Twitter Message:

Option One

Of non-reported sexual violence crimes:

20% feared retaliation

13% believed the police would not do anything to help

2% believed the police could not do anything to help

8% believed it was not important enough to report

<https://victimsofcrime.org/>

<https://www.rainn.org/>

Option Two:

CDC uses a 4-step approach to address public health problems like sexual violence.

1. Define the problem
2. Identify risk and protective factors
3. Develop and test prevention strategies
4. Assure widespread adoption

The ultimate goal is to stop sexual violence before it begins.
