In announcing the award, the ICTM stated, "Dr. LeDuc is an outstanding educator who truly cares about his faculty and students. He is held in high regard by his colleagues because of his expertise in mathematics education, research, and administration. His achievements and honors have been numerous. His work with the Second International Mathematics Study has given him a unique perspective for the reforms in the teaching of mathematics. It is because of his many contributions to mathematics education that he was chosen as the recipient of the 1990 Distinguished Life Member Award."
