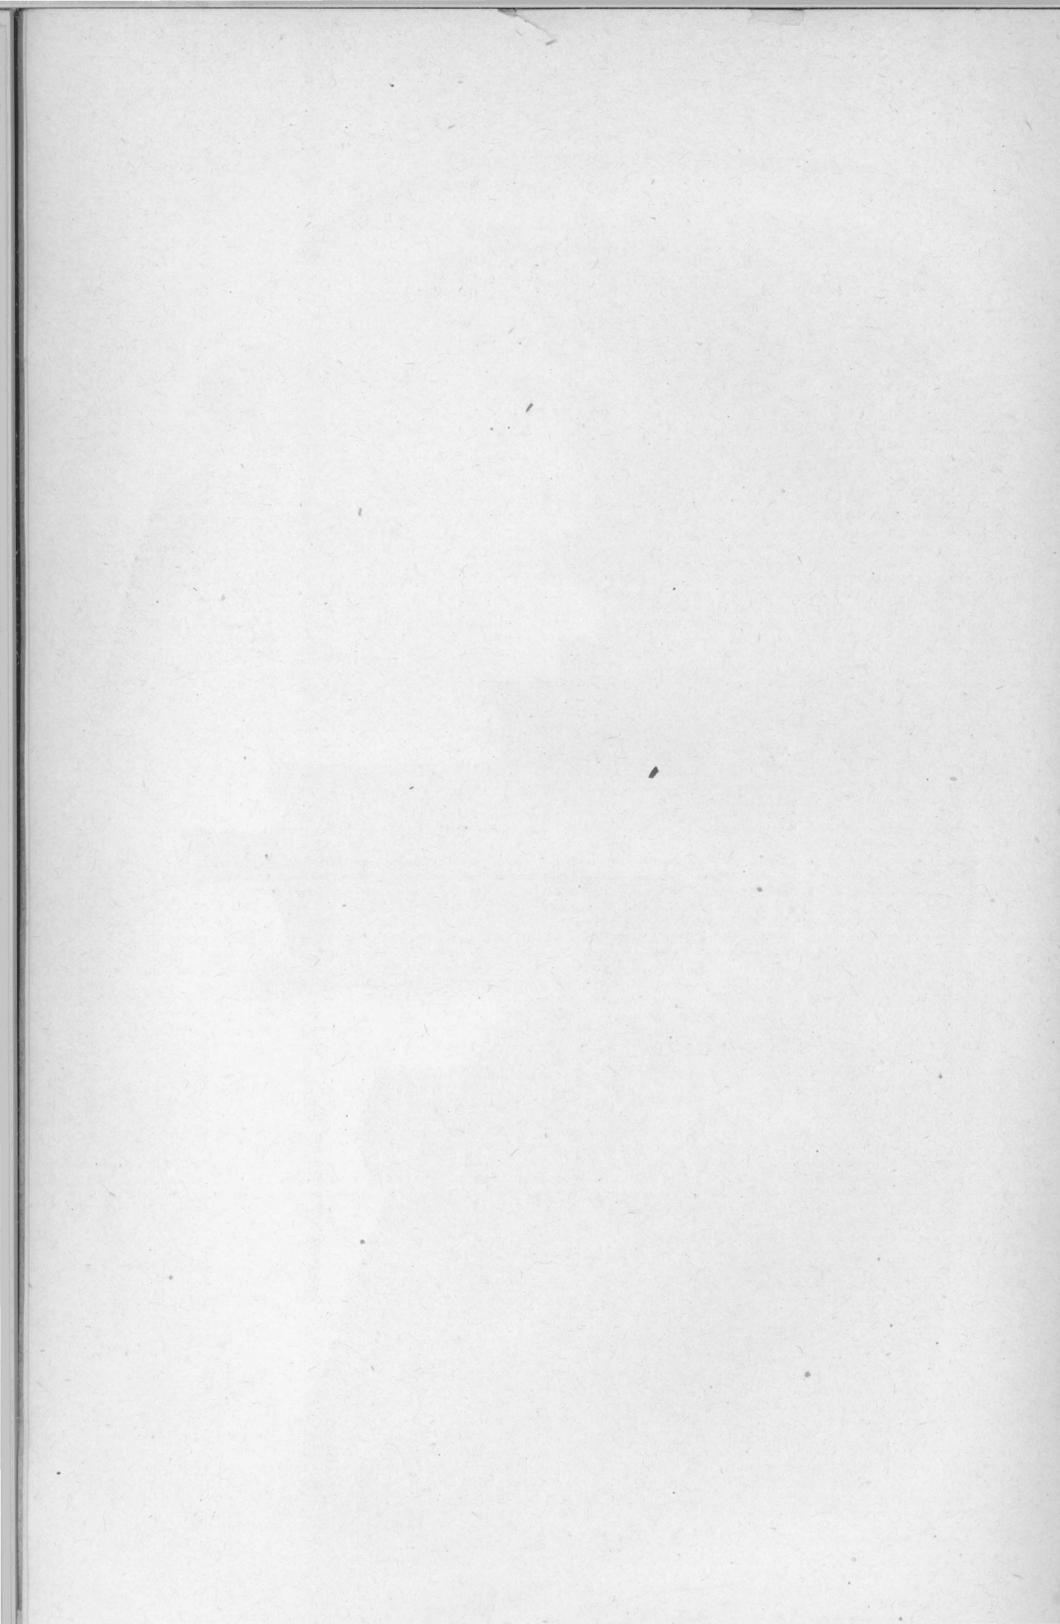

The third part of the document discusses the formation of a contract. It states that a contract is formed when the parties have reached an agreement on all the essential terms of the contract. The agreement must be made in a certain way, and the contract must be supported by consideration.

The fourth part of the document discusses the performance of a contract. It states that the parties to a contract must perform their obligations under the contract. If a party fails to perform its obligations, it may be liable for breach of contract.

The fifth part of the document discusses the breach of a contract. It states that a contract is breached when a party fails to perform its obligations under the contract. The law of contract provides remedies for breach of contract, including damages and specific performance.

FOREWORD

The Alumni Register presents an outline of the history of our graduates. Year by year the classes have gone away—from the class of four graduates in 1900 to the class of seventy-two in 1922; from the time when we were only one year old to the time when we are twenty-three; from the time when we had no history to the time when we have a proud record of our graduates and of our school; from the time when there were no traditions, no customs, to the time when the calendar is rich in a pleasing succession of annual events and when a walk over the campus shows reminders of the classes once here.

Those of our alumni who have gone to the universities and professional schools—and we take pride in the fact that the number is large—have won for us an enviable reputation by their distinguished scholarship. Those who have gone into business or into professions have met with marked success. We have just cause for pride in our graduates and are heartened and strengthened by their success.

The class of 1924 will have the honor of graduating at our twenty-fifth anniversary. May every living graduate be here to celebrate that anniversary and may he find here for that celebration every living member—past or present—of the faculty.

THE ALUMNI REGISTER

This Alumni Register contains the names of all alumni of the Eastern Illinois State Teachers College from 1900 to 1921, inclusive, and, with the exception of ten, the present addresses of all alumni now living.

