**External Relations Focus Statement**

External Relations develops, facilitates, and maintains strong relations with internal and external University constituents to increase public and private resources and enhance the quality of academic programs resulting in increased funding for the University. External Relations heightens the University's state and national image through integrated relationship marketing.

The committee has also drafted a SWOT analysis and will build on the strengths, weaknesses, opportunities and threats defined therein to establish a long-range vision statement and to identify objectives within the framework of the Presidential Goals.
