This Specimen is brought to you for free and open access by the Stover-Ebinger Herbarium at The Keep. It has been accepted for inclusion in Specimens by Name by an authorized administrator of The Keep. For more information, please contact tabruns@eiu.edu.
Plants of North Carolina

Viscaceae
Phoradendron leucarpum (Rafinesque) Rev. & M.C. Johnston

North Carolina: Swain County
35.46643° North Latitude, -83.66627° West Longitude
26 feet (WGS84/NAD83)

The Great Smoky Mountains National Park. Pilkey Creek Watershed above Fontana Lake. Tuskegee Quadrangle. Elevation about 1755 feet. AT junction of Fontana Lake with Pilkey Creek (von Pilkey Creek).

Growing in Diospyros virginiana (persimmon tree). Base of the persimmon was at this time inundated by Lake Fontana where Pilkey Creek enters the lake. Growing attached to branch in crown of the tree.