The Register attempts to give a short history of each graduate since graduation. The data were compiled from the records sent in by the alumni, a few of which were not complete. It is not to be expected that the Register contains no errors, and it is hoped that any errors discovered, and also information concerning those alumni whose reports are not complete, will be reported to the Registrar so that the permanent record may be complete and accurate. The alumni whose records are incomplete are marked with a dagger (†) in front of the name.

The names of the alumni are arranged alphabetically by classes. In all cases where the town is in Illinois, the name of the state is omitted. The last address given is the address for the year 1921-22, but in some cases the occupation and street address are not the same for the period of years indicated.

There is also an alphabetical index of alumni and a finding list of married women. An alphabetical index of all former members of the faculty is included, and in most cases their present addresses are given.

The names of alumni who are deceased are marked with an asterisk (*) in front of the name. The names of those who served in the World War after graduation are marked with a flag in front of the name.

The following facts are of interest:

There are nine hundred and eighty-four alumni including the class of 1921. Of these about 30% have had at least a year's college work in addition to the diploma here; about 20% have received the bachelor's degree; and 3.6%, the master's degree. There are twenty-two who have received the doctor's degree in medicine, law, or philosophy.

Five hundred and one are engaged in school work of some kind; twelve are teaching in rural schools; two hundred and seventy are teaching in grade schools; ninety-three are teaching in high schools; thirty are teaching in colleges and universities. There are fifteen principals of grade schools, twenty-eight principals of high schools, and twelve superintendents. Supervisors and teachers of manual training, physical training, household science, music, and art number thirty-five; primary supervisors, four; and general supervisors, two.

Our alumni are to be found in thirty-five states and the District of Columbia, and in seven foreign countries. About forty per cent of our alumni have married. Twenty-nine are deceased.

✠*MARTIN OTTO SCHAHNER

Corporal Martin O. Schahner is the only graduate who was killed in action in the great war. He fell in the drive at St. Mihiel and lies buried in the Bois de Bouveaux, near Thiacourt. Our Athletic Field is now called Schahner Field in his honor. A bronze tablet on a granite boulder near the entrance bears the name.

His class in loving memory of him has placed a bronze tablet on the pergola which was the gift of the class of 1917.
